1. Document Control

Date	Version	Author & Business Unit Info	Reviewed By & Business Unit Info	Approved By & Business Unit Info	Change History
03 October 2026	1.0	iorta TechNXT			Initial issue

2. Acronyms

Acronym / Symbol	Definition / Meaning
OOTB	Out of the box
IC	Insurance Commission
BIR	Bureau of Internal Revenue
SOA	Statement of account
OR	Official receipt
PV	Payment voucher
JV	Journal voucher
GL	General ledger
TB	Trial balance
VAT	Value-added tax
EWT	Expanded withholding tax
CWT	Creditable withholding tax
ATC	Alphanumeric tax code
SAWT	Summary Alphalist of Withholding Taxes
QAP	Quarterly Alphalist of Payees
SLSP	Summary List of Sales and Purchases
TIN	Taxpayer identification number
LOB	Line of business
CSV	Comma-separated values

XLSX	Excel workbook
PDF	Portable document format
API	Application programming interface

3. About this book

This book lists every report and dashboard that ships with BrokerVerse OOTB: what each one shows, where to find it, who may run it, which filters and columns it has, what it totals, which outputs it produces and which transactions feed it. It is written for the people who run the reports every day (operations, finance, management) and for the support team that maintains them.

Everything in this book comes from the application code, the seeded configuration and a run against the loaded test system on 03 October 2026. Sample rows are real rows from that test system; they show the layout and are not reference figures.

3.1 How the book is organised

- Chapter 4 explains how the report engine works: the catalogue, the report screen, file generation, download links, retention and scheduled delivery.
- Chapters 5 to 9 describe the reports by group: operational, financial, tax (BIR), reconciliation, and management reports and dashboards.
- Chapter 10 covers the exports and printed outputs that live on the module screens rather than in the report catalogue.
- Chapter 11 lists the report settings and the troubleshooting steps.
- Chapter 12 records the gaps found while preparing the book.

The companion workbook **BrokerVerse_Reports_Book.xlsx** holds the full reference lists: one row per report, every column of every report, the report settings, the module exports and dashboards, and the sample totals.

3.2 Report inventory at a glance

Group	Catalogue reports	Other outputs in this book
Operational	11	Claims dashboard export, lead report, renewal batch report, placement and policy documents
Financial	16	Accounting entries export, receipts and voucher bulk print, financial statements screen
Tax (BIR)	5	BIR Form 2307 (issued and received) with certificate register
Reconciliation	5	Bank reconciliation statement PDF, insurer statement differences report, remittance ageing, reinsurance reconciliation
Management	2	Executive, Sales, Processing, Claims, Commission, Collections, Renewal, Remittance, Reinsurance and Product dashboards
Total	39	

4. How reports work

4.1 The report catalogue

All catalogue reports are rows of the table `report_definitions` (39 active rows in the OOTB seed). A definition holds the report code, name, category (operational or financial), description, the filter form as a JSON schema, the default columns with their types, the roles allowed and the permission needed, and the name of the query in `backend/src/modules/reports/queries.js` (with `periodEndQueries.js` and `bankRecQueries.js`).

Reports > All Reports shows every report the signed-in user may run, grouped under Operational Reports and Financial Reports, with a search box. Clicking a report opens its report screen. The menu also has direct entries for the most used reports (Reports > Operational Reports, Reports > Financial Reports, Accounts > Tax, Accounts > Bank Reconciliation and Accounts > Period End > Financial Statements); they open the same report screen.

4.2 Who may run a report

A user sees and runs a catalogue report when both conditions hold:

- the user holds the report's permission (`read:reports` for every OOTB report), and
- the report lists no roles, or the user holds one of the listed roles.

The System Administrator role passes every check. In the OOTB roles, `read:reports` is held by Accounting, Claims, Operations, Processing Team, Sales & Marketing and System Administrator; the Accounting Manager role inherits Accounting. The per-report role list is given with each report in this book.

Dashboards and module exports do not use the catalogue check. Each one has its own permission, listed with it in chapters 9 and 10.

4.3 The report screen

1. Pick the **Report Criteria** (required). It decides the grouping or the subset of rows: for example Overall, Agent, Principal Insurer, Branch.
2. Enter **From Date** and **To Date** (both marked required on the screen). When a run arrives without a From Date, the engine goes back `reports.default_range_days` (365) from To Date.
3. Fill the optional filters the report offers (Agent, Company (principal insurer), Branch, Client, Product, Status, Account, Bank Account). Agent, Company, Branch and Client accept an id, a code or a name. Some filters are enabled only for a matching criterion (for example Agent only with the Agent criterion).
4. Click **Preview** to see the rows on screen, 50 to a page (`reports.default_page_size`), with the totals row, the summary figures and, for a grouping criterion, a group summary.
5. Choose the **File format** (Excel, CSV or PDF) and click **Generate** to produce the file and download it.

4.4 What the engine does

- The query receives the period (From Date, To Date) and the settings it needs. "Today" in ageing reports is the business date in `general.timezone` (Asia/Manila), not the database server date.
- Filters are applied around the base query. Columns whose name starts with an underscore are used for filtering only and never shown.
- Every money, number and integer column in the default columns is totalled unless it is marked not to be (age in days, rates, percentages).
- Some reports also return **summary figures** (for example net income, retention rate, collection efficiency). They show under the table on screen and in the PDF, and on the Parameters sheet of the Excel file.

4.5 Output formats

Output	What you get
Screen (Preview)	Paged rows, totals row, summary figures, group summary for a grouping criterion.
Excel (.xlsx)	Sheet with the report rows and a TOTAL row; a Summary sheet for a grouping criterion; a Parameters sheet (report, company, period, criteria, filters, rows, currency, generated at, generated by, summary figures).
CSV	The rows and a TOTAL row, UTF-8.
PDF	Company letterhead, report title, a parameter line (period, criteria, filters, currency, row count), the table with totals and a Summary table. Page size from <code>reports.pdf_page_size</code> (A4).

Generated files are written to the file store under `reports/` and recorded in `generated_reports` (who, when, parameters, row count, totals, status). A file holds at most `reports.max_rows` rows (50,000); the response says when a file was truncated. The download link is signed and valid for `reports.download_link_ttl_hours` (72 hours). Files older than `reports.retention_days` (90 days) are deleted when a scheduled report runs.

File names follow the pattern `<code>_<from>_<to>_<yyyymmdd-hhmmss>.<ext>`, for example `production-register_2026-01-01_2026-09-30_20260928-101500.xlsx`.

4.6 Scheduled delivery by e-mail

A report can be generated on a timetable and e-mailed to a list of addresses (a report schedule: report code, cron expression, parameters, format, recipients, enabled). Creating a schedule also creates a job `report-<schedule id>` with handler `scheduledReport` in `Master > Schedules`, so it runs, shows its history and can be run on demand like any other job. The e-mail carries a download link, not the file; its wording is in the settings `reports.email_subject` and `reports.email_body` (see the Communication Templates document).

For scheduled runs the parameter `period` gives a relative window when no dates are stored: today, yesterday, last-7-days, last-30-days, month-to-date, previous-month or year-to-date.

In the OOTB front end there is no screen for report schedules or for the history of generated files. Both exist in the API (/api/reports/schedules, /api/reports/generated, permission write:reports to change schedules). Until a screen is added, a System Administrator creates schedules through the API; once created they appear in Master > Schedules.

The separate job **Daily reports** (Master > Schedules, 05:00 Manila time) generates the Production Register, Collection Report and Claims Position every day into the generated-file history; it does not e-mail them.

5. Operational reports

Operational reports follow the business from prospect to placement, policy, claim, renewal and remittance. Most offer the standard criteria Overall, Agent, Principal Insurer and Branch: Overall lists the rows, the others add a summary by that dimension. Agent is the policy owner (the account executive) and Branch is that user's branch.

Report	Menu	Used by
Production Register	Reports > Operational Reports > Production	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims
Claims Position	Reports > Operational Reports > Claims	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims
Renewal Retention	Reports > Operational Reports > Renewal	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims
Remittance Summary	Reports > Operational Reports > Remittance	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims, Accounting (and Accounting Manager)
Broker Commission Statement	Reports > Operational Reports > Broker Commission	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims, Accounting (and Accounting Manager)
Claims Ageing	Reports > All Reports > Claims Ageing	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims
Lead Conversion Funnel	Reports > All Reports > Lead Conversion Funnel	Sales & Marketing, Processing Team, Operations (Client Servicing)
Placement Pipeline	Reports > All Reports > Placement Pipeline	Sales & Marketing, Processing Team, Operations (Client Servicing)
Market Response	Reports > All Reports > Market Response	Sales & Marketing, Processing Team, Operations (Client Servicing)
Reinsurance Cession Register	Reports > All Reports > Reinsurance Cession Register	Processing Team, Accounting (and Accounting Manager)
Co-insurance Register	Reports > Financial Reports > Co-insurance Register	Accounting (and Accounting Manager), Processing Team, Sales & Marketing

5.1 Production Register

Policies incepted in the period with premium, commission, new business / renewal flag; grouped by agent, insurer or branch per Report Criteria.

Item	Detail
Code	production-register
Menu	Reports > Operational Reports > Production
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims; System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch, Billing Mode (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status

Item	Detail
Columns	Policy No., Issue Date, Inception, Expiry, Business Type, Client, Product, Insurer, Agent, Branch, Sum Insured, Gross Premium, Commission, Currency, Status, Billing Mode
Totals	Sum Insured, Gross Premium, Commission
Summary figures	New business count, Renewals count, Direct bill count
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	policies, clients, products, insurance_companies, users, branches
Fed by	Policy issue (Convert to policy, Issue policy from a placement slip, Record Issued Policy), policy bulk upload, renewal completion. Rows are selected on the inception date.

