1. Document Control

Date	Version	Author & Business Unit Info	Reviewed By & Business Unit Info	Approved By & Business Unit Info	Change History
03 October 2026	1.0	iorta TechNXT			Initial issue

2. Acronyms

Acronym / Symbol	Definition / Meaning
OOTB	Out of the box
TTT	Train the trainer
UAT	User acceptance test
OR	Official receipt
JV	Journal voucher
PV	Payment voucher
KYC	Know your customer
BIR	Bureau of Internal Revenue
SAWT	Summary Alphalist of Withholding Taxes
QAP	Quarterly Alphalist of Payees
SLSP	Summary List of Sales and Purchases
CTPL	Compulsory Third Party Liability
PM	Project manager

3. Introduction

3.1 Purpose

This plan sets out how the broker's people learn to use BrokerVerse OOTB and how the change in their daily work is managed: the training per role, the curriculum and durations, the train-the-trainer approach, the materials, the assessment, and the change management activities around go-live.

3.2 Approach in brief

- **Role-based.** Training follows the seven delivered roles. Each user is trained in the screens of the role the user will hold, as the menus differ by role.
- **Train the trainer.** iorta TechNXT trains the broker's key users. The key users then train their teams, with iorta TechNXT present at the first sessions.
- **Hands on.** At least two thirds of each session is practice on the test environment with training data, following the steps of the user manual.
- **Assessed.** Every user completes a practical assessment before receiving production access.
- **Just in time.** End-user training takes place in the two weeks before go-live, so the learning is fresh on day one.

3.3 Roles trained

Role in BrokerVerse	Who in the broker	Role decks in docs/decks
System Administrator (Super Admin Access)	IT or system owner; at most a few people	BrokerVerse_System_Administrator_Guide.pptx (22 slides)
Sales & Marketing (Account Executive)	Account executives, marketing staff	BrokerVerse_Sales_and_Marketing_Guide.pptx (18 slides)
Processing Team (Placement & Policy Processing)	Placement, underwriting support and policy processing staff	BrokerVerse_Processing_Team_Guide.pptx (22 slides)
Operations (Client Servicing)	Client servicing and customer care staff	BrokerVerse_Operations_Guide.pptx (19 slides)
Claims	Claims officers and approvers	BrokerVerse_Claims_Guide.pptx (18 slides)
Accounting	Billing, collection, disbursement, remittance and general ledger staff	BrokerVerse_Accounting_Guide.pptx (22 slides)
Accounting Manager	Finance manager, controller; inherits Accounting	BrokerVerse_Accounting_Manager_Guide.pptx (19 slides)

4. Training materials

Material	Use
BrokerVerse User Manual (docs/manual/BrokerVerse_User_Manual.pdf, 199 pages)	Reference for every screen; chapter 25 has a one-page quick guide per role; appendices hold status values, number series, key settings, schedules, glossary, troubleshooting and known limitations
Role decks (docs/decks)	One PowerPoint per role: the role, its menu map, key functions with screens, its part of the end-to-end flow, reports, schedules, notifications, known limitations and tips
Getting started guide (docs/onboarding/GETTING_STARTED.md)	First sign-in, password rules, two-step verification, menus per role, how to ask for help; handed to every user
UAT scripts (docs/onboarding/UAT_SCRIPTS.md)	Basis for the practical exercises and the assessment
Upload templates (docs/templates)	Exercises for users who load data (System Administrator, Accounting, Sales & Marketing, Processing Team)
Training environment	The test environment with training users (one per trainee) and training data; the delivered sample data (SEED_SAMPLE_DATA=true) may be used there, never in production
Exercise book (prepared by the key users with iorta TechNXT)	The broker's own examples: products, insurers, a typical motor and fire risk, a typical month-end

Training users and their passwords are handed to trainees privately, as for production users. Trainees never use production for practice.

5. Curriculum by role

Durations are in hours of classroom time; a day is 7 hours. The manual chapters are those of the BrokerVerse User Manual.

