EOPT	Ease of Paying Taxes Act
CTPL	Compulsory third party liability
BIR	Bureau of Internal Revenue
CR	Change request
Dev	Development environment
IC	Insurance Commission
LOB	Line of business
OOTB	Out of the box
PHP	Philippine peso
PHT	Philippine time
Pre-Prod	Pre-production environment
SaaS	Software as a service
SIT	System integration test
UAT	User acceptance testing
USD	United States dollar
VAT	Value-added tax

3. About this rate card

This rate card sets out the list prices of iNXT BrokerVerse OOTB, the out-of-the-box version of the iNXT BrokerVerse insurance broking platform of iorta TechNXT Corp., for Philippine non-life insurance brokers. It shows ready packages for each broker

size, what each package includes, the two licence models, implementation, hosting, support, optional services, change request rates, payment terms and taxes.

iNXT BrokerVerse OOTB covers sales and quotation, placement with insurers, policy issuance and servicing, endorsements, claims, renewals, billing, official receipts and sales invoices, remittance to insurers, commission, general ledger, bank and insurer reconciliation, BIR forms and returns, anti-money laundering, the Insurance Commission and privacy registers, integrations with SMS gateways, the CTPL provider, insurers and banks, dealer programmes, reinsurance and incentives. The prices are for the product as delivered. Changes to the product are change requests, priced at the day rates in this rate card.

All prices are in PHP and exclude 12% VAT. USD figures are for reference only, at PHP 62.75 per USD (BSP reference rate, 25 September 2026). This rate card is valid for 90 days from 04 October 2026. A binding price is the price in a signed Order Form.

4. Packages at a glance

4.1 How the packages are built

Each broker size has four ready packages. They are priced for the reference number of users and lines of business of the size. Any other combination is priced with the same rates in the quotation.

Package	Licence model	Hosting	Support	Term shown
Essentials	Subscription	Hosted by the broker	Standard support	3 years
Standard	Subscription	iorta TechNXT on AWS (Singapore)	Standard support	3 years
Ownership	Perpetual licence with AMC	iorta TechNXT on AWS (Singapore)	Standard support	5 years
Ownership Plus	Perpetual licence with AMC	Local partner in the Philippines	Standard support and 24x7 Severity 1 support	5 years

Ownership Plus also includes 2 extra training days and the migration of 1 legacy data source.

The figures below are list prices, excluding VAT. "One-time" is the implementation or onboarding fee, the perpetual licence fee and one-time services. "Monthly" is the subscription and the hosting of the standing environment set of the size (see Hosting). Year 1 and 5-year totals include the AMC and the yearly support where they apply, with the 5% yearly increase, and the temporary Pre-Prod environment: 2 months in Year 1 for the go-live rehearsal and 1 month a year after for a major release. The 5-year total assumes the contract continues to Year 5.

4.2 Small broker: 15 users, 5 lines of business

Package	One-time (PHP)	Monthly (PHP)	Year 1 total (PHP)	5-year total (PHP)	5-year total (USD)
Essentials	1,130,000.00	48,000.00	1,706,000.00	4,312,764.00	68,729
Standard	1,130,000.00	91,000.00	2,264,000.00	7,018,764.00	111,853
Ownership	2,480,000.00	43,000.00	3,038,000.00	6,466,107.00	103,046
Ownership Plus	2,780,000.00	42,000.00	3,564,000.00	8,026,259.00	127,909

Ownership: AMC PHP 297,000.00 in Year 2. Ownership Plus: AMC PHP 297,000.00 in Year 2 and 24x7 Severity 1 support PHP 240,000.00 a year.

4.3 Medium broker: 60 users, 8 lines of business

Package	One-time (PHP)	Monthly (PHP)	Year 1 total (PHP)	5-year total (PHP)	5-year total (USD)
Essentials	2,090,000.00	178,000.00	4,226,000.00	13,892,748.00	221,398
Standard	2,090,000.00	247,000.00	5,148,000.00	18,314,748.00	291,868
Ownership	7,070,000.00	69,000.00	7,992,000.00	16,214,173.00	258,393
Ownership Plus	7,370,000.00	67,000.00	8,744,000.00	19,034,476.00	303,338

Ownership: AMC PHP 1,095,600.00 in Year 2. Ownership Plus: AMC PHP 1,095,600.00 in Year 2 and 24x7 Severity 1 support PHP 480,000.00 a year.