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 55; amounts in PHP):

Policy No.	Inception	Business Type	Client	Insurer	Gross Premium
POL-2026-00001	02 May 2026	New Business	Jerome Mercado	Pacific Crest Insurance Corp.	49,161.47
POL-2026-00027	06 May 2026	New Business	Mark Gonzales	Mindanao Shield Insurance Corp.	610.40
POL-2026-00054	10 May 2026	New Business	Himlayan Cold Storage Corp.	Harbor Point Non-Life Insurance Inc.	980,902.89
POL-2026-00011	23 May 2026	New Business	Liza Ocampo	Mindanao Shield Insurance Corp.	50,052.84

Report totals for the period: Sum Insured PHP 4,105,734,000.00; Gross Premium PHP 14,310,401.18; Commission PHP 1,765,752.54.

Summary figures returned: New business: 50; Renewals: 5; Direct bill: 5.

5.2 Claims Position

Claims reported in the period with estimate, approved and settled amounts, age and ageing bucket. Criteria: All, Open, Settled, Rejected, Aging (open claims by ageing bucket).

Item	Detail
Code	claims-position
Menu	Reports > Operational Reports > Claims
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims; System Administrator
Permission	read:reports and one of the roles above
Report Criteria	All, Open, Settled, Rejected, Aging (default All)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Claim No., Policy No., Client, Insurer, Product, Agent, Loss Date, Reported, Loss Type, Status, Estimate, Approved, Settled, Age (days), Ageing
Totals	Estimate, Approved, Settled
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	claims, policies, clients, products,

Item	Detail
	insurance_companies, users, branches
Fed by	Claim registration (Operations > Claims), claim status changes, settlement. Rows are selected on the reported date. Open, settled and rejected follow the settings reports.claim_open_statuses, reports.claim_settled_statuses and reports.claim_rejected_statuses; buckets follow reports.claim_ageing_buckets.

Sample from the test system (criteria All, 01 January 2026 to 30 September 2026, first rows of 7; amounts in PHP):

Claim No.	Policy No.	Insurer	Status	Estimate	Settled
CLM-2026-00001	POL-2026-00001	Pacific Crest Insurance Corp.	closed	85,000.00	72,500.00
CLM-2026-00006	POL-2026-00050	Archipelago General Insurance Co., Inc.	in-review	340,000.00	-
CLM-2026-00004	POL-2026-00036	Harbor Point Non-Life Insurance Inc.	closed	35,000.00	28,750.00
CLM-2026-00008	POL-2026-00011	Mindanao Shield Insurance Corp.	closed	12,000.00	-

Report totals for the period: Estimate PHP 1,890,000.00; Approved PHP 1,097,750.00; Settled PHP 1,097,750.00.

5.3 Renewal Retention

Renewals due in the period with outcome (retained, lost, pending), old and new premium and the retention rate.

Item	Detail
Code	renewal-retention
Menu	Reports > Operational Reports > Renewal
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims; System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Policy No., Client, Insurer, Product, Agent, Branch, Due Date, Renewal Status, Outcome, Expiring Premium, Renewal Premium, Renewed Policy No.
Totals	Expiring Premium, Renewal Premium
Summary figures	Retained, Lost, Pending, Retention rate (retained / (retained + lost))
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	renewals, policies (expiring and renewed), clients, products, insurance_companies, users
Fed by	Renewal pipeline (renewal-pipeline job, Renewal Queue), renewal completion and lapse. Outcome Retained or Lost follows reports.renewal_retained_statuses and

Item	Detail
	reports.renewal_lost_statuses; anything else is Pending.

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 6; amounts in PHP):

Policy No.	Client	Due Date	Outcome	Expiring Premium	Renewal Premium
OLD-MC-2025-96274	Mark Dela Cruz	19 June 2026	Retained	39,462.95	39,977.30
OLD-MC-2025-17813	Noel Reyes	11 July 2026	Retained	45,662.83	45,557.19
OLD-FI-2025-07528	Paolo Samonte	25 July 2026	Retained	10,918.05	11,245.09
OLD-MC-2025-52877	Maricel Samonte	21 August 2026	Lost	34,916.38	-

Report totals for the period: Expiring Premium PHP 177,233.44; Renewal Premium PHP 147,346.77.

Summary figures returned: Retained: 5; Lost: 1; Pending: 0; Retention rate: 83.33%.

5.4 Remittance Summary

Premium remittances to insurers in the period: gross premium, commission retained and net due, by status.

Item	Detail
Code	remittance-summary
Menu	Reports > Operational Reports > Remittance
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims, Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Status
Columns	Remittance No., Date, Insurer, Type, Period, Policies, Gross Premium, Commission, Net Due, Status, Settled, Prepared By, Branch
Totals	Policies, Gross Premium, Commission, Net Due
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	remittances, remittance_lines, insurance_companies, users (preparer)
Fed by	Remittances created on Accounts > Remittance (Automated Processing, Bulk Processing, Agency Bill Processing, Direct Bill Processing), their approval and settlement. Agent and Branch are those of the user who prepared the remittance.

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 22; amounts in PHP):

Remittance No.	Date	Insurer	Policies	Gross Premium	Commission
REM-2026-	07 June 2026	Luzon Bay	2	135,653.75	16,485.78

Remittance No.	Date	Insurer	Policies	Gross Premium	Commission
00008		Assurance Inc.			
REM-2026-00016	08 June 2026	Pacific Crest Insurance Corp.	1	49,161.47	7,165.00
REM-2026-00004	09 June 2026	Harbor Point Non-Life Insurance Inc.	2	1,200,208.08	162,903.60
REM-2026-00012	09 June 2026	Mindanao Shield Insurance Corp.	1	87,722.08	10,340.52

Report totals for the period: Gross Premium PHP 8,909,355.59; Commission PHP 1,211,723.12; Net Due PHP 6,441,739.56.

5.5 Broker Commission Statement

Commission accrued in the period per agent and policy: basis, rate, gross, withholding tax and net, with payment status.

Item	Detail
Code	commission-statement
Menu	Reports > Operational Reports > Broker Commission
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims, Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Agent, Branch, Policy No., Client, Insurer, Product, Period, Accrued, Basis, Rate, Commission, Withholding Tax, Net, Status, Paid, Billing Mode
Totals	Basis, Commission, Withholding Tax, Net
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	commissions, policies, clients, products, insurance_companies, users, branches
Fed by	Commission accrued at policy issue (one row per agent and policy); status and paid date change when the payout voucher is approved and paid (Accounts > Disbursement > Bulk Disburse).

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 28; amounts in PHP):

Agent	Policy No.	Basis	Rate	Commission	Withholding Tax
Maria Consuelo Rivera	POL-2026-00001	35,825.00	0.05	1,791.25	89.56
Maria Consuelo Rivera	POL-2026-00032	3,250.00	0.30	975.00	48.75
Maria Consuelo Rivera	POL-2026-00011	37,690.00	0.08	2,826.75	282.68
Maria Consuelo Rivera	POL-2026-00006	4,350.00	0.17	761.25	38.06

Report totals for the period: Basis PHP 459,105.54; Commission PHP 59,791.94; Withholding Tax PHP 3,349.34; Net PHP 56,442.60.

5.6 Claims Ageing

Open claims by ageing bucket (optionally per insurer or agent) with estimate and approved amounts.

Item	Detail
Code	claims-ageing
Menu	Reports > All Reports > Claims Ageing
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims; System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Principal Insurer, Agent (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Insurer, Agent, Ageing, Claims, Estimate, Approved, Average Age (days)
Totals	Claims, Estimate, Approved
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	claims, policies, insurance_companies, users
Fed by	Open claims only (reports.claim_open_statuses), aged from the reported date to today's business date, bucketed by reports.claim_ageing_buckets.

5.7 Lead Conversion Funnel

Leads created in the period by stage with share and overall conversion rate.

Item	Detail
Code	lead-conversion-funnel
Menu	Reports > All Reports > Lead Conversion Funnel
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Branch, Source (default Overall)
Filters	From Date, To Date, Agent, Branch, Product
Columns	Agent, Branch, Source, Stage, Leads, Share %
Totals	Leads
Summary figures	Conversion rate (converted / all leads)
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	leads, users, branches, products
Fed by	Prospects created in the period (Prospects screen, leads bulk upload) and their current stage. Stage order follows reports.lead_funnel_stages.

5.8 Placement Pipeline

Broker slips and placement slips created in the period with status, lead insurer, sum insured, premium and age (open slips by age bucket).

Item	Detail
Code	placement-pipeline
Menu	Reports > All Reports > Placement Pipeline
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Slip Type, Status, Open by Age, Agent (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Slip, Slip No., Created, Status, Client / Insured, Product, LOB, Lead Insurer, Insurers, Agent, Sum Insured, Premium (best offer / gross), Age (days), Age Bucket
Totals	Sum Insured, Premium (best offer / gross)
Summary figures	Broker slips, Placement slips, Open, Average age (days)
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	broker_slips, insurer_offers, placements, risk_participants, clients, products, insurance_companies, users
Fed by	Requests for quotation (broker slips) and placement slips created in the period. Age is frozen when a slip is closed, issued or cancelled. Open statuses and age buckets follow reports.placement_open_statuses and reports.placement_age_buckets.

5.9 Market Response

Insurers approached on broker slips in the period: offers, declines, pending, response rate, average response days, offers taken and hit ratio (offers taken / offers made).

Item	Detail
Code	market - response
Menu	Reports > All Reports > Market Response
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Line of Business, Agent (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Product
Columns	Insurer, LOB, Agent, Approached, Offers, Declined, Pending, Offers Taken, Response %, Hit Ratio %, Avg Response (days), Premium Offered
Totals	Approached, Offers, Declined, Pending, Offers Taken, Premium Offered
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	insurer_offers, broker_slips, insurance_companies, products, users
Fed by	Insurers approached on broker slips created in

Item	Detail
	the period (Request for Quotation > Submit / Add insurer) and their recorded answers (offered, declined, pending) and offer selection.