Note: version 1.0 of the user manual and the role decks do not describe Operations > Sales & Marketing > Quick Quote and Compare Insurers, Accounts > Credit Control and Accounts > Insurer Reconciliation. Until they do, the consultant teaches these screens by walkthrough and the key users add the steps to their exercise book.

5.1 All roles: common module (1.5 hours)

Topic	Content	Manual
Signing in	First sign-in, password change, password rules (8 characters, upper and lower case, digit, symbol, history 5, expiry 90 days), logout after 5 wrong passwords, idle sign-out after 30 minutes, forgotten password	Chapter 2
Two-step verification	Set-up with an authenticator app; what to do when the phone is lost	Chapter 2
Finding your way	Menu by role, dashboards, notifications (bell), lists, search and filters, view and edit	Chapters 2, 4
The broking cycle	The thirteen steps from lead to month-end and who does each; maker-checker points	Chapter 3
Formats	Dates DD/MM/YYYY, amounts in PHP, mobile number and TIN formats, government IDs accepted for KYC	Chapter 2
Getting help	Key user first, then the System Administrator; what to put in a report: screen, record number, time, request ID	Chapter 2, Appendix H

5.2 System Administrator (17.5 hours, 2.5 days)

Module	Hours	Content	Manual
Common module	1.5	As above	
User management	3	Users, roles, temporary passwords, locking and unlocking, two-step verification resets; User Access Matrix, Role Permissions, Authority Matrix, Delegations, Segregation of Duties, Access Reviews	Chapter 23
Organisation and letterhead	1	Company (primary company prints on every document), branches, departments, System Settings	Chapter 23
Masters and uploads	3	Insurance	Chapter 23

Module	Hours	Content	Manual
		Management masters, Location, Employee Management, Finance masters; upload templates, row errors, loading masters without an Upload button	
Configuration	3	Master > Configuration groups: security, notification and e-mail texts, placement journey, limits, tax, claims, renewals, remittance; effect of a change; audit	Chapter 23, Appendix C
Document numbering	1	Series, prefix, format, next number; continuing the old numbering; official receipt series and the Authority to Print	Chapter 23, Appendix B
Schedules and E-mail Outbox	1.5	The 15 jobs, switching on, Run now, run history; the outbox and resending	Chapter 23, Appendix D
Posting rules and account determination (overview)	1	Account roles, posting rules, Simulate, Configuration Approvals	Chapter 23
Audit Trail and first-line support	2.5	Audit Trail filters; access reviews; triage of user reports; raising tickets to iorta TechNXT	Chapter 23, Appendix F

5.3 Sales & Marketing (10.5 hours, 1.5 days)

Module	Hours	Content	Manual
Common module	1.5	As above	
Dashboards	0.5	Executive Dashboard, Sales Dashboard	Chapter 4
Prospects	1.5	Create a prospect per line, edit, bulk upload with the template	Chapter 5
Quotations	3	Motor quotation: vehicle class, CTPL, covers, taxes; sending for customer approval; quotation validity and maker-checker; Quick Quote and Compare Insurers for package products	Chapter 8; Quick Quote by walkthrough (see note)
Requests for quotation	0.5	Passing a commercial risk to the Processing Team for a broker slip	Chapter 7
Payment capture	1	Proceed to Payment: pay later, bank transfer, cheque,	Chapters 9, 13

Module	Hours	Content	Manual
		online payment, cash; Accounting verifies	
Clients and renewals	1.5	Clients; Renewal Queue, At-Risk Policies, Negotiations; renewal notices	Chapters 6, 12
Commission and reports	1	Commission Dashboard; Production Register, Lead Conversion Funnel, Receivables Ageing	Chapters 15, 24

