1. Document Control

Date	Version	Author & Business Unit Info	Reviewed By & Business Unit Info	Approved By & Business Unit Info	Change History
03 October 2026	1.0	iorta TechNXT			Initial issue

2. Acronyms

Acronym / Symbol	Definition / Meaning
OOTB	Out of the box
SMTP	Simple Mail Transfer Protocol
PLA	Preliminary Loss Advice
OR	Official receipt
AR	Acknowledgement receipt
SOA	Statement of account
DN	Debit note
BIR	Bureau of Internal Revenue
IAR	Industrial All Risks
HTML	Hypertext Markup Language
API	Application programming interface

3. About this document

This document lists every message BrokerVerse OOTB sends or prepares: e-mails to clients, insurers, agents and staff, the in-app notifications in the header bell, and the printed documents that accompany the client and insurer journey. For each e-mail it gives the trigger, the recipient, the template and where it is configured, the subject and body exactly as seeded, the merge fields, attachments and the setting that switches it on or off.

The facts come from the application code (every call that queues an e-mail or creates a notification) and from the seeded settings of the loaded test system on 03 October 2026. The companion workbook

BrokerVerse_Communication_Touchpoints.xlsx holds the same inventory in one sheet per channel.

4. How messages are sent

4.1 E-mail

Every e-mail is first written to the outbox (email_outbox): recipient, cc, subject, HTML body, template code, and the record it concerns. The **E-mail outbox** job (every 5 minutes) sends up to 50 queued messages per run through the SMTP server and marks them sent, or retries up to 5 times and then marks them failed. Master > E-mail Outbox lists every message with its status and last error, and has Retry.

Control	Setting / location	OOTB
Master switch: e-mail leaves the system	notification.email_enabled (Master > Configuration > Notifications & E-mail > Notifications)	Off
SMTP server	Environment variable SMTP_URL	Not set in the OOTB package
Sender	notification.from_address	BrokerVerse <connect@iortatechnxt.com>
Outbox retention	housekeeping.email_outbox_sent_days, housekeeping.email_outbox_failed_days	180, 730 days

While sending is off, e-mails still queue (the test system holds 260 queued e-mails), and the send and share dialogs tell the user that the message was only queued. When sending is switched on, the queue is delivered by the next run, so review the outbox before switching on in a system that held test data.

E-mails carry no attachments. Documents travel as download links (scheduled reports, remittance statements) or are printed and sent separately. Several bodies refer to a document ("Please find our commission debit note") that is not attached.

4.2 Templates and merge fields

Templates are settings. Most are edited on Master > Configuration (the area is given with each template). A template is HTML with placeholders in double braces, for example {{policyNumber}}. Values are HTML-escaped in the body and inserted as plain text in the subject. A placeholder with no value is left empty. A template whose subject is missing stops the action with "E-mail template email.template.<key> is not configured". {{companyName}} is the name of the letterhead company (Company master).

4.3 In-app notifications

Notifications appear under the bell in the top bar (Top bar > Notifications). A notification goes to one user, or to every user holding a permission (an "audience"), with a type (info, task, approval, reminder, alert, warning, action), a title, a message and a link to the record. Read notifications are deleted after housekeeping.notifications_read_days (180).

4.4 Other channels

There is no SMS, Viber or WhatsApp sending. Where a screen offers SMS, Phone or Letter (renewal reminders, collection follow-ups, remittance notifications), the action

is only logged. Staff share the quotation approval link and online payment links by copying them (Copy approval link; payment link pay address).

Two-factor authentication uses an authenticator app (time-based codes); the system sends no code by e-mail or SMS for it.

5. Journey overview

Stage	Client	Insurer	Internal
Quotation	Quotation approval request (E01), share quotation (E02, E03)	Quotation submitted to insurer (E04)	Quotation sent for approval, customer accepted, quotation approved
Placement		Request for quotation (E05), placement slip firm order (E06)	
Policy issue and servicing	Policy issued (E07), endorsement / cancellation (E08)		Policy issued, endorsement completed
Billing and collection	Payment reminder (E11), collection follow-up (E12)		Payment to verify, online payments, credit limit, warranty, collection reminders
Claims	PLA copy (cc of E13)	Preliminary Loss Advice (E13)	New claim, status changes, settlement approval
Renewal	Renewal notices (E09), renewal reminder (E10)		Renewal reminders and approvals, renewed, lapsed
Remittance and commission		Commission debit note (E14), remittance bill / statement (E15, E16), composed notifications (E17)	Remittance, debit note, incentive approvals
Finance and period end			JV and petty cash approvals, month-end reminders
Reporting and security			Scheduled reports (E18), password reset (E19)