5.10 Reinsurance Cession Register

Cessions made in the period per treaty and policy: sum insured, ceded sum, ceded premium and share.

Item	Detail
Code	cession-register
Menu	Reports > All Reports > Reinsurance Cession Register
Used by	Processing Team, Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Treaty, Reinsurer, Principal Insurer (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Treaty, Reinsurer, Type, Ceded On, Policy No., Client, Insurer, Sum Insured, Ceded Sum, Ceded Premium, Ceded %
Totals	Sum Insured, Ceded Sum, Ceded Premium
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	cessions, reinsurance_treaties, policies, clients, insurance_companies
Fed by	Cessions recorded on Reinsurance > Cession Tracking, selected on the cession date.

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 2; amounts in PHP):

Treaty	Reinsurer	Ceded On	Policy No.	Sum Insured	Ceded Sum
Property Quota Share 2026	Maharlika Reinsurance Corp.	03 July 2026	POL-2026-00051	1,015,000,000.00	304,500,000.00
Property Quota Share 2026	Maharlika Reinsurance Corp.	06 August 2026	POL-2026-00046	196,000,000.00	58,800,000.00

Report totals for the period: Sum Insured PHP 1,211,000,000.00; Ceded Sum PHP 363,300,000.00; Ceded Premium PHP 662,084.30.

5.11 Co-insurance Register

Co-insured policies inception in the period: every participating insurer with its role, share, premium, commission, premium taxes and premium due as booked on the bills.

Item	Detail
Code	coinsurance-register
Menu	Reports > Financial Reports > Co-insurance Register
Used by	Accounting (and Accounting Manager), Processing Team, Sales & Marketing; System

Item	Detail
	Administrator
Permission	read: reports and one of the roles above
Report Criteria	Overall, Co-insurer, Policy, Agent (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Policy No., Inception, Client, Product, Lead Insurer, Insurer, Role, Share %, Sum Insured, Premium, Commission, Premium Taxes, Due to Insurer, Insurer Ref., Agent, Status
Totals	Sum Insured, Premium, Commission, Premium Taxes, Due to Insurer
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	risk_participants, policies, receivable_participants, receivables, insurance_companies, clients, products, users
Fed by	Co-insured policies (more than one active participant) issued from placement slips or Record Issued Policy, selected on inception date. Amounts are those booked on the policy bills, else the participant row.

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 19; amounts in PHP):

Policy No.	Insurer	Role	Share %	Premium	Commission
POL-2026-00049	Harbor Point Non-Life Insurance Inc.	Lead	50	219,305.19	25,851.30
POL-2026-00049	Luzon Bay Assurance Inc.	Co-insurer	30	131,583.12	15,510.78
POL-2026-00049	Mindanao Shield Insurance Corp.	Co-insurer	20	87,722.08	10,340.52
POL-2026-00051	Archipelago General Insurance Co., Inc.	Lead	50	664,760.36	94,032.90

Report totals for the period: Sum Insured PHP 2,640,500,000.00; Premium PHP 5,724,755.84; Commission PHP 772,241.07; Premium Taxes PHP 1,143,638.68; Due to Insurer PHP 3,793,431.29.

6. Financial reports

Financial reports read the receivables, receipts, vouchers and the general ledger. The ledger reports (Trial Balance, Trial Balance (Opening / Movement / Closing), General Ledger Detail, Income Statement, Balance Sheet) read posted journals only, except the Trial Balance, which reads the statuses in `reports.trial_balance_statuses`. Accounts > Period End > Financial Statements opens the same income statement, balance sheet, trial balance and GL detail.

Report	Menu	Used by
SOA / Premium Receivable	Reports > Financial Reports > SOA/Premium Receivable	Accounting (and Accounting Manager), Sales & Marketing

6.1 SOA / Premium Receivable

Statement of account: premium bills issued in the period with amount, paid, balance, age and ageing bucket as of To Date.

Item	Detail
Code	premium-receivable-soa
Menu	Reports > Financial Reports > SOA/Premium Receivable
Used by	Accounting (and Accounting Manager), Sales & Marketing; System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch (default Overall)
Filters	From Date, To Date, Agent, Company (principal

Item	Detail
	insurer), Branch, Client, Product, Status
Columns	Client, Bill No., Bill Date, Due Date, Policy No., Insurer, Agent, Branch, Amount, Paid, Balance, Age (days), Ageing, Status
Totals	Amount, Paid, Balance
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	receivables, journal_vouchers (bill date), policies, clients, products, insurance_companies, users, branches
Fed by	Premium bills raised at policy issue, endorsement and renewal (the bill date is the date of the booking journal), open items loaded at go-live; paid and balance move with official receipts. Ageing uses limits.receivable_ageing_buckets as of To Date.

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 57; amounts in PHP):

Client	Bill No.	Bill Date	Due Date	Amount	Paid
Ana Ramos	INV-2026-00025	10 July 2026	29 August 2026	46,063.53	46,063.53
Andrea Aguilar	INV-2026-00021	03 July 2026	01 September 2026	7,316.88	7,316.88
Angelica Evangelista	INV-2026-00004	04 September 2026	03 November 2026	42,307.03	42,307.03
Angelica Lim	INV-2026-00022	28 September 2026	01 January 2027	3,757.50	3,757.50

Report totals for the period: Amount PHP 10,683,995.70; Paid PHP 6,721,773.43; Balance PHP 3,962,222.27.

6.2 Collection Report

Bills due in the period with amount billed, collected (posted receipts up to To Date), balance and collection rate.

Item	Detail
Code	collections-summary
Menu	Reports > Financial Reports > Collection Report
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Bill No., Bill Date, Due Date, Policy No., Client, Insurer, Agent, Branch, Billed, Collected, Balance, Collection %, Status
Totals	Billed, Collected, Balance
Summary figures	Collection efficiency (collected / billed, %)
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	receivables, receipts, policies, clients, products, insurance_companies, users, branches
Fed by	Bills falling due in the period; Collected is the

Item	Detail
	sum of posted official receipts on the bill received up to To Date.

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 32; amounts in PHP):

Bill No.	Due Date	Client	Billed	Collected	Balance
INV-2026-00024	05 June 2026	Mark Gonzales	610.40	0.00	0.00
INV-2026-00010	22 June 2026	Liza Ocampo	47,817.13	47,817.13	0.00
INV-2026-00001	01 July 2026	Jerome Mercado	46,531.22	46,531.22	0.00
INV-2026-00059	04 July 2026	Liza Ocampo	2,235.71	2,235.71	0.00

Report totals for the period: Billed PHP 2,989,608.70; Collected PHP 2,543,696.72; Balance PHP 445,301.58.

Summary figures returned: Collection efficiency: 85.08%.

6.3 Receivables Ageing

Outstanding premium receivables as of To Date by ageing bucket (buckets from limits.receivable_ageing_buckets).

Item	Detail
Code	collections-ageing
Menu	Reports > All Reports > Receivables Ageing (definition screen: Accounts > Collections > Aging Report)
Used by	Accounting (and Accounting Manager), Sales & Marketing; System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Ageing Bucket, Overall, Agent, Principal Insurer, Branch, Client (default Ageing Bucket)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Client, Bill No., Bill Date, Due Date, Policy No., Insurer, Agent, Branch, Amount, Paid, Balance, Age (days), Ageing, Status
Totals	Amount, Paid, Balance
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	receivables, journal_vouchers, policies, clients, products, insurance_companies, users, branches
Fed by	Open premium bills (balance above zero, not written off) dated up to To Date, aged from the due date. Buckets: limits.receivable_ageing_buckets.

Sample from the test system (criteria Ageing Bucket, 01 January 2026 to 30 September 2026, first rows of 12; amounts in PHP):

Client	Bill No.	Due Date	Balance	Age (days)	Ageing
Liwayway Printing and Packaging Corp.	INV-2026-00055	27 July 2026	342,819.14	65	61-90

Client	Bill No.	Due Date	Balance	Age (days)	Ageing
Jose Mendoza	INV-2026-00005	02 August 2026	5,535.38	59	31-60
Camille Bautista	INV-2026-00030	06 August 2026	300.40	55	31-60
Tagumpay Construction Supply Inc.	INV-2026-00049	06 August 2026	96,646.66	55	31-60

Report totals for the period: Amount PHP 5,012,253.80; Paid PHP 1,050,031.53; Balance PHP 3,962,222.27.

6.4 Commission Receivable - Direct Bill

Commission (with VAT) due from insurers on direct-bill policies, where the client pays the insurer: unbilled, on a debit note, partially collected or collected, with the outstanding share and ageing as of To Date (buckets from limits.receivable_ageing_buckets).

Item	Detail
Code	direct-bill-commission
Menu	Reports > All Reports > Commission Receivable - Direct Bill (definition screen: Accounts > Remittance > Direct Bill Processing)
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Ageing Bucket, Principle Insurance, Outstanding, Overall (default Ageing Bucket)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Product
Columns	Insurer, Policy No., Reference, Insured, Product, Booked, Debit Note, Due Date, Gross Premium, Commission, VAT, Total Due, Outstanding, Age (days), Ageing, Status
Totals	Gross Premium, Commission, VAT, Total Due, Outstanding
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	direct_bill_items, commission_debit_notes, policies, endorsements, clients, products, insurance_companies, users
Fed by	Direct-bill policies and endorsements (client pays the insurer) create commission items; Direct Bill Processing raises the commission debit note, and insurer collections reduce its balance. The Overall criterion lists items booked in the period; the other criteria list everything still outstanding at To Date.

6.5 Receipts Register

Official receipts received in the period with bill, policy, payment mode, bank and reference.