5.4 Processing Team (21 hours, 3 days)

Module	Hours	Content	Manual
Common module	1.5	As above	
Dashboards	0.5	Processing Dashboard, Executive Dashboard	Chapter 4
Placement journey	1	Journey per line of business; required and optional steps	Chapter 3
Requests for quotation (broker slips)	3	New broker slip, submit to market, record offers and declines, compare offers	Chapter 7
Quotation slips	2	Preparing the quotation slip from the chosen offer; pricing, taxes, commission	Chapters 7, 8
Placement slips and co-insurance	3	Firm order to the lead and co-insurers, shares totalling 100%, confirmations, binding	Chapter 7
Policy issue	2.5	Issue from the placement slip or the motor quotation; KYC and vehicle identifiers; Record Issued Policy; documents and billing	Chapters 7, 9
Endorsements	2	Endorsement types, premium recalculation, additional and return premium, completing with the insurer's document	Chapter 10
Renewals	1	Approving renewal terms; renewal batch and queue	Chapter 12
Product Configurator	2.5	Product templates, the motor tariff (CTPL and Auto Passenger PA), coverage builder, rating engine, acceptance rules, approval workflows,	Chapter 22

Module	Hours	Content	Manual
		market and risk mapping	
Reinsurance and reports	2	Treaties, cession tracking, claims recovery; Placement Pipeline, Market Response, Co-insurance Register, Production Register	Chapters 20, 24

5.5 Operations (10.5 hours, 1.5 days)

Module	Hours	Content	Manual
Common module	1.5	As above	
Clients and policies	2	Finding a client, policies, open bills; policy details and documents	Chapters 6, 9
Endorsement requests	1.5	Raising an endorsement request; what the Processing Team completes	Chapter 10
Open items and payments	2.5	Expiring policies, pending quotations, pending payments; capturing the client's payment with proof	Chapter 13
Renewals	1.5	Renewal Policy, renewal notices, lapse management	Chapter 12
Quotations for servicing	1	Quoting a change or a new cover for an existing client	Chapter 8
Reports	0.5	Production Register, Claims Position, Renewal Retention	Chapter 24

5.6 Claims (7 hours, 1 day)

Module	Hours	Content	Manual
Common module	1.5	As above	
Registering a claim	1.5	New claim on an active policy; checks on loss date and unpaid premium	Chapter 11
Documents and letters	1	Uploading documents, acknowledgement and other claim letters	Chapter 11
Insurer follow-up	1	Insurer reference, adjuster, follow-up notes, claim history and audit trail	Chapter 11
Settlement	1.5	Settlement amount, discharge voucher, maker-checker approval; settlement paid through the	Chapter 11

Module	Hours	Content	Manual
		broker	
Dashboard, recovery and reports	0.5	Claims Dashboard, Claims Recovery, Claims Position	Chapters 4, 20, 24

5.7 Accounting (28 hours, 4 days)

Module	Hours	Content	Manual
Common module	1.5	As above	
Receipts and payment verification	3	Official receipts against open bills, verifying captured payments, bulk receipts, printing, returned cheques	Chapters 13, 14
Collections and credit control	2	Collections, ageing, reminders; Credit Control: instalment plans, premium warranty monitor, client credit limits, remittance ageing	Chapter 14; Credit Control by walkthrough (see note)
Disbursement and petty cash	2	Payment vouchers, maker-checker, cheque printing, bulk upload; petty cash funds, requests, replenishment	Chapter 14
Remittance and direct bill	4	Automated processing, approval levels, settlement, electronic transfer records, remittance reconciliation; direct bill debit notes and collection of commission net of EWT	Chapter 16
Commission and incentives	2	Referrer accounts, eligibility after full collection, approval, payout with withholding tax; incentive calculations and approval	Chapters 15, 21
Journals and the ledger	3	Journal voucher, correction and reversal JV, open entry matching and unmatching, Accounting Query, All Clients Accounting; what each business event posts	Chapter 14, 23
Bank reconciliation	3	Statement import with preview, auto match, manual match, bank items, preparing the reconciliation, reports	Chapter 19
Insurer reconciliation	1	Insurer Statements and their matching;	Walkthrough (see note)