4.4 Large broker: 180 users, 12 lines of business

Package	One-time (PHP)	Monthly (PHP)	Year 1 total (PHP)	5-year total (PHP)	5-year total (USD)
Essentials	3,700,000.00	482,000.00	9,484,000.00	35,660,251.00	568,291
Standard	3,700,000.00	625,000.00	11,372,000.00	44,756,251.00	713,247
Ownership	17,080,000.00	143,000.00	18,968,000.00	38,863,284.00	619,335
Ownership Plus	17,380,000.00	135,000.00	20,064,000.00	43,632,352.00	695,336

Ownership: AMC PHP 2,943,600.00 in Year 2. Ownership Plus: AMC PHP 2,943,600.00 in Year 2 and 24x7 Severity 1 support PHP 900,000.00 a year.

4.5 Enterprise broker: 400 users, 16 lines of business

Package	One-time (PHP)	Monthly (PHP)	Year 1 total (PHP)	5-year total (PHP)	5-year total (USD)
Essentials	5,800,000.00	970,000.00	17,440,000.00	70,118,348.00	1,117,424
Standard	5,800,000.00	1,226,000.00	20,850,000.00	86,492,348.00	1,378,364
Ownership	32,500,000.00	256,000.00	35,910,000.00	74,191,674.00	1,182,337
Ownership Plus	32,800,000.00	242,000.00	37,524,000.00	81,886,121.00	1,304,958

Ownership: AMC PHP 5,874,000.00 in Year 2. Ownership Plus: AMC PHP 5,874,000.00 in Year 2 and 24x7 Severity 1 support PHP 1,500,000.00 a year.

4.6 Choosing between the models

- Subscription costs less in cash for the first three years. For the reference user counts, its cumulative cost passes the perpetual model in Year 4.
- Perpetual costs less over a horizon of four years or more.
- Hosting is priced separately in every package, so the software price can be compared on its own. The broker may always host the system itself at no hosting fee.

5. What every package includes

5.1 Software

- iNXT BrokerVerse OOTB with all its modules: sales and quotation, lead assignment, distribution channels, dealer programmes, fleets, marine open covers, campaigns, placement, cover notes, policy issuance and servicing, endorsements and cancellations, claims, renewals, billing, official receipts, collections, post-dated cheques, remittance to insurers, direct bill, commission and referrer sharing, overriding commission from insurers, accounts payable, bank payment files, fixed assets, petty cash, journals, general ledger, bank and insurer reconciliation, month-end and year-end close, BIR forms and returns (2307, 0619-E, 1601-EQ, 1604-E, 2551Q, VAT Summary, SAWT, QAP, SLSP, DAT files), EOPT sales invoices, the EIS connector and the CAS books pack, the AML/CFT toolkit, the IC and NPC compliance registers, reinsurance and facultative placements, incentives, My Work, the Report Builder and BI extract, broker branding and e-signatures.
- The integration framework with the delivered connectors (SMS and Viber, CTPL authentication and the LTO feed, insurer API, bank payment files), delivered in test mode.
- The eight delivered roles, maker-checker approvals, the authority matrix, segregation of duties checks, two-step verification, masking of personal identifiers by role and the audit trail.
- No module is priced as an add-on. The set-up of the regulatory modules and the go-live of each connector with its partner are optional services (below).
- Updates of the OOTB version and regulatory form updates released for all customers, while the subscription or the AMC is in force.

5.2 Implementation

- Mobilisation, discovery and fit-gap on the delivered system, environment set-up, configuration, data migration with the standard upload templates, set-up of e-mail, bank statement formats and the delivered payment gateways, system integration test, user acceptance test support, cutover, go-live and hypercare.
- Configuration of the company, branches, users and roles, insurers, commission rates, chart of accounts, account determination, posting rules, document numbering, approvals and the included lines of business.
- Train-the-trainer for key users for the training days included in the size.
- Hypercare until the first month-end close is done.