Item	Detail
Code	receipts-register
Menu	Reports > All Reports > Receipts Register (definition screen: Accounts > Receipts)

Item	Detail
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch, Payment Mode (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	OR No., Received, Bill No., Policy No., Client, Insurer, Agent, Branch, Mode, Bank, Reference, Amount, Status
Totals	Amount
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	receipts, receivables, policies, clients, products, insurance_companies, users, branches, banks
Fed by	Official receipts issued on Accounts > Receipts, receipts bulk upload, verified premium payments and online payment links. Selected on the received date.

6.6 Payables / Disbursement Register

Payment vouchers raised in the period (insurers, agents, clients, vendors) with approval and payment dates.

Item	Detail
Code	disbursement-register
Menu	Reports > Financial Reports > Payables
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch, Payee Type (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Status
Columns	Voucher No., Date, Payee Type, Payee, Purpose, Mode, Bank, Reference, Amount, Status, Approved, Paid, Prepared By, Branch
Totals	Amount
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	disbursements, banks, users, insurance_companies, clients
Fed by	Payment vouchers created on Accounts > Disbursement (single, bulk upload, Bulk Disburse for referrers), with approval and payment dates. Agent, insurer and client columns are filled according to the payee type.

6.7 Journal Register

Journal voucher lines dated in the period with account, debit, credit and memo.

Item	Detail
Code	journal-register
Menu	Reports > Financial Reports > Journal
Used by	Accounting (and Accounting Manager); System Administrator

Item	Detail
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch, Account (default Overall)
Filters	From Date, To Date, Agent, Branch, Status
Columns	JV No., JV Date, Description, Status, Account, Account Name, Debit, Credit, Memo, Prepared By, Branch
Totals	Debit, Credit
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	journal_lines, journal_vouchers, users
Fed by	Every journal dated in the period whatever its status (system journals from the posting rules, manual, correction and reversal JVs, recurring and close journals). Filter Status to restrict.

6.8 Trial Balance

Per account: opening balance before From Date, period debits and credits, and closing debit / credit balance as of To Date (approved and posted JVs).

Item	Detail
Code	trial-balance
Menu	Reports > Financial Reports > Trial Balance
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Agent, Principal Insurer, Branch (default Overall)
Filters	From Date, To Date, Agent, Branch
Columns	Type, Statement Group, Branch, Account, Account Name, Opening Balance, Debit, Credit, Closing Debit, Closing Credit
Totals	Opening Balance, Debit, Credit, Closing Debit, Closing Credit
Summary figures	Balanced (closing debit = closing credit)
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	journal_lines, journal_vouchers, gl_accounts
Fed by	Journals with a status in reports.trial_balance_statuses (approved, posted) dated up to To Date. Opening is everything before From Date. Does not read go-live opening balances (use Trial Balance (Opening / Movement / Closing) for that).

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 17; amounts in PHP):

Account	Account Name	Opening Balance	Debit	Credit	Closing Debit
1101001	Cash on Hand	0.00	166,436.18	0.00	166,436.18
1102001	Cash in Bank - Operating Account	0.00	9,927,367.08	2,880,629.78	7,046,737.30
1102002	Cash in Bank - E-wallet Clearing (GCash)	0.00	122,009.17	0.00	122,009.17
1202001	Premiums Receivable -	0.00	10,683,995.70	6,689,954.68	3,994,041.02

Account	Account Name	Opening Balance	Debit	Credit	Closing Debit
	Direct Clients				

Report totals for the period: Opening Balance PHP 0.00; Debit PHP 23,967,498.75; Credit PHP 23,967,498.75; Closing Debit PHP 11,481,693.20; Closing Credit PHP 11,481,693.20.

Summary figures returned: Balanced: yes.

6.9 Incentive Results

Incentive programme results for programmes active in the period: target, achieved, achievement % and payout per agent.

Item	Detail
Code	incentive-results
Menu	Reports > All Reports > Incentive Results (definition screen: Accounts > Incentive > Reports)
Used by	Accounting (and Accounting Manager), Sales & Marketing; System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Program, Agent, Branch (default Overall)
Filters	From Date, To Date, Agent, Branch, Status
Columns	Programme, Metric, Period, Agent, Branch, Target, Achieved, Achievement %, Payout, Status
Totals	Payout
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	incentive_results, incentive_programs, users, branches
Fed by	Incentive calculations of programmes active in the period (Accounts > Incentive > Calculations and Approvals).

6.10 Due to Insurers by Co-insurer

Premium due to each insurer on bills issued in the period (co-insured bills split per participant, net of that insurer's commission): due, collected from clients, remitted and still held for the insurer.

Item	Detail
Code	due-to-insurers-by-coinsurer
Menu	Reports > Financial Reports > Due to Insurers by Co-insurer
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Co-insurer, Co-insurer and Policy, Placement (default Co-insurer)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Insurer, Placement, Policy No., Bills, Premium, Commission, Due to Insurer, Collected, Remitted, Held for Insurer, Not yet Collected
Totals	Bills, Premium, Commission, Due to Insurer,

Item	Detail
	Collected, Remitted, Held for Insurer, Not yet Collected
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	receivables, receivable_participants, receipt_applications, remittance_allocations, policies, insurance_companies, clients, products, users
Fed by	Premium bills (per participant on co-insured bills), receipts applied to them (collected share, pro rata) and remittances to the insurers (remitted). Held for Insurer = collected minus remitted; Not yet Collected = due minus collected.

Sample from the test system (criteria Co-insurer, 01 January 2026 to 30 September 2026, first rows of 7; amounts in PHP):

Insurer	Bills	Premium	Commission	Due to Insurer	Collected
Archipelago General Insurance Co., Inc.	15	4,278,573.68	637,329.26	3,641,244.42	2,159,586.33
Harbor Point Non-Life Insurance Inc.	19	3,340,738.42	453,769.25	2,886,969.17	2,012,887.88
Luzon Bay Assurance Inc.	14	1,647,934.33	208,147.14	1,439,787.19	652,989.69
Mindanao Shield Insurance Corp.	6	509,785.83	70,773.85	439,011.98	439,011.98

Report totals for the period: Premium PHP 10,683,995.70; Commission PHP 1,486,526.26; Due to Insurer PHP 9,197,469.44; Collected PHP 5,783,616.68; Remitted PHP 5,042,409.93; Held for Insurer PHP 741,206.75; Not yet Collected PHP 3,413,852.76.

6.11 Income Statement

Revenue and expenses for the period and fiscal year to date (from the fiscal year start of To Date), with the same periods of the prior year. Year-end closing entries are left out; net income is in the summary.

Item	Detail
Code	income-statement
Menu	Reports > Financial Reports > Income Statement; Accounts > Period End > Financial Statements
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Detailed, Summary (default Detailed)
Filters	From Date, To Date, Account
Columns	Type, Statement Group, Account, Account Name, Current Period, Year to Date, Prior Year Period, Prior Year to Date
Totals	None (amounts are per account or per run)
Summary figures	Net income (period, year to date, prior period, prior year to date), Total income, Total

Item	Detail
	expense
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	journal_lines, journal_vouchers, gl_accounts, fiscal_years
Fed by	Posted and reversed journals on income and expense accounts. Year-end closing journals are left out so a closed year still shows its result.

Sample from the test system (criteria Detailed, 01 January 2026 to 30 September 2026, first rows of 4; amounts in PHP):

Type	Statement Group	Account	Account Name	Current Period	Year to Date
income	Revenue	3201001	Brokerage Commission Income	1,505,381.85	1,505,381.85
income	Other Income	3301001	Interest Income	4,942.25	4,942.25
expense	Operating Expenses	4401004	Bank Charges	750.00	750.00
expense	Income Tax	4601002	Final Tax on Interest Income	988.46	988.46

Summary figures returned: Net income: PHP 1,508,585.64; Net income year to date: PHP 1,508,585.64; Prior net income: PHP 0.00; Prior net income year to date: PHP 0.00; Total income: PHP 1,510,324.10; Total expense: PHP 1,738.46.

6.12 Balance Sheet

Assets, liabilities and equity as of To Date with the balances at the end of the previous fiscal year; income and expense not yet closed show as current year earnings. The summary checks assets = liabilities + equity.

Item	Detail
Code	balance-sheet
Menu	Reports > Financial Reports > Balance Sheet; Accounts > Period End > Financial Statements
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Detailed, Summary (default Detailed)
Filters	From Date, To Date, Account
Columns	Type, Statement Group, Account, Account Name, Balance, Prior Year End
Totals	None (amounts are per account or per run)
Summary figures	Total assets, Total liabilities, Total equity, Total liabilities and equity, Difference (must be 0), Prior year-end totals
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	journal_lines, journal_vouchers, gl_accounts, fiscal_years
Fed by	Posted and reversed journals up to To Date. Income and expense not yet closed appear as one equity line, Current year earnings (not yet closed).

Sample from the test system (criteria Detailed, 01 January 2026 to 30 September 2026, first rows of 14; amounts in PHP):

Type	Statement Group	Account	Account Name	Balance	Prior Year End
asset	Current Assets	1101001	Cash on Hand	166,436.18	0.00
asset	Current Assets	1102001	Cash in Bank - Operating Account	7,046,737.30	0.00
asset	Current Assets	1102002	Cash in Bank - E-wallet Clearing (GCash)	122,009.17	0.00
asset	Current Assets	1202001	Premiums Receivable - Direct Clients	3,994,041.02	0.00

Summary figures returned: Total assets: PHP 11,479,954.74; Total liabilities: PHP 6,471,369.10; Total equity: PHP 5,008,585.64; Total liabilities and equity: PHP 11,479,954.74; Difference: PHP 0.00; Prior total assets: PHP 0.00; Prior total liabilities and equity: PHP 0.00.

6.13 Trial Balance (Opening / Movement / Closing)

Per account: opening balance at From Date (opening balances of the fiscal year plus earlier movements), debits and credits of the period and the closing balance at To Date, from posted journals.