6. E-mails to clients

No.	E-mail	Stage	Recipient
E01	Quotation approval request	Quotation	Lead e-mail, else client e-mail (required when sending is enabled)
E02	Share quotation	Quotation	The address typed in the Share dialog; lead e-mail from the coverage view
E03	Custom e-mail from the Share dialog	Quotation	Any address typed (with optional cc)
E07	Policy issued	Policy issue	Client e-mail on the policy, else the lead e-mail
E08	Endorsement or cancellation to customer	Policy servicing	Client e-mail (skipped silently when the client has none)
E09	Renewal notice (First, Second, Final)	Renewal	Client e-mail (required; a notice by e-mail is refused when the client has none)
E10	Renewal reminder	Renewal	Client e-mail
E11	Premium payment reminder	Billing and collection	Client e-mail (clients without one are skipped and listed)
E12	Collection follow-up e-mail	Billing and collection	Client e-mail, or the address typed

6.1 E01 Quotation approval request

Item	Detail
Trigger	Staff click Send for customer approval on a Draft quotation (quotation must have a premium).
Screen	Operations > Sales & Marketing > Quotations > Quote detail > Send for customer approval
Recipient	Lead e-mail, else client e-mail (required when sending is enabled)
Channel	E-mail through the outbox
Template code (outbox)	quote_approval
Configured in	email.template.quote_approval; Master > Configuration > Notifications & E-mail > E-mail templates
Merge fields	customerName, productType, quotationNumber, currency, grossPremium, approvalUrl, validHours, companyName
Attachments	None; the e-mail carries a signed approval link valid for quotations.approval_link_ttl_hours (168 hours)
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)
Notes	Status becomes PendingCustomer even when the e-mail cannot leave; staff can copy the link (Copy approval link) to share by Viber or WhatsApp. Also notifies the Processing Team (in-app).

Subject:

{{companyName}}: please review quotation {{quotationNumber}}

Body:

<p>Dear {{customerName}},</p>
<p>Your {{productType}} quotation {{quotationNumber}} is ready. Gross premium: {{currency}} {{grossPremium}}.</p>
<p>Review and accept the quotation (link valid for {{validHours}} hours).</p>
<p>Thank you,
{{companyName}}</p>

6.2 E02 Share quotation

Item	Detail
Trigger	Staff share a quotation from the Share dialog, or e-mail it from the coverage detailed view before a policy exists.
Screen	Operations > Quotation > Quote detail > Share; Operations > Sales & Marketing > Quotations > Coverage detailed view
Recipient	The address typed in the Share dialog; lead e-mail from the coverage view
Channel	E-mail through the outbox
Template code (outbox)	share_quote
Configured in	email.template.share_quote; Master > Configuration > Notifications & E-mail > E-mail templates
Merge fields	customerName, message, quotationNumber, productType, currency, grossPremium, validUntil, companyName, insurerName, netPremium, sumInsured
Attachments	None (the quotation PDF is downloaded separately: Share > Download)
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

Your {{productType}} quotation {{quotationNumber}}

Body:

<p>Dear {{customerName}},</p>
<p>{{message}}</p>
<p>Quotation {{quotationNumber}} ({{productType}}): gross premium {{currency}} {{grossPremium}}, valid until {{validUntil}}.</p>
<p>{{companyName}}</p>

6.3 E03 Custom e-mail from the Share dialog

Item	Detail
Trigger	Staff edit the generated text in the Share dialog and send it.
Screen	Operations > Quotation > Quote detail > Share

Item	Detail
Recipient	Any address typed (with optional cc)
Channel	E-mail through the outbox
Template code (outbox)	custom
Configured in	None: the text is composed on screen (Generate starts from email.template.share_quote)
Merge fields	-
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

(typed by the user)

Body:

(typed by the user)

6.4 E07 Policy issued

Item	Detail
Trigger	Staff click the e-mail action on the coverage detailed view of a quotation that has a policy. Not sent automatically at issue.
Screen	Operations > Sales & Marketing > Quotations > Coverage detailed view
Recipient	Client e-mail on the policy, else the lead e-mail
Channel	E-mail through the outbox
Template code (outbox)	policy_issued
Configured in	email.template.policy_issued; Master > Configuration > Notifications & E-mail > E-mail templates
Merge fields	customerName, policyNumber, productType, quotationNumber, currency, grossPremium
Attachments	None (policy schedule PDF downloaded from Policy detail > Policy schedule)
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

Your policy {{policyNumber}} has been issued

Body:

<p>Dear {{customerName}},</p>
<p>Policy {{policyNumber}} ({{productType}}) was issued from quotation {{quotationNumber}}. Gross premium: {{currency}} {{grossPremium}}.</p>

6.5 E08 Endorsement or cancellation to customer

Item	Detail
Trigger	Staff send a draft endorsement to the customer, or initiate a policy cancellation.