Module	Hours	Content	Manual
		approval by the Accounting Manager	
Tax	2.5	Tax codes; BIR Form 2307 issued and received; VAT Summary, SAWT, QAP, SLSP; BIR settings before the first filing	Chapter 18
Period end	2	Period Management, Month-End Close run and checklist, recurring journals, financial statements; go-live opening data	Chapter 17
Reports	2	SOA/Premium Receivable, Collection Report, Payables, Journal, Trial Balance, Aged Payables to Insurers, Due to Insurers by Co-insurer	Chapter 24

5.8 Accounting Manager (7 hours, 1 day, after the Accounting curriculum)

Module	Hours	Content	Manual
Approvals	1.5	What only the Accounting Manager approves; maker-checker rules; delegations	Chapters 3, 17
Month-end and year-end close	2	Reviewing and approving the close run; year-end close and carry forward	Chapter 17
Period control	1	Reopening a period with remarks; soft-closed periods and postings into them	Chapter 17
Bank and insurer reconciliation approval	1	Approving and locking bank reconciliations; approving insurer statement reconciliations and credit control items	Chapter 19
Configuration approvals	1	Account determination and posting rule changes proposed by another user; tax codes and GL accounts	Chapter 23
Financial statements and BIR review	0.5	Trial balance, income statement, balance sheet, GL detail; reviewing the BIR working papers before filing	Chapters 17, 18

5.9 Summary of durations

Role	Key users (TTT)	End users
System Administrator	2.5 days	Not applicable (all System Administrators are trained by iorta TechNXT)
Sales & Marketing	1.5 days plus 0.5 day trainer skills	1.5 days
Processing Team	3 days plus 0.5 day trainer skills	3 days
Operations	1.5 days plus 0.5 day trainer skills	1.5 days
Claims	1 day plus 0.5 day trainer skills	1 day
Accounting	4 days plus 0.5 day trainer skills	4 days
Accounting Manager	1 day after Accounting	Not applicable (trained by iorta TechNXT)

6. Train the trainer

6.1 Who

One key user per team (two for teams of more than 15 users), named at mobilisation. Key users take part in discovery and UAT, so they reach training already knowing the configuration.

6.2 Programme

1. **Role curriculum** delivered by an iorta TechNXT consultant, on the test environment with the broker's configuration.
2. **Trainer skills** (half a day): structuring a session, demonstrating then letting trainees practise, handling questions, using the exercise book, running the assessment.
3. **Exercise book** prepared by each key user with the consultant: the broker's own examples for each module.
4. **Teach-back**: each key user delivers one module to the consultant and peers and gets feedback.
5. **Co-delivery**: the key user leads the first end-user session with the consultant in the room; the consultant answers system questions and notes follow-ups.
6. **Solo delivery**: the key user runs the remaining sessions; the consultant is on call.

6.3 Exit criteria for a key user

- Passed the role assessment with at least 90%.
- Delivered a teach-back to the consultant's satisfaction.
- Knows how to raise a support ticket and what to include.

7. Delivery

7.1 Schedule

Plan	Train the trainer	End-user training
Small (8 weeks)	Week 4	Week 5
Medium (12 weeks)	Week 7	Weeks 8 and 9
Large (16 to 20 weeks)	Weeks 10 and 11	Weeks 12 and 13

7.2 Sessions

- At most 10 trainees per session, each with a computer and a training user for the role.
- Sessions run on site or online in Philippine business hours, in English; key users may explain in Filipino. The screens are in English in this release.
- Users holding two roles attend both curricula.
- Attendance is recorded per session; a missed module is taken in a catch-up session before go-live.
- Users who join after go-live are trained by their key user with the same curriculum and assessment.

7.3 Training environment readiness

Before each training wave: training users created per trainee, configuration equal to the UAT-accepted configuration, training data present (prospects, quotations, policies, open bills, a bank statement to reconcile), e-mail going to internal addresses only, and the exercise book printed.

8. Assessment

8.1 Method

Each user completes a practical assessment at the end of the role curriculum, on the training environment, without help. It uses the scenarios of UAT_SCRIPTS.md for the role, with the broker's data, plus a short written check.