Item	Detail
Code	trial-balance-ocm
Menu	Reports > Financial Reports > Trial Balance Movement
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Account Type, Statement Group (default Overall)
Filters	From Date, To Date, Account
Columns	Account, Account Name, Type, Statement Group, Opening Debit, Opening Credit, Period Debit, Period Credit, Closing Debit, Closing Credit
Totals	Opening Debit, Opening Credit, Period Debit, Period Credit, Closing Debit, Closing Credit
Summary figures	Balanced, Opening balanced, Net income (closing), Period net income
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	gl_accounts, journal_lines, journal_vouchers, opening_balances (through pe_balance_before)
Fed by	Posted and reversed journals; opening balance at From Date includes the fiscal year opening balances (go-live load or year-end carry forward).

6.14 General Ledger Detail

Per account: the opening balance at From Date, every posted movement of the period with its journal, and the running (closing) balance.

Item	Detail
Code	gl-detail
Menu	Reports > Financial Reports > General Ledger Detail
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Account, Overall (default Account)
Filters	From Date, To Date, Account
Columns	Account, Account Name, Date, Period, Journal No., Description, Source, Opening Balance, Debit, Credit, Balance
Totals	Debit, Credit
Summary figures	Closing balance
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	gl_accounts, journal_lines, journal_vouchers, opening_balances
Fed by	Posted and reversed journals of the period, with an opening balance line per account and a running balance.

6.15 Aged Payables to Insurers

Premiums payable to insurers not yet remitted (open payables) aged from the payable date as of To Date (buckets from limits.receiveable_ageing_buckets).

Item	Detail
Code	aged-payables-insurers
Menu	Reports > Financial Reports > Aged Payables to Insurers
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Ageing Bucket, Principal Insurer, Overall (default Ageing Bucket)
Filters	From Date, To Date, Company (principal insurer)
Columns	Payable No., Payable Date, Policy No., Insurer, Client, Amount, Outstanding, Age (days), Ageing Bucket, Status
Totals	Amount, Outstanding
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	invoice_lists, insurance_companies, clients
Fed by	Payable lines to insurer payees entered on the Disbursement screen (invoice lists) that are open or in a voucher and still have an outstanding amount, aged from the date the line was created.

6.16 Month-End Close Status

Accounting periods overlapping the date range with their status, latest month-end close run, failed checks, generated journals and who prepared and approved the close.

Item	Detail
Code	month-end-close-status
Menu	Reports > Financial Reports > Month-End

Item	Detail
	Close Status; Accounts > Period End > Month-End Close
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Fiscal Year, Period Status (default Overall)
Filters	From Date, To Date
Columns	Fiscal Year, Period, No., Start, End, Period Status, Close Run, Run Status, Blocking Failures, Warnings, Journals, Prepared By, Prepared At, Approved By, Approved At, Closed At, Bank Recs Approved / Required
Totals	Blocking Failures, Warnings, Journals
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	accounting_periods, period_close_runs, period_close_run_checks, period_close_entries, bank_reconciliations, bank_account_links, users
Fed by	Accounting periods (Period Management) and month-end close runs (Month-End Close: execute, sign, submit, approve).

7. Tax reports (BIR)

The BIR reports are working papers prepared from the ledger and the documents: they give the figures and the column layout of the BIR forms and alphalists. They do not produce the BIR DAT files or e-file anything; the CSV or Excel output is the input for the BIR validation module or eFPS preparation. All are under Accounts > Tax and are restricted to Accounting.

Report	Menu	Used by
VAT Summary	Accounts > Tax > VAT Summary	Accounting (and Accounting Manager)
SAWT - Summary Alphalist of Withholding Taxes	Accounts > Tax > SAWT	Accounting (and Accounting Manager)
QAP - Quarterly Alphalist of Payees	Accounts > Tax > QAP	Accounting (and Accounting Manager)
SLSP - Summary List of Sales	Accounts > Tax > SLSP Sales	Accounting (and Accounting Manager)
SLSP - Summary List of Purchases	Accounts > Tax > SLSP Purchases	Accounting (and Accounting Manager)

7.1 VAT Summary

Vatable revenue (commission and fees), output VAT and input VAT per month or quarter from the ledger, with the net VAT payable (BIR 2550M / 2550Q working paper).

Item	Detail
Code	bir-vat-summary
Menu	Accounts > Tax > VAT Summary
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Monthly, Quarterly (default Monthly)
Filters	From Date, To Date
Columns	Month, Quarter, Vatable Sales / Receipts, Output VAT, Input VAT, Net VAT Payable
Totals	Vatable Sales / Receipts, Output VAT, Input VAT, Net VAT Payable
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	journal_lines, journal_vouchers, gl_accounts
Fed by	Posted journals on revenue accounts (account type income, statement group Revenue), the output VAT account (accounting.account.output_vat, default 2204003) and the input VAT account (accounting.account.input_vat, default 1301001). Period-close and year-end-close journals are excluded.

Sample from the test system (criteria Monthly, 01 January 2026 to 30 September 2026, first rows of 5; amounts in PHP):

Month	Vatable Sales / Receipts	Output VAT	Input VAT	Net VAT Payable
2026-05	217,804.86	26,136.59	0.00	26,136.59
2026-06	94,987.65	11,398.52	0.00	11,398.52
2026-07	357,702.42	42,924.30	0.00	42,924.30
2026-08	415,686.07	49,882.33	0.00	49,882.33

Report totals for the period: Vatable Sales / Receipts PHP 1,505,381.85; Output VAT PHP 180,645.85; Input VAT PHP 0.00; Net VAT Payable PHP 180,645.85.

7.2 SAWT - Summary Alphalist of Withholding Taxes

Creditable tax withheld from the broker by insurers (direct-bill commission collections) and clients (receipts) in the period, per payor and ATC, in the BIR SAWT column layout (CSV / Excel for the DAT file preparation).

Item	Detail
Code	bir-sawt
Menu	Accounts > Tax > SAWT
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Summary (default Summary)
Filters	From Date, To Date
Columns	SEQ NO, TAXPAYER IDENTIFICATION NUMBER, CORPORATION (Registered Name), INDIVIDUAL (Last Name), First Name, Middle Name, ATC CODE, NATURE OF PAYMENT, RATE OF TAX, AMOUNT OF INCOME PAYMENT, AMOUNT OF TAX WITHHELD
Totals	AMOUNT OF INCOME PAYMENT, AMOUNT OF TAX WITHHELD
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	commission_debit_note_collections, commission_debit_notes, insurance_companies, receipt_lines, receipts, clients
Fed by	Creditable withholding tax deducted by insurers when they pay a commission debit note (direct bill collections, with the BIR Form 2307 number) and by clients on receipt lines. ATC from bir.sawt_default_atc (default WC139).

Sample from the test system (criteria Summary, 01 January 2026 to 30 September 2026, first rows of 2; amounts in PHP):

SEQ NO	TAXPAYER IDENTIFICATION NUMBER	CORPORATION (Registered Name)	ATC CODE	RATE OF TAX	AMOUNT OF INCOME PAYMENT
1	107-944-920-000	Luzon Bay Assurance Inc.	WC139	10	12,956.70
2	449-763-203-000	Mindanao Shield Insurance Corp.	WC139	10	7,548.80

Report totals for the period: AMOUNT OF INCOME PAYMENT PHP 20,505.50; AMOUNT OF TAX WITHHELD PHP 2,050.55.

7.3 QAP - Quarterly Alphalist of Payees

Expanded withholding tax the broker withheld on payment vouchers in the period, per payee and ATC, in the BIR QAP (1601-EQ attachment) column layout.

Item	Detail
Code	bir-qap
Menu	Accounts > Tax > QAP
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Summary (default Summary)
Filters	From Date, To Date
Columns	SEQ NO, TAXPAYER IDENTIFICATION NUMBER, CORPORATION (Registered Name), INDIVIDUAL (Last Name), First Name, Middle Name, ATC CODE, NATURE OF PAYMENT, RATE OF TAX, AMOUNT OF INCOME PAYMENT, AMOUNT OF TAX WITHHELD
Totals	AMOUNT OF INCOME PAYMENT, AMOUNT OF TAX WITHHELD
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	disbursements, commission_referrers, insurance_companies, clients, tax_codes
Fed by	Approved and paid payment vouchers with withholding tax (referrer payouts, suppliers). ATC per payee type from bir.atc_by_payee; nature of payment from the tax codes master.

7.4 SLSP - Summary List of Sales

Sales (commission and fees) and output tax per customer and month in the BIR Summary List of Sales layout; the customer of commission is the insurer of the policy.

Item	Detail
Code	bir-slsp-sales
Menu	Accounts > Tax > SLSP Sales
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Summary (default Summary)
Filters	From Date, To Date, Company (principal insurer)
Columns	TAXABLE MONTH, TAXPAYER IDENTIFICATION NUMBER, REGISTERED NAME, NAME OF CUSTOMER (Last, First, Middle), CUSTOMER'S ADDRESS, AMOUNT OF GROSS SALES, AMOUNT OF EXEMPT SALES, AMOUNT OF ZERO RATED SALES, AMOUNT OF TAXABLE SALES, AMOUNT OF OUTPUT TAX, AMOUNT OF GROSS TAXABLE SALES
Totals	AMOUNT OF GROSS SALES, AMOUNT OF EXEMPT SALES, AMOUNT OF ZERO RATED SALES, AMOUNT OF TAXABLE SALES, AMOUNT OF OUTPUT TAX, AMOUNT OF GROSS TAXABLE SALES
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	journal_lines, journal_vouchers, gl_accounts, policies, insurance_companies, clients
Fed by	Posted journals that carry output VAT: revenue and output tax per customer (the insurer of the policy for commission, else the client) and month.