Item	Detail
Screen	Operations > Policy > Endorsement > Summary (Send to customer / Initiate cancellation)
Recipient	Client e-mail (skipped silently when the client has none)
Channel	E-mail through the outbox
Template code (outbox)	endorsement_customer
Configured in	email.template.endorsement_customer; Master > Configuration > Notifications & E-mail > E-mail templates
Merge fields	customerName, action (endorsement or cancellation), endorsementNumber, policyNumber, currency, premiumDelta, companyName
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

```
{{companyName}}: {{action}} {{endorsementNumber}} on policy {{policyNumber}}
```

Body:

```
<p>Dear {{customerName}},</p>
<p>We have prepared {{action}} <b>{{endorsementNumber}}</b> on policy
{{policyNumber}}. Premium adjustment: {{currency}} {{premiumDelta}}.</p>
<p>{{companyName}}</p>
```

6.6 E09 Renewal notice (First, Second, Final)

Item	Detail
Trigger	Staff send the next notice from the Renewal Queue, or a Renewal Batch sends notices for the selected policies.
Screen	Operations > Renewals > Renewal Queue (Send notice); Operations > Renewals > Renewal Batch > Send Renewal Notices
Recipient	Client e-mail (required; a notice by e-mail is refused when the client has none)
Channel	E-mail through the outbox
Template code (outbox)	renewal-notice-first / -second / -final
Configured in	renewals.notice_subject, renewals.notice_template, renewals.notice_stages; Master > Configuration > Policies, Endorsements & Renewals > Renewals
Merge fields	noticeLabel (First Notice, Second Notice, Final Notice), clientName, policyNumber, insurerName, expiryDate, currency, premium, companyName
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail); order enforced by renewals.enforce_notice_order
Notes	The policy owner also gets an in-app reminder. The same subject and body serve all three stages; only noticeLabel changes.

Subject:

{{noticeLabel}}: renewal of policy {{policyNumber}} (expires {{expiryDate}})

Body:

<p>Dear {{clientName}},</p>
<p>Your policy {{policyNumber}} with {{insurerName}} expires on {{expiryDate}}.</p>
<p>Renewal premium: {{currency}} {{premium}}.</p>
<p>Please contact us to renew and keep your cover in force.</p>
<p>{{companyName}}</p>

6.7 E10 Renewal reminder

Item	Detail
Trigger	Staff log a reminder with method Email.
Screen	Operations > Renewals > Renewal Queue > Send Reminder
Recipient	Client e-mail
Channel	E-mail through the outbox
Template code (outbox)	renewal-reminder
Configured in	renewals.notice_subject, renewals.notice_template; Master > Configuration > Policies, Endorsements & Renewals > Renewals
Merge fields	as the renewal notice, with noticeLabel = Renewal Reminder
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)
Notes	Methods SMS, Phone and Letter are only logged; nothing is sent.

Subject:

{{noticeLabel}}: renewal of policy {{policyNumber}} (expires {{expiryDate}})

Body:

<p>Dear {{clientName}},</p>
<p>Your policy {{policyNumber}} with {{insurerName}} expires on {{expiryDate}}.</p>
<p>Renewal premium: {{currency}} {{premium}}.</p>
<p>Please contact us to renew and keep your cover in force.</p>
<p>{{companyName}}</p>

6.8 E11 Premium payment reminder

Item	Detail
Trigger	The Collection reminders job (daily 08:00) or the Send Payment Reminders Now button: bills due within collections.reminder_days_before (7) days or overdue, not reminded in collections.reminder_repeat_days (7) days.

Item	Detail
Screen	Master > Schedules (collection-reminders); Accounts > Collections > Send Payment Reminders Now
Recipient	Client e-mail (clients without one are skipped and listed)
Channel	E-mail through the outbox
Template code (outbox)	collection-reminder
Configured in	collections.email_subject, collections.email_template; Master > Configuration > Billing, Collections & Credit > Collections
Merge fields	clientName, policyNumber, billNumber, amount (with peso sign), dueDate, daysPastDue, companyName
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail); the job can be switched off on Master > Schedules
Notes	The body says "is due on" also for overdue bills. The policy owner and holders of write:collections get an in-app reminder.

Subject:

Premium payment reminder – Policy {{policyNumber}}

Body:

```
<p>Dear {{clientName}},</p>
<p>This is a friendly reminder that the premium of <b>{{amount}}</b> for policy
<b>{{policyNumber}}</b> (bill {{billNumber}}) is due on {{dueDate}}.</p>
<p>Please disregard this notice if payment has been made.</p>
<p>{{companyName}}</p>
```

6.9 E12 Collection follow-up e-mail

Item	Detail
Trigger	Staff send an e-mail from a collection item, or a premium reminder from the Premium Warranty Monitor.
Screen	Accounts > Collections > Detail > Send e-mail; Accounts > Credit Control > Premium Warranty Monitor > Remind
Recipient	Client e-mail, or the address typed
Channel	E-mail through the outbox
Template code (outbox)	collection-follow-up
Configured in	collections.email_subject (when no subject is typed), collections.email_template (when no notes are typed); Master > Configuration > Billing, Collections & Credit > Collections
Merge fields	as the payment reminder
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)
Notes	Logged as an Email action on the collection item (and as a reminder on the warranty monitor).