Role	Practical tasks (from the UAT scripts)	Written check
System Administrator	A1 to A7	10 questions
Sales & Marketing	S1, S3, S4, S5, S6	10 questions
Processing Team	P1 to P6	10 questions
Operations	O1 to O5	10 questions
Claims	C1 to C5	10 questions
Accounting	F1 to F8	15 questions
Accounting Manager	M1 to M5	10 questions

8.2 Pass criteria

- End users: at least 80% overall, and every task marked critical for the role done correctly. Critical tasks: issuing an official receipt (Accounting), approving as checker (Accounting Manager), issuing a policy with KYC (Processing Team), registering a claim (Claims), capturing a payment (Operations, Sales & Marketing), creating a user with the right role (System Administrator).
- Key users: at least 90%.
- A user who does not pass attends a refresher and takes the assessment again before receiving production access.

8.3 Evaluation of the training

Each trainee fills in a short evaluation (content, pace, trainer, materials, confidence to do the job). Key users and the iorta TechNXT consultant review the results after each wave and adjust the next sessions.

9. Change management

9.1 What changes for users

The main changes users meet are rules the system now enforces. Each is explained in training and in the go-live communication.

Change	Who is affected	What it means in daily work
Only Accounting posts official receipts	Sales & Marketing, Operations, Processing Team, Accounting	Other roles record how the client paid; Accounting verifies and issues the receipt
Maker-checker	Accounting, Accounting Manager, Claims, Processing Team	The person who enters a quotation, voucher, remittance, settlement, journal or close cannot approve it
KYC and vehicle identifiers before a motor policy is issued	Sales & Marketing, Processing Team, Operations	Government ID type, number and image, chassis, motor and plate or MV file number are needed before issue
Placement journey per line	Processing Team, Sales & Marketing	Fire, IAR, marine, casualty and engineering need a placement slip confirmed by every insurer before issue
Server pricing	Sales & Marketing, Processing Team	The premium is calculated from the configured rates and taxes; overrides are recorded
Claims checks	Claims	A claim is refused when the loss date is outside the policy period or premium is unpaid (delivered settings)
Commission paid after full collection	Accounting, Sales & Marketing	Referrer commission becomes payable only when the premium is fully collected and a bank account is on file
Period control	Accounting, Accounting Manager	Closed periods take no postings; soft-closed periods take postings only from the Accounting Manager
Security	Everyone	Personal user IDs, password rules, two-step verification for the roles set, automatic sign-out after 30 minutes idle; every action is in the Audit Trail

9.2 Stakeholders and communication

Audience	Message	Channel	When
Management	Why the change, what it delivers, what is asked of the teams	Steering committee, management meeting	Mobilisation, monthly
Team leaders	Timeline, their key user, release of staff for training and UAT	Briefing by the broker PM	Mobilisation, before training
All users	What changes, training dates, go-live date, where to get help	E-mail from the sponsor, team meetings, getting started guide	Four weeks and one week before go-live, go-live day
Insurers	Go-live date, any	Letter or e-mail from	Two weeks before go-

Audience	Message	Channel	When
	change in documents (remittance advice, debit notes), contacts	Accounting	live
Clients (where affected)	New official receipt or billing statement layout, payment links if used	Account executives	At go-live

9.3 Readiness

The broker PM checks readiness two weeks before go-live and again at the go/no-go: users trained and assessed per team, key users in place, user IDs issued, procedures updated for the changes above, and team leaders' confirmation that their teams are ready. Gaps are actions in the RAID log.

9.4 Support at go-live and reinforcement

- Key users act as floor walkers in their teams during the first week; iorta TechNXT consultants are on site or on call during hypercare.
- A daily 15-minute check-in in the first week collects questions; answers go into the knowledge base and a short tips note to users.
- Refresher sessions are offered at the end of the first month, before the first month-end close for Accounting, and on topics the support tickets show users find hard.
- Key users keep the exercise book and train newcomers with the same curriculum and assessment.

10. Document Sign-Off

Serial Number	Description	Owner	Status
1	No open items at the time of issue	iorta TechNXT	Closed