Sample from the test system (criteria Summary, 01 January 2026 to 30 September 2026, first rows of 26; amounts in PHP):

TAXABLE MONTH	TAXPAYER IDENTIFICATION NUMBER	REGISTERED NAME	AMOUNT OF TAXABLE SALES	AMOUNT OF OUTPUT TAX	AMOUNT OF GROSS TAXABLE SALES
2026-05	107-944-920-000	Luzon Bay Assurance Inc.	13,494.15	1,619.30	15,113.45
2026-05	449-763-203-000	Mindanao Shield Insurance Corp.	7,629.56	915.55	8,545.11
2026-05	632-474-749-000	Pacific Crest Insurance Corp.	7,926.25	951.15	8,877.40
2026-05	929-527-202-000	Harbor Point Non-Life Insurance Inc.	188,754.90	22,650.59	211,405.49

Report totals for the period: AMOUNT OF GROSS SALES PHP 1,505,381.85; AMOUNT OF EXEMPT SALES PHP 0.00; AMOUNT OF ZERO RATED SALES PHP 0.00; AMOUNT OF TAXABLE SALES PHP 1,505,381.85; AMOUNT OF OUTPUT TAX PHP 180,645.85; AMOUNT OF GROSS TAXABLE SALES PHP 1,686,027.70.

7.5 SLSP - Summary List of Purchases

Purchases and input tax per supplier and month in the BIR Summary List of Purchases layout, from the input VAT booked in the ledger.

Item	Detail
Code	bir-slsp-purchases
Menu	Accounts > Tax > SLSP Purchases
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Summary (default Summary)
Filters	From Date, To Date
Columns	TAXABLE MONTH, TAXPAYER IDENTIFICATION NUMBER, REGISTERED NAME, NAME OF SUPPLIER (Last, First, Middle), SUPPLIER'S ADDRESS, AMOUNT OF GROSS PURCHASE, AMOUNT OF EXEMPT PURCHASE, AMOUNT OF ZERO-RATED PURCHASE, AMOUNT OF TAXABLE PURCHASE, AMOUNT OF PURCHASE OF SERVICES, AMOUNT OF PURCHASE OF CAPITAL GOODS, AMOUNT OF PURCHASE OF GOODS OTHER THAN CAPITAL GOODS, AMOUNT OF INPUT TAX, AMOUNT OF GROSS TAXABLE PURCHASE
Totals	AMOUNT OF GROSS PURCHASE, AMOUNT OF EXEMPT PURCHASE, AMOUNT OF ZERO-RATED PURCHASE, AMOUNT OF TAXABLE PURCHASE, AMOUNT OF PURCHASE OF SERVICES, AMOUNT OF PURCHASE OF CAPITAL GOODS, AMOUNT OF PURCHASE OF GOODS OTHER THAN CAPITAL GOODS, AMOUNT OF INPUT TAX, AMOUNT OF GROSS TAXABLE PURCHASE
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	journal_lines, journal_vouchers, disbursements, commission_referrers, insurance_companies
Fed by	Posted journals on the input VAT account; the taxable purchase is the input tax divided by tax.vat_rate. Supplier from the payment

Item	Detail
	voucher payee, else the journal description.

7.6 BIR Form 2307 (issued and received)

Menu: Accounts > Tax > BIR Form 2307. **Permission:** read:period-end (or read:journal-vouchers) to view; issuing and cancelling certificates need write:period-end. **Used by:** Accounting.

The screen works per quarter and in two directions:

- **Issued:** payees from whom the broker withheld tax on payment vouchers (agents, referrers, suppliers). The broker issues their Form 2307.
- **Received:** payors who withheld tax from the broker (insurers paying commission debit notes, clients on receipts). The broker collects their Form 2307 and claims the credit (these lines also feed the SAWT).

Function	What it does
List	Payees or payors with creditable withholding in the quarter: name, TIN, number of transactions, total income, total tax, ATCs, certificate number when issued.
Print	The Form 2307 data of one payee and quarter: per ATC the income of each month of the quarter, the total and the tax withheld.
Issue	Numbers the certificate with the CWT series and records it; issuing again returns the same certificate.
Certificates	Register of issued certificates (filter year, quarter, direction).
Cancel	Cancels an issued certificate so that a corrected one can be issued.

Settings used: bir.withholding_agent_tin, bir.registered_name, bir.registered_address, bir.zip_code, bir.atc_by_payee, bir.sawt_default_atc.
Source tables: disbursements, commission_debit_note_collections, receipt_lines, tax_codes, bir_2307_certificates.

Sample from the test system (direction Received, third quarter 2026):

Payor	TIN	Transactions	Income	Tax withheld	ATC
Luzon Bay Assurance Inc.	107-944-920-000	1	12,956.70	1,295.67	WC139
Mindanao Shield Insurance Corp.	449-763-203-000	1	7,548.80	754.88	WC139

7.7 Monthly and quarterly tax calendar

The table maps each report to the BIR return it supports. The filing deadlines are those of the BIR, not settings of the system; confirm them with the tax adviser.

BIR return or attachment	Report to run	Period to enter
2550M / 2550Q VAT return	VAT Summary (Monthly or Quarterly)	The month or quarter
SLSP (sales and purchases)	SLSP - Summary List of Sales; SLSP - Summary List of	The quarter

BIR return or attachment	Report to run	Period to enter
	Purchases	
1601-EQ with QAP	QAP - Quarterly Alphalist of Payees	The quarter
Income tax return with SAWT	SAWT - Summary Alphalist of Withholding Taxes	The quarter
Form 2307 to payees	BIR Form 2307, direction Issued	The quarter
Form 2307 from insurers and clients	BIR Form 2307, direction Received	The quarter

8. Reconciliation reports

Reconciliation reports support the monthly bank reconciliation and the reconciliation of insurer statements. The bank reports read the bank statement lines, the matches and the book view bank_book_lines (the cash GL lines of each bank account with the date they cleared). All are under Accounts > Bank Reconciliation and restricted to Accounting.

Report	Menu	Used by
Bank Reconciliation Statement	Accounts > Bank Reconciliation > Reconciliation Statement Report	Accounting (and Accounting Manager)
Outstanding Cheques	Accounts > Bank Reconciliation > Outstanding Cheques	Accounting (and Accounting Manager)
Deposits in Transit	Accounts > Bank Reconciliation > Deposits in Transit	Accounting (and Accounting Manager)
Unmatched Bank Lines	Accounts > Bank Reconciliation > Unmatched Bank Lines	Accounting (and Accounting Manager)
Bank Book	Accounts > Bank Reconciliation > Bank Book	Accounting (and Accounting Manager)

8.1 Bank Reconciliation Statement

Bank reconciliation runs with an as-of date in the range: balance per bank statement, deposits in transit, outstanding cheques and bank errors (adjusted bank balance); balance per books, bank credits and charges not yet booked and book errors (adjusted book balance); the difference must be zero to approve.

Item	Detail
Code	bank-reconciliation-statement
Menu	Accounts > Bank Reconciliation > Reconciliation Statement Report
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Bank Account (default Overall)
Filters	From Date, To Date, Status, Bank Account
Columns	Reconciliation No., Bank Account, Account Name, GL Account, Period, As of, Status, Balance per Bank, Deposits in Transit, Outstanding Cheques, Bank Errors, Adjusted Bank Balance, Balance per Books, Bank Credits not Booked, Bank Charges not Booked, Book Errors, Adjusted Book Balance, Difference, Prepared By, Prepared At, Approved By, Approved At
Totals	None (amounts are per account or per run)
Summary figures	Reconciled (approved runs), Not agreed (difference not zero)
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	bank_reconciliations, bank_account_links, users
Fed by	Reconciliation runs (BRC numbers) prepared and approved on Accounts > Bank Reconciliation > Reconciliations, selected on the as-of date.

Sample from the test system (criteria Overall, 01 January 2026 to 30 September 2026, first rows of 5; amounts in PHP):

Reconciliation No.	Bank Account	Period	Status	Balance per Bank	Deposits in Transit
BRC-2026-00001	BDO-OPS	2026-05	approved	4,966,477.84	4,070.63
BRC-2026-00002	BDO-OPS	2026-06	approved	3,836,761.73	0.00
BRC-2026-00003	BDO-OPS	2026-07	approved	5,191,563.09	0.00
BRC-2026-00004	BDO-OPS	2026-08	approved	6,227,930.85	0.00

Summary figures returned: Reconciled: 5; Not agreed: 0.

8.2 Outstanding Cheques

Payments recorded in the books (cheques, transfers) on or before To Date that have not cleared the bank as of To Date, aged; cheques older than `bank_reconciliation.stale_cheque_days` are stale.

Item	Detail
Code	bank-outstanding-cheques
Menu	Accounts > Bank Reconciliation > Outstanding Cheques
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Bank Account, Status (default Overall)
Filters	From Date, To Date, Bank Account
Columns	Bank Account, GL Account, Date, Journal No., Document, Document No., Cheque No., Payee, Description, Amount, Age (days), Status
Totals	Amount
Summary figures	Stale count, Stale amount
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	bank_book_lines (view of the cash GL lines with their clearing date)
Fed by	Payments posted to a bank cash account (payment vouchers, other credits) on or before To Date not yet cleared by a bank statement match. Older than <code>bank_reconciliation.stale_cheque_days</code> (default 180) shows as Stale.

8.3 Deposits in Transit

Collections recorded in the books (official receipts, other debits to the bank account) on or before To Date that have not reached the bank statement as of To Date.

Item	Detail
Code	bank-deposits-in-transit
Menu	Accounts > Bank Reconciliation > Deposits in Transit
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above

Item	Detail
Report Criteria	Overall, Bank Account (default Overall)
Filters	From Date, To Date, Bank Account
Columns	Bank Account, GL Account, Date, Journal No., Document, Document No., Reference, Payer, Description, Amount, Age (days)
Totals	Amount
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	bank_book_lines
Fed by	Official receipts and other debits to a bank cash account on or before To Date not yet matched to the bank statement.