Subject:

Premium payment reminder – Policy {{policyNumber}} (or the subject typed)

Body:

The notes typed on screen, or the collection template above

7. E-mails to insurers and agents

No.	E-mail	Stage	Recipient
E04	Quotation submitted to insurer	Quotation	Insurer contact e-mail (Insurance Company master); insurers without one are listed as failed
E05	Request for quotation (broker slip)	Placement	Each pending insurer on the slip (contact e-mail from the Insurance Company master)
E06	Placement slip (firm order)	Placement	Each participant not yet confirmed; one e-mail per insurer showing its own share
E13	Preliminary Loss Advice	Claims	Insurer e-mail, else claims.pla_default_recipient (OOTB claims@brokerverse.local); cc the insured client
E14	Commission debit note	Remittance and commission	The address entered, else the insurer e-mail
E15	Agency bill or insurer remittance statement	Remittance and commission	The address entered, else the agent user e-mail, else the insurer e-mail
E16	Remittance statement (advice)	Remittance and commission	Each address entered
E17	Remittance notification (composed)	Remittance and commission	Each recipient containing @

7.1 E04 Quotation submitted to insurer

Item	Detail
Trigger	Staff submit a customer-accepted quotation to the insurer, or send a quotation to selected insurers.
Screen	Operations > Sales & Marketing > Quotations > Quote detail > Submit to insurer; Quote detail > Share > Send to insurer
Recipient	Insurer contact e-mail (Insurance Company master); insurers without one are listed as failed
Channel	E-mail through the outbox
Template code (outbox)	insurer_submission
Configured in	email.template.insurer_submission; Master > Configuration > Notifications & E-mail > E-mail templates
Merge fields	insurerName, quotationNumber, customerName, productType, currency, sumInsured, grossPremium, companyName
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

Placement request {{quotationNumber}} - {{productType}}

Body:

<p>Dear {{insurerName}} underwriting team,</p>
<p>Please review quotation {{quotationNumber}} for {{customerName}}
({{productType}}), sum insured {{currency}} {{sumInsured}}, indicated gross premium
{{currency}} {{grossPremium}}.</p>
<p>{{companyName}}</p>

7.2 E05 Request for quotation (broker slip)

Item	Detail
Trigger	Staff submit a broker slip to the market, or add an insurer to a submitted slip.
Screen	Operations > Sales & Marketing > Request for Quotation (Broker Slip) > Submit; Detail > Add insurer
Recipient	Each pending insurer on the slip (contact e-mail from the Insurance Company master)
Channel	E-mail through the outbox
Template code (outbox)	broker_slip_request
Configured in	email.template.broker_slip_request; Master > Configuration > Notifications & E-mail > E-mail templates
Merge fields	insurerName, slipNumber, insuredName, productType, currency, sumInsured, period, covers, responseDueDate, companyName, offerNumber
Attachments	None (Broker Slip PDF available on the detail screen)
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

Request for quotation {{slipNumber}} - {{productType}} - {{insuredName}}

Body:

<p>Dear {{insurerName}} underwriting team,</p>
<p>We invite your quotation for the risk below.</p>
<p>Broker slip {{slipNumber}}
Insured: {{insuredName}}
Class: {{productType}}
Sum insured: {{currency}} {{sumInsured}}
Period: {{period}}
Requested covers: {{covers}}</p>
<p>Please send your terms (premium, rate, deductibles, conditions, the line you can write and the validity of the offer) by {{responseDueDate}}.</p>
<p>{{companyName}}</p>

7.3 E06 Placement slip (firm order)

Item	Detail
Trigger	Staff send the placement slip to the participating insurers (all, or selected ones).
Screen	Operations > Sales & Marketing > Placement Slips > Detail > Send to insurer(s)
Recipient	Each participant not yet confirmed; one e-mail

Item	Detail
	per insurer showing its own share
Channel	E-mail through the outbox
Template code (outbox)	placement_order
Configured in	email.template.placement_order; Master > Configuration > Notifications & E-mail > E-mail templates
Merge fields	insurerName, placementNumber, insuredName, productType, period, currency, sumInsured, sharePercent, role, shareSumInsured, sharePremium, sharePremiumTotal, companyName
Attachments	None (Placement Slip PDF per participant on the detail screen)
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

Placement slip {{placementNumber}} - firm order - {{insuredName}}

Body:

```
<p>Dear {{insurerName}} underwriting team,</p>
<p>On behalf of our client we place the risk below with you and request your
confirmation of cover and your policy / certificate number.</p>
<p>Placement slip <b>{{placementNumber}}</b><br/>Insured: {{insuredName}}<br/>Class:
{{productType}}<br/>Period: {{period}}<br/>Sum insured (100%): {{currency}}
{{sumInsured}}<br/>Your share: <b>{{sharePercent}}%</b> ({{role}})<br/>Your share of
sum insured: {{currency}} {{shareSumInsured}}<br/>Your share of premium: {{currency}}
{{sharePremium}} (gross {{currency}} {{sharePremiumTotal}})</p>
<p>{{companyName}}</p>
```

7.4 E13 Preliminary Loss Advice

Item	Detail
Trigger	A claim is registered (the registration form includes the Send mail step).
Screen	Operations > Claims > Register claim > Send mail
Recipient	Insurer e-mail, else claims.pla_default_recipient (OOTB claims@brokerverse.local); cc the insured client
Channel	E-mail through the outbox
Template code (outbox)	claim-pla
Configured in	claims.pla_subject, claims.pla_template; Master > Configuration > Claims
Merge fields	insurerName, policyNumber, insuredName, claimNumber, lossDate, lossTime, lossPlace, lossType, currency, estimate, message (typed text), companyName
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail); claims.pla_enabled
Notes	When the user types a subject other than "New Claim Notification", the subject becomes "<typed subject> - <claim number>" (the test

Item	Detail
	data shows "Claim notification POL-... - CLM-...").