8.4 Unmatched Bank Lines

Bank statement lines dated in the range that are not matched to the books as of To Date, with the suggested bank transaction type (bank charges, interest, returned cheques, direct credits).

Item	Detail
Code	bank-unmatched-lines
Menu	Accounts > Bank Reconciliation > Unmatched Bank Lines
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Bank Account, Suggested Type (default Overall)
Filters	From Date, To Date, Bank Account
Columns	Bank Account, Statement No., Date, Value Date, Description, Reference, Debit, Credit, Net, Suggested Type, Status, Age (days)
Totals	Debit, Credit, Net
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	bank_statement_lines, bank_statements, bank_account_links, bank_transaction_types, bank_rec_matches, bank_rec_match_items
Fed by	Imported or manually entered bank statement lines not matched (or matched after To Date), with the suggested bank transaction type.

8.5 Bank Book

GL detail of each bank account's cash-in-bank account: opening balance at From Date, every posted receipt, payment and journal with its source document, the running balance and whether it has cleared the bank.

Item	Detail
Code	bank-book
Menu	Accounts > Bank Reconciliation > Bank Book
Used by	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Bank Account, Overall (default Bank Account)
Filters	From Date, To Date, Bank Account
Columns	Bank Account, GL Account, Date, Journal No.,

Item	Detail
	Document, Document No., Cheque No., Payee / Payer, Description, Opening Balance, Debit, Credit, Balance, Reconciled
Totals	Debit, Credit
Summary figures	Closing balance
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	bank_account_links, bank_book_lines, opening_balances
Fed by	Every posted receipt, payment and journal on the cash account linked to each bank account, with a running balance and whether it has cleared.

Sample from the test system (criteria Bank Account, 01 January 2026 to 30 September 2026, first rows of 78; amounts in PHP):

Bank Account	Date	Journal No.	Document No.	Payee / Payer	Debit
BDO-OPS	01 January 2026	-	-	-	-
BDO-OPS	18 May 2026	JV-2026-00063	OR-2026-00001	Jerome Mercado	46,531.22
BDO-OPS	21 May 2026	JV-2026-00105	OR-2026-00043	Himlayan Cold Storage Corp.	980,902.89
BDO-OPS	29 May 2026	JV-2026-00101	OR-2026-00039	Silangan Retail Holdings Inc.	438,610.39

Report totals for the period: Debit PHP 6,427,367.08; Credit PHP 2,880,629.78.

Summary figures returned: Closing balance: PHP 3,546,737.30.

8.6 Bank Reconciliation Statement (PDF and preview)

Besides the catalogue report, each reconciliation run prints as a PDF from Accounts > Bank Reconciliation > Reconciliations > Reconciliation statement (/api/bank-reconciliation/reconciliations/:id/pdf), and the workspace shows a statement as of any date without a run (/api/bank-reconciliation/statement-preview). Permission read:bank-reconciliation.

8.7 Insurer statement differences report

Menu: Accounts > Insurer Reconciliation > Insurer Statements > (statement) > Differences report. **Permission:** read:remittance. **Outputs:** Excel (reconciliation and summary sheets, default), CSV, PDF.

After an insurer's statement (premium remittance confirmation or commission statement) is imported and matched, the differences report lists every line with the insurer's and the broker's figures side by side.

Columns
Line, Policy No, Insured, Date, Reference, Status, Insurer gross premium, Broker gross premium, Premium difference, Insurer commission, Broker commission, Commission difference, Insurer amount paid, Broker amount, Amount difference, Broker record, Resolution

Source tables: insurer_statements, insurer_statement_lines, insurer_statement_resolutions, remittance_lines, commission_debit_notes. Fed by

the statement import (Batch Processes document) and the resolutions entered on the screen.

8.8 Remittance Ageing (premium held for insurers)

Menu: Accounts > Credit Control > Remittance Ageing. **Permission:** read:collections or read:remittance. **Outputs:** screen, Excel, CSV (format=xlsx or csv).

Premium collected from clients and not yet remitted to the insurer, aged on the insurer's remittance terms (the insurer master field Remittance Terms, days after collection). Filters: insurer, as-of date, overdue only.

8.9 Remittance and reinsurance reconciliation screens

- Accounts > Remittance > Reconciliation: imports bank transactions (Remittance_Bank_Transactions_Template) and matches them to remittances.
- Reinsurance > Reconciliation: premium and claims bordereaux by period (see chapter 10).

9. Management reports

Management reports summarise production for the executive view. Chapter 9 also covers the dashboards, which are screens with figures and charts rather than catalogue reports.

Report	Menu	Used by
Premium by Product / Month / Insurer	Reports > All Reports > Premium by Product / Month / Insurer	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims, Accounting (and Accounting Manager)
New Business vs Renewals	Reports > All Reports > New Business vs Renewals	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims, Accounting (and Accounting Manager)

9.1 Management catalogue reports

9.1.1 Premium by Product / Month / Insurer

Policy count, sum insured, premium and commission by month, product and insurer (criteria picks the dimension).

Item	Detail
Code	premium-by-product
Menu	Reports > All Reports > Premium by Product / Month / Insurer (definition screen: Dashboard > Executive Dashboard > Reports)
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims, Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Product, Month, Principal Insurer (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Month, Product, Insurer, Policies, Sum Insured, Gross Premium, Commission
Totals	Policies, Sum Insured, Gross Premium, Commission
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	policies, products, insurance_companies, users, branches, clients
Fed by	Same rows as the Production Register (policies by inception date), summed by month, product and insurer.

9.1.2 New Business vs Renewals

Policies and premium split into new business and renewals per month (or per agent).

Item	Detail
Code	new-vs-renewal
Menu	Reports > All Reports > New Business vs Renewals (definition screen: Dashboard > Executive Dashboard > Reports)
Used by	Sales & Marketing, Processing Team, Operations (Client Servicing), Claims,

Item	Detail
	Accounting (and Accounting Manager); System Administrator
Permission	read:reports and one of the roles above
Report Criteria	Overall, Business Type, Agent (default Overall)
Filters	From Date, To Date, Agent, Company (principal insurer), Branch, Client, Product, Status
Columns	Month, Agent, Business Type, Policies, Gross Premium, Commission
Totals	Policies, Gross Premium, Commission
Outputs	Screen, Excel, CSV, PDF; scheduled e-mail
Source tables	policies, products, insurance_companies, users, branches, clients
Fed by	Same rows as the Production Register; a policy is a renewal when it was renewed from an earlier policy.

9.2 Dashboards

Dashboards are screens with figures and charts. They read live data each time they open and have no file output, except the Claims Dashboard export.

9.2.1 Executive Dashboard

Menu: Dashboard > Executive Dashboard. **Permission:** read:reports. **Period:** month, quarter or year.

KPIs with target and achievement: total revenue (premium), active policies, new business, claims ratio, retention rate and customer satisfaction (shows "No survey data captured": the system holds no survey data). Charts: premium by product, monthly trend, regions, products, agents. Targets come from the setting dashboard.targets (OOTB: total revenue PHP 5,000,000.00, active policies 250, new business PHP 2,000,000.00, claims ratio 70, retention rate 90, customer satisfaction 95).

Test system, period year: total revenue PHP 15,204,363.59 against a target of PHP 5,000,000.00 (304.1%); active policies 68 against 250; claims ratio 7 against 70; retention rate 85.7 against 90.

9.2.2 Sales Dashboard

Menu: Dashboard > Sales Dashboard. **Permission:** read:leads or read:quotations. Prospects, new and converted prospects, quotations, quoted premium, policies, premium, prospect and quotation conversion rates, pipeline by stage, figures by sales person, premium by product, monthly trend, for a month, quarter, year or a date range. Roles limited to their own book (Sales & Marketing) see only their own figures; others see the whole book or pick one sales person.

Test system, year to date: 61 prospects, 72 quotations (quoted premium PHP 15,252,579.67), 68 policies, premium PHP 15,204,363.59, prospect conversion 88.5%, quotation conversion 91.7%, pipeline 2 quotations worth PHP 105,322.24.

The Operations > Home page (Account Executive) uses /api/agent/get-dashboard-details: own funnel, premium this month, renewals due within dashboard.renewals_due_days (60), recent quotations and expiring policies.

9.2.3 Processing Dashboard

Menu: Dashboard > Processing Dashboard. **Permission:** read:quotations. New and older submissions, average cycle time, data-quality alerts (duplicate submission, missing dates, missing LOB), the cases awaiting the customer or the insurer with priority (high from dashboard.high_sum_insured, PHP 5,000,000.00), and volume by LOB.

9.2.4 Claims Dashboard

Menu: Dashboard > Claims Dashboard (and Operations > Claims > Claims Dashboard). **Permission:** read:claims. Total claims, settled amount, average days to settle, claims and estimates by status. Test system: 8 claims, PHP 1,097,750.00 settled, 29.75 days on average to settle. The operations version (/api/claims/report, permission read:claims or read:reports) adds breakdowns, ageing and detailed rows and downloads them as Excel.

9.2.5 Commission Dashboard

Menu: Commission > Commission Dashboard. **Permission:** read:commission or read:quotations. Brokerage income, sub-agent commission (comsub) gross, net margin and margin %, outstanding payable, withholding tax withheld and paid, comsub by referrer and by product, brokerage by insurer, payout lines by status (Accrued, Eligible, Approved, Paid), clawbacks and monthly trend.

9.2.6 Collections dashboard and ageing

Menu: Accounts > Collections. **Permission:** read:collections or read:receipts. KPIs: total outstanding, items, overdue count and amount, committed, escalated, collected this month, and items by status. The Aging report on the same screen gives bucket totals and percentages (current, 1-30, 31-60, 61-90, over 90) with the open items. Test system: outstanding PHP 4,251,087.52 on 18 items, of which PHP 445,301.58 overdue.