Subject:

Preliminary Loss Advice - {{claimNumber}} / {{policyNumber}}

Body:

<p>Dear {{insurerName}},</p>
 <p>We advise a loss under policy {{policyNumber}} of {{insuredName}}.</p>
 <p>Claim reference: {{claimNumber}}
Date of loss: {{lossDate}}
 {{lossTime}}
Place of loss: {{lossPlace}}
Nature of loss:
 {{lossType}}
Estimated amount: {{currency}} {{estimate}}</p>
 <p>{{message}}</p>
 <p>{{companyName}} Claims</p>

7.5 E14 Commission debit note

Item	Detail
Trigger	Staff send an approved commission debit note (direct bill).
Screen	Accounts > Remittance > Direct Bill Processing > Debit Notes > Send
Recipient	The address entered, else the insurer e-mail
Channel	E-mail through the outbox
Template code (outbox)	commission-debit-note
Configured in	direct_bill.email_subject, direct_bill.email_body; Master > Configuration > Remittance & Reconciliation > Direct bill
Merge fields	dnNumber, insurerName, amount (currency and amount), dueDate, companyName
Attachments	None, although the body says "Please find our commission debit note"; the PDF is printed from Debit Notes > Print
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

Commission debit note {{dnNumber}} – {{companyName}}

Body:

<p>Dear {{insurerName}},</p>
 <p>Please find our commission debit note {{dnNumber}} for {{amount}}, due on {{dueDate}}.</p>
 <p>Kindly settle the amount net of the expanded withholding tax on the commission and send BIR Form 2307 for the tax withheld.</p>
 <p>{{companyName}}</p>

7.6 E15 Agency bill or insurer remittance statement

Item	Detail
Trigger	Staff send a generated agency bill (or an

Item	Detail
	insurer remittance bill).
Screen	Accounts > Remittance > Agency Bill Processing > Send
Recipient	The address entered, else the agent user e-mail, else the insurer e-mail
Channel	E-mail through the outbox
Template code (outbox)	remittance-bill
Configured in	remittance.bill_email_subject, remittance.bill_email_body; Master > Configuration > Remittance & Reconciliation > Remittance to insurers
Merge fields	billNumber, billDate, currency, amount (net due plus previous balance), dueDate, companyName
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

Statement of account {{billNumber}}

Body:

<p>Bill {{billNumber}} dated {{billDate}}: {{currency}} {{amount}}, due {{dueDate}}.</p>

7.7 E16 Remittance statement (advice)

Item	Detail
Trigger	Staff generate a remittance statement and enter e-mail recipients.
Screen	Accounts > Remittance > Statements > Generate
Recipient	Each address entered
Channel	E-mail through the outbox
Template code (outbox)	remittance-statement
Configured in	remittance.statement_email_subject, remittance.statement_email_body; Master > Configuration > Remittance & Reconciliation > Remittance to insurers
Merge fields	period, downloadUrl, fileName, companyName
Attachments	None; a link to the CSV statement
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

Remittance statement {{period}}

Body:

<p>Your remittance statement for {{period}} is available: {{fileName}}</p>

7.8 E17 Remittance notification (composed)

Item	Detail
Trigger	Staff compose a notification with channel Email.
Screen	Accounts > Remittance > Notifications > Compose
Recipient	Each recipient containing @
Channel	E-mail through the outbox
Template code (outbox)	remittance-notification or the template code chosen
Configured in	Remittance notification templates NTF-001 and NTF-002 (Master > Finance > Remittance Master) prefill the screen; Master > Finance > Remittance Master
Merge fields	Template NTF-001 variables {BillNo}, {Amount}, {DueDate}, {InsuredName}
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)
Notes	Channel SMS is recorded but nothing is sent. The template triggers ("Due Date - 5 days", "Payment Received") are not automated.

Subject:

(typed or from the template)

Body:

The typed content wrapped in a paragraph

8. E-mails to staff

No.	E-mail	Stage	Recipient
E18	Scheduled report	Reporting	The schedule recipients (up to 50 addresses)
E19	Password reset code	Security	The user e-mail on the account (inactive users and users without e-mail get nothing; the screen answers the same in every case)

8.1 E18 Scheduled report

Item	Detail
Trigger	A report schedule runs (its job report- <code><id></code>), or Run now.
Screen	Master > Schedules (report- <code><id></code>); report schedules via API
Recipient	The schedule recipients (up to 50 addresses)
Channel	E-mail through the outbox
Template code (outbox)	scheduled-report
Configured in	reports.email_subject, reports.email_body; Master > Configuration > Reports & Dashboards
Merge fields	companyName, reportName, from, to, rows, format, fileName, downloadUrl, generatedAt
Attachments	None; a signed link valid reports.download_link_ttl_hours (72)
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)

Subject:

```
{{companyName}}: {{reportName}} ({{from}} to {{to}})
```

Body:

```
<p>Good day,</p>
<p>The scheduled report <b>{{reportName}}</b> for {{from}} to {{to}} is ready
({{rows}} rows, {{format}}).</p>
<p><a href="{{downloadUrl}}">Download {{fileName}}</a></p>
<p>{{companyName}}</p>
```

8.2 E19 Password reset code

Item	Detail
Trigger	A user asks for a reset code on the sign-in page (Forgot password).
Screen	Sign-in > Forgot password
Recipient	The user e-mail on the account (inactive users and users without e-mail get nothing; the screen answers the same in every case)
Channel	E-mail through the outbox
Template code (outbox)	password-reset

Item	Detail
Configured in	security.reset_email_subject, security.reset_email_body; Master > Configuration > Security & Access > Security
Merge fields	code (6 digits), minutes (security.reset_code_minutes, 15), companyName
Attachments	None
On / off	notification.email_enabled on and SMTP configured (applies to every e-mail)
Notes	Earlier codes are withdrawn; a code is withdrawn after security.reset_code_max_attempts (5) wrong tries. Requests are rate limited.

Subject:

Your {{companyName}} password reset code

Body:

<p>Your verification code is {{code}}. It expires in {{minutes}} minutes. If you did not ask for it, ignore this e-mail.</p>

9. In-app notifications

Messages are quoted as in the code; text in angle brackets is filled from the record. "Holders of <permission>" means every user whose roles grant that permission.

9.1 Quotation

Event	Recipient	Type	Title	Message	On / off
Quotation sent to customer for approval	Users with roles in quotations.approval_notify_roles (Processing Team)	approval	Quotation sent for approval	Quotation <number> (<customer>, <premium>) was sent to the customer for approval	notification.approval_requests
Customer accepts by the approval link, or staff record an acceptance	Quotation creator	task	Customer accepted quotation	The customer accepted quotation <number>; you can proceed to policy (recorded: "... (<channel>); ...")	None
Quotation approved	Quotation owner	info	Quotation approved	Quotation <number> was approved and can be converted to a policy	None

9.2 Policy issue

Event	Recipient	Type	Title	Message	On / off	
Policy issued from a quotation	Policy owner	info	Policy issued	Policy <number> was issued from quotation <number> (bill <bill number>)	direct bill: the client pays the insurer)	None
Policy issued from a placement slip	Placement owner	info	Policy issued	Policy <number> was issued from placement slip <number>	None	

9.3 Billing and collection

Event	Recipient	Type	Title	Message	On / off
Premium payment captured on a policy, not yet verified	Accounting role users	approval	Premium payment to verify	<mode> <amount> (ref <reference>) on policy <number>	None
Online payment received, failed to apply or amount differs	Link creator and roles in payments.notify_roles_on_error (Accounting)	task	Online payment received / Online payment not applied / Online payment to review	<link number>: ... (amount, target and reason)	None
Collection	Policy owner	reminder	Premium due	<client>:	None

Event	Recipient	Type	Title	Message	On / off
reminder sent	and holders of write:collections		<date> - <policy> / Premium overdue <n> day(s) - <policy>	<amount> outstanding on <bill>	
Policy issued over the client credit limit	Holders of write:collections	warning	Client credit limit exceeded	<client>: open premium <exposure> is over the credit limit <limit> by <excess> after <policy>	None
Premium warranty extension requested	Holders of approve:credit-control	approval	Premium warranty extension to approve	<policy> (<client>) until <date>	None
Premium warranty extension decided	Requester	info	Warranty extension approved / rejected	<policy> until <date>: <remarks>	None
Cancellation for non-payment requested	Holders of write:endorsements	action	Cancellation for non-payment requested	<policy> (<client>): <endorsement number>	None

9.4 Policy servicing

Event	Recipient	Type	Title	Message	On / off
Endorsement completed	Policy owner	info	Endorsement completed / Policy cancelled by endorsement	Endorsement <number> on policy <number> was completed (premium change <amount>)	None

9.5 Claims

Event	Recipient	Type	Title	Message	On / off
Claim registered	Claim handler and policy owner	task	New claim <number>	Claim <number> registered on policy <number>	notification.claim_status
Claim status changes	Claim handler and policy owner	info	Claim <number>: <status>	<note> or "Claim <number> is now <status>"	notification.claim_status
Settlement submitted (maker-checker)	Claims role users except the submitter	approval	Settlement approval: <claim>	Settlement of <amount> on claim <claim> awaits approval	claims.settlement_maker_checker

9.6 Renewal

Event	Recipient	Type	Title	Message	On / off
Renewal notice sent	Policy owner	reminder	<notice label>: <policy>	<notice label> sent for policy <policy> expiring <date>	None
Renewal	Policy owner	reminder	Renewal due in	Policy	notification.ren