9.2.7 Renewal performance and retention analytics

Menu: Operations > Renewals > Performance and Retention Analytics; Renewal Queue (counters); At-Risk Policies. **Permission:** read:renewals. Renewal rate, premium retention, cycle time, by product, by agent and monthly trend; at-risk renewals with risk score, factors and recommended actions (weights and bands in the renewals.risk_* settings).

9.2.8 Remittance Analytics

Menu: Accounts > Remittance > Analytics. **Permission:** read:remittance. KPIs with targets (settlement efficiency, payment success rate, average processing time, exception rate), top insurers, monthly trend and status distribution.

9.2.9 Reinsurance Treaty Dashboard and Analytics

Menu: Reinsurance > Treaty Dashboard; Reinsurance > Analytics. **Permission:** read:reinsurance. Treaty utilisation, loss-ratio trend (gross and net by month), retention and cession, recovery performance and catastrophe exposure.

9.2.10 Product Configurator Dashboard and Product Analytics

Menu: Product Configurator > Dashboard; Product Configurator > Product Analytics.

Permission: read:products. Template counts, categories, components, recent and expiring templates; top products, performance trend and category breakdown from issued policies and claims.

10. Module exports and printed registers

These outputs are produced on the module screens. They are not in the report catalogue, so the catalogue role check and the report schedules do not apply to them.

Output	Menu	Format	Permission	Content
Claims dashboard report	Operations > Claims > Claims Dashboard > Export Report	Excel	read:claims or read:reports	Detailed claim rows for a start and end date.
Claims by criteria	API only: /api/claims/reports/criteria (the menu entry Reports > Operational Reports > Claims opens the catalogue Claims Position)	Excel (or JSON)	read:claims	All, Open, Settled, Rejected or Aging.
Lead report	Operations > Sales & Marketing > Prospects > Generate Report	Excel or CSV	read:leads	Prospects of a status or quotation-status category.
Accounting entries export	Accounts > Accounting Query > Export	CSV	read:journal-vouchers, read:receipts or read:disbursements	Entries matching the search filters (dates, account, reference).
Renewal batch report	Operations > Renewals > Renewal Batch > Generate Report	Excel or CSV	read:renewals	Policies of the batch with notice and quote status.
Remittance statement	Accounts > Remittance > Statements > Generate	CSV (optionally e-mailed as a link)	read:remittance / write:remittance	Transaction Date, Remittance No, Policy Number, Insured Name, Insurer, Premium, Commission, Taxes, Net Amount, Status for a period and insurers.
Remittance reports	Accounts > Remittance > Reports > Generate	CSV	write:remittance	Templates Daily Remittance Summary (RPT-001) and Monthly Commission Analysis (RPT-002) for a date range.
Reinsurance bordereaux	Reinsurance > Reports > Bordereau; Reinsurance > Reconciliation	CSV	read:reinsurance / write:reinsurance	Premium bordereau (confirmed cessions) or claims bordereau (recoveries) for a period.
Reinsurance reports	Reinsurance > Reports	CSV	write:reinsurance	Templates Monthly Premium Bordereau (RPT001), Quarterly Claims Report (RPT002), Annual Treaty Performance (RPT003), IC Quarterly Submission (RPT004).
Incentive reports	Accounts > Incentive > Reports	CSV	write:incentive	Templates Monthly Payout Summary, Agent Payout

Output	Menu	Format	Permission	Content
				Details, Target Achievement Report, Top Performers, Program Effectiveness.
Incentive statement	Accounts > Incentive > Statement	Screen	read:incentive or read:profile (own statement)	An agent's incentive statement for a period.
Official receipts print	Accounts > Receipts > Bulk print / Print	PDF, one receipt per page	read:receipts	One receipt, or a customer code and date range.
Payment vouchers print	Accounts > Disbursement > Bulk print	PDF, one voucher per page	read:disbursements	One voucher, or a customer code and date range.

10.1 Regulatory outputs (Insurance Commission)

The OOTB system has no Insurance Commission statement in the prescribed IC format. The reinsurance report template **IC Quarterly Submission** (RPT004, type Regulatory) exists, but the generator treats every template that is not of type Premium or Claims the same way: it writes the list of treaties (treaty number, name, type, LOB, status, dates, premium ceded, claims recovered, utilisation, security rating) as CSV, without a period filter. Treat it as a working list, not as a filing.

For the broker's own statutory reporting, the Income Statement, Balance Sheet, Trial Balance (Opening / Movement / Closing) and the production, claims and remittance registers give the figures an IC or audit schedule needs; the schedules themselves are prepared outside the system.

11. Report settings and administration

11.1 Settings

All settings are on Master > Configuration, area Reports & Dashboards, unless shown otherwise.

Setting	OOTB value	Effect
reports.default_format	xlsx	File format when none is chosen.
reports.default_page_size	50	Rows per page on screen.
reports.default_range_days	365	Days covered when a run has no From Date.
reports.max_rows	50000	Maximum rows written to a file.
reports.download_link_ttl_ho urs	72	Validity of download links.
reports.retention_days	90	Generated files are deleted after this many days.
reports.pdf_page_size	A4	PDF page size (A4 or LETTER).
reports.email_subject, reports.email_body	see Communication Templates	Scheduled report e-mail.
reports.claim_ageing_buckets	30, 60, 90, 180	Claim ageing buckets.
reports.claim_open_statuses	registered, in-review, pending- approval, approved	Open claims.
reports.claim_settled_status es	settled, closed	Settled claims.
reports.claim_rejected_statu ses	rejected	Rejected claims.
reports.renewal_retained_sta tuses / reports.renewal_lost_statuse s	renewed / lapsed	Renewal outcome.
reports.lead_funnel_stages	new, contacted, qualified, quoted, converted, lost	Funnel order.
reports.placement_age_bucket s	7, 14, 30, 60	Placement pipeline buckets.
reports.placement_open_statu ses	draft, submitted, responses-in, sent, bound, declined	Open slips.
reports.trial_balance_status es	approved, posted	Journals in the Trial Balance.
limits.receivable_ageing_buc kets (area Security & Access, Limits)	30, 60, 90, 120	Receivable and payable ageing buckets.
bank_reconciliation.stale_ch eque_days	180	Stale cheque threshold.
accounting.account.output_va t / accounting.account.input_vat	2204003 / 1301001	VAT accounts read by the tax reports.
bir.sawt_default_atc, bir.atc_by_payee	WC139, per payee type	ATC on the alphas.
dashboard.targets, dashboard.renewals_due_days, dashboard.high_sum_insured	see chapter 9	Dashboard targets and windows.

11.2 Adding or changing a report

Reports are configuration plus a query. To add one, the support team writes the base query in backend/src/modules/reports/queries.js (period as \$1 and \$2, the standard dimension columns for filtering), adds a report_definitions row in a migration or seed (code, name, category, screen, query name, parameters, default columns with

types, roles), and adds a test in `backend/test/reports.test.js`. The catalogue test fails when a definition names a query that does not exist. To hide a report, set its status to anything other than active; to change who sees it, change its roles or permission.

11.3 Troubleshooting

Symptom	Check
A user does not see a report in All Reports	The user needs <code>read:reports</code> and, when the report lists roles, one of them.
"Report X has no query named Y"	The definition and <code>queries.js</code> disagree; correct <code>query_name</code> .
A download link says it has expired	Links last 72 hours; the file stays in <code>generated_reports</code> for 90 days. Generate again or sign a new link.
A scheduled report did not arrive	Master > Schedules > Run history of job report- <code><id></code> , then Master > E-mail Outbox. E-mail leaves only when <code>notification.email_enabled</code> is on and SMTP is configured.
Trial Balance and Trial Balance (Opening / Movement / Closing) differ	The first reads approved and posted journals and no opening balances; the second reads posted journals and the fiscal-year opening balances.
Ageing looks one day off	Ageing uses the business date in Asia/Manila. Check <code>general.timezone</code> .

12. Gaps and observations

The following points were found while preparing this book. They are recorded so that the broker and the support team can decide on them; none of them stops the reports from running.

No.	Observation	Effect	Suggested action
1	No front-end screen for report schedules and for the generated-file history (API only).	Users cannot set up e-mailed reports themselves.	Add Reports > Schedules and Reports > Generated reports screens, or have the administrator create schedules through the API.
2	Scheduled report e-mails carry a download link, not the file.	Recipients need the link within 72 hours.	Keep <code>reports.download_link_ttl_hours</code> in line with how recipients work.
3	No Insurance Commission report in the prescribed format; the IC Quarterly Submission template writes the treaty list.	IC returns are prepared outside the system.	Specify the IC schedules required and add them as catalogue reports.
4	Remittance report templates (Daily Remittance Summary, Monthly Commission Analysis) produce the same statement CSV; the sections, pivots and PDF / Excel formats in the templates are not applied. Remittance statement templates STM-001 (PDF) and STM-002 (Excel) also produce CSV.	Output differs from the template description.	Use the catalogue Remittance Summary for formatted output, or extend the generator.
5	Reinsurance report templates are not filtered by period.	Every run lists all confirmed cessions, recoveries or treaties.	Filter the CSV, or use the bordereau screen, which takes a period.
6	The Trial Balance report does not include go-live opening balances.	It differs from Trial Balance (Opening / Movement / Closing) in the year of go-live.	Use Trial Balance (Opening / Movement / Closing) for statutory work.
7	The BIR reports are working papers; no DAT file is produced.	The DAT file is prepared with the BIR tools from the CSV / Excel output.	None in the OOTB scope.
8	The report definition of the Trial Balance names the screen "Trail Balance" (and the route <code>/reports/financialreports/trailbalance</code>); the menu shows "Trial Balance".	Cosmetic.	Correct the screen text in the definition.

13. Document Sign-Off

Serial Number	Description	Owner	Status
1	No open items at the time of issue	iorta TechNXT	Closed