Event	Recipient	Type	Title	Message	On / off
notices job (60, 30, 15 days)			<n> days	<number> expires on <date>	ewal_reminder
Renewal terms submitted	Users with roles in renewals.approver_roles (Processing Team)	approval	Renewal approval: <policy>	Renewal <number> (<premium>) awaits approval	None
Renewal approved or returned	Submitter	info	Renewal approved / returned: <policy>	<note> or "Renewal <number> was approved / returned"	None
Renewal completed	Policy owner	info	Policy renewed: <policy>	New term <new policy> from <inception> to <expiry>	None
Renewal lapsed (manual or pipeline job)	Policy owner	alert	Policy lapsed: <policy>	<reason>	None

9.7 Remittance and commission

Event	Recipient	Type	Title	Message	On / off
Remittances submitted for approval	Holders of write:remittance	approval	Remittances awaiting approval	<n> remittance(s) in batch <batch> need approval	None
Remittance, settlement or transfer approved or rejected	Initiator	info	<transaction type> approved / rejected	<reference> was approved / rejected by <user>	None
Commission debit note submitted	Holders of write:remittance	approval	Commission debit note awaiting approval	<DN number> to <insurer> for <amount> needs approval	None
Commission debit note decided	Creator	info	Debit note approved / rejected	<DN number> to <insurer> was approved / rejected: <reason>	None
Incentive calculation submitted	Holders of write:incentive	approval	Incentive calculation awaiting approval	<batch> (<period>) needs approval	None
Incentive batch decided	Submitter	info	Incentive batch approved / rejected	<batch> (<period>)	None

9.8 Reinsurance

Event	Recipient	Type	Title	Message	On / off
Treaty submitted for approval	Holders of write:reinsurance	approval	Treaty awaiting approval	<number> <name> needs approval	None
Treaty decided	Submitter	info	Treaty approved / rejected	<number> <name>	None

9.9 Finance and period end

Event	Recipient	Type	Title	Message	On / off
Journal voucher submitted for approval	Holders of write:journal-vouchers	approval	Journal voucher <number> awaiting approval	<user> submitted <number> (<amount>)	None
Journal voucher approved	Creator	info	Journal voucher <number> approved	Approved and posted by <user>	None
Journal voucher rejected	Creator	alert	Journal voucher <number> rejected	<reason>	None
Petty cash request submitted	Holders of write:disbursements	approval	Petty cash request <number> awaiting approval	<requester>: <amount>	None
Petty cash request decided	Creator	info	Petty cash request <number> approved / rejected	<reason> or "By <user>"	None
Petty cash fund below minimum	Custodian, holders of write:disbursements	alert	Petty cash <code> below minimum	Available <amount>; minimum cashbox <amount>. Replenish the fund.	None
Month-end reminder job	Holders of write:period-end (high priority)	reminder	Month-end close: <period> ends in <n> day(s) / Month-end close: <period> is still open	Accounting period <period> ends on <date>. Post pending journals and prepare the month-end close run. / ... ended on <date> and is not closed yet.	Job month-end-reminder (off by default)

10. Printed documents

These documents are produced as PDF on the screens and handed or sent to the client or insurer outside the e-mail templates. They use the letterhead of the Company master (the company marked as letterhead), the signatories master, and the settings of Master > Configuration > Company & Branding > Printed documents.

Document	Where	For	Format	Configured by
Quotation (motor; fire / IAR)	Operations > Quotation > Quote detail > Share > Download	Client	PDF	Company master letterhead, documents.* settings
Package quotation; insurer comparison	Master > Finance > Package Bundles > Print; Compare Insurers	Client	PDF	Letterhead; commission never printed
Broker slip (to the market or one insurer)	Request for Quotation > Detail > Broker Slip PDF	Insurer	PDF	Letterhead
Placement slip (lead, whole security, co-insurer share)	Placement Slips > Detail > Placement Slip PDF	Insurer	PDF	Letterhead
Insurance placing slip	Operations > Policy > Policy detail > Documents	Insurer	PDF	Letterhead
Policy schedule (motor; fire / non-motor)	Operations > Policy > Policy detail > Policy schedule	Client	PDF	Letterhead, signatories
Billing statement (policy, endorsement, renewal)	Policy detail > Generate invoice	Client	PDF	documents.payme nt_instructions
Acknowledgement receipt	Operations > Policy > Payment > Payments recorded > Print acknowledgement receipt	Client	PDF	documents.acknow ledgement_receipt_note
Official receipt (single, bulk)	Accounts > Receipts > Print / Bulk print	Client	PDF	receipts.print_title, documents.receipt_footer
Payment voucher (bulk)	Accounts > Disbursement > Bulk print	Payee	PDF	Letterhead
Commission debit note	Accounts > Remittance > Direct Bill Processing > Debit Notes > Print	Insurer	PDF	Letterhead
Claims Acknowledgement Letter, Claims Data Sheet, Claims Discharge Voucher	Operations > Claims > Claim detail > Documents	Client / insurer	PDF	claims.documents (text lines with placeholders)
BIR Form 2307	Accounts > Tax > BIR Form 2307 > Print	Payee	Print	bir.* settings
Bank reconciliation statement	Accounts > Bank Reconciliation > Reconciliations	Internal	PDF	Letterhead
Digital policy after online payment	Public pay page (/pay/<token>) > Policy	Client	PDF	Package or policy schedule

Seeded wording used on documents:

Setting	Text
documents.payment_instructions	Please settle the total amount due on or before the due date. Make cheques payable to {{companyName}} and quote the bill number as the payment reference. For bank transfers or e-wallet payments, send the proof of payment to your account officer.
documents.acknowledgement_receipt_note	This acknowledgement receipt is not an official receipt. The official receipt is issued once the payment is verified by Accounting.
claims.documents: Claims Acknowledgement Letter	We acknowledge receipt of your claim {{claimNumber}} under policy {{policyNumber}}. / Insured: {{insuredName}} / Date of loss: {{lossDate}} / Reported on: {{reportedDate}} / Our claims team will contact you within {{slaDays}} days.

11. Settings that switch messages on or off

Setting	OOTB	Effect
notification.email_enabled	false	No e-mail leaves the system while off (all e-mails stay queued).
notification.from_address	BrokerVerse <connect@iortatechnxt.com>	Sender of every e-mail.
notification.approval_requests	true	Only the "Quotation sent for approval" notification to the Processing Team reads it.
notification.claim_status	true	Claim registration and status notifications to the handler and owner.
notification.renewal_reminder	true	The Renewal notices job (in-app reminders 60, 30, 15 days before expiry).
claims.pla_enabled	true	Preliminary Loss Advice e-mail on claim registration.
claims.pla_default_recipient	claims@brokerverse.local	PLA recipient when the insurer has no e-mail. Replace before go-live.
renewals.enforce_notice_order	true	First, second and final notice must go in order.
collections.reminder_days_before / collections.reminder_repeat_days	7 / 7	Payment reminder window and repeat interval.
quotations.approval_notify_roles	processing	Who is told a quotation went to the customer.
quotations.approval_link_ttl_hours	168	Validity of the customer approval link.
renewals.approver_roles	processing	Who approves renewal terms.
payments.notify_roles_on_error	accounting	Who is told about online payments.
Master > Schedules: collection-reminders, renewal-notices, month-end-reminder	on, on, off	Switch the scheduled messages on or off.

12. Gaps and observations

No.	Observation	Effect	Suggested action
1	E-mails carry no attachments; the debit note e-mail says "Please find our commission debit note" without the PDF.	Insurers receive a reference only.	Attach the PDF, or change the wording to say the note follows.
2	No e-mail is sent to the client for the official receipt, the billing statement (invoice / SOA), the policy schedule at issue, or the claim acknowledgement. The documents exist as PDFs (see Printed documents). The "Policy issued" e-mail is sent only from the coverage detailed view and carries no schedule.	Clients get these documents only when staff send them by hand.	Add e-mail templates for OR, billing statement, policy schedule and claim acknowledgement.
3	No commission statement e-mail to agents or referrers; the Broker Commission Statement and the incentive statement are on screen only.	Agents receive statements outside the system.	Add a commission statement template, or schedule the report per agent.
4	Remittance notification templates NTF-001 (trigger "Due Date - 5 days") and NTF-002 (SMS, trigger "Payment Received") are not automated, and SMS is not sent.	Templates suggest automation that does not exist.	Remove the triggers from the templates or implement them.
5	No approval-request notification for payment vouchers, posting rule and configuration approvals, access-control requests, commission payouts, insurer reconciliations, bank reconciliations and month-end close runs.	Approvers must check the screens.	Add notify calls to these approval flows.
6	notification.approval_requests only switches the quotation notification; other approval notifications cannot be switched off.	The setting name suggests more.	Rename it or apply it to all approval notifications.
7	No welcome or credentials e-mail when a user is created or provisioned; initial	Manual step at user creation.	Keep the handover procedure in the security policy.

No.	Observation	Effect	Suggested action
	passwords are handed over outside the system.		
8	The payment reminder body says the premium "is due on" also when the bill is overdue.	Wording.	Add an overdue variant using <code>{{daysPastDue}}</code> .
9	<code>claims.pla_default_recipient</code> is seeded with a placeholder address (<code>claims@brokerverse.local</code>).	PLAs for insurers without e-mail go nowhere.	Set the broker's claims mailbox before go-live.
10	Remittance bill subject reads "Statement of account <code>{{billNumber}}</code> " and the body has no greeting or company name.	Plain message to agents and insurers.	Review the wording with the broker.
11	No e-mail or notification when a scheduled job fails (see the Schedules and Batch Jobs document).	Failures can go unnoticed.	Add an alert.

13. Document Sign-Off

Serial Number	Description	Owner	Status
1	No open items at the time of issue	iorta TechNXT	Closed

Sign Off Date	Signature	Approved By	Department & Project Role