Size	Users	Lines of business included	Training days included	Duration to hypercare exit
Small	1 to 25	5	4	8 weeks
Medium	26 to 100	8	6	12 weeks
Large	101 to 300	12	10	16 to 20 weeks
Enterprise	Above 300	16	15	20 weeks or more, planned at mobilisation

The implementation size and the plan are confirmed at mobilisation once the data volumes are known.

5.3 Support

- Standard support from 08:00 to 18:00 PHT, Monday to Friday, except Philippine regular holidays, for all severities.
- A service desk (portal or mailbox, and a telephone line for P1), monthly service report and monthly service review.
- Response and restore targets by severity, as in the Annual Maintenance and Support Agreement.

5.4 Hosting (when iorta TechNXT hosts)

- The environment set of the size: Dev, UAT and Production for Small and Medium brokers; Dev, SIT, UAT and Production with high availability for Large and Enterprise brokers.
- A temporary Pre-Prod environment for the go-live rehearsal and for each major release, billed per month of use.
- Daily backups, monitoring, patching of the operating system and database, and TLS certificates.

6. Licence models

6.1 Users and slabs

A user is a named person with an iNXT BrokerVerse sign-in. User prices are graduated: the first 25 users are charged at the Small rate, users 26 to 100 at the Medium rate, users 101 to 300 at the Large rate and the rest at the Enterprise rate. A broker that grows past a boundary never pays less in total than before, and the price per user falls as it grows.

6.2 Perpetual licence with AMC

Users in slab	Licence per user, one-time (PHP)	USD reference
1 to 25	90,000.00	1,434
26 to 100	78,000.00	1,243
101 to 300	66,000.00	1,052
Above 300	54,000.00	861

- The licence fee is one-time for the named users and is payable on go-live.
- A 12-month warranty runs from go-live. AMC is 22% of the licence fee a year, starts in Year 2 and increases 5% at each anniversary.
- AMC covers corrections, updates of the OOTB version, regulatory form updates released for all customers and standard support.

6.3 Subscription

Users in slab	Price per user per month (PHP)	USD reference	Minimum billable users of the size
1 to 25	3,200.00	51	10 (Small)
26 to 100	2,800.00	45	26 (Medium)
101 to 300	2,400.00	38	101 (Large)
Above 300	2,000.00	32	301 (Enterprise)

- Billed monthly in advance from go-live. Prices increase 5% at each contract anniversary.
- The minimum term is 12 months.
- The subscription includes the right to use the OOTB version for the term, updates and standard support. Hosting is not included.
- An onboarding fee equal to the implementation fee applies, because the set-up work is the same in both models.
- Example: a 40-user broker pays 25 users at PHP 3,200.00 and 15 users at PHP 2,800.00, which is PHP 122,000.00 a month.

7. Implementation fee

The implementation fee depends on the size and on the number of lines of business to configure. Each line of business needs products and covers, rating and tax lines, policy and endorsement document templates, insurer commission rates and its own UAT test cases.

Size	Base fee, included lines of business (PHP)	USD reference	Each additional line of business at implementation
Small	1,130,000.00 (5 lines)	18,008	6 man-days at the blended rate
Medium	2,090,000.00 (8 lines)	33,307	6 man-days at the blended rate
Large	3,700,000.00 (12 lines)	58,964	6 man-days at the blended rate
Enterprise	5,800,000.00 (16 lines)	92,430	6 man-days at the blended rate

The fee is the man-days of the size plus 6 man-days for each additional line of business, at the blended rate of PHP 16,100.00 a man-day, rounded to PHP 10,000.00. Example: a Small broker with 6 lines of business has 76 man-days, PHP 1,220,000.00.

8. Hosting

8.1 Environments by broker size

Hosting is optional and is priced per environment set. The set depends on the broker size.

Size	Environments	How a release moves
Small and Medium	Dev, UAT, Production	Integration and system testing in Dev, promoted to UAT for the broker's testing, then to Production
Large and Enterprise	Dev, SIT, UAT, Production with high availability	Dev, then the system integration test in SIT, then UAT, then Production
Every size	Pre-Prod, temporary	Created from a production backup for the go-live rehearsal and for each major release, then removed

A Pre-Prod copy used by people who have no access to Production is masked first.

8.2 Standing environments, per month

Size	Hosted by the broker	AWS, per month (PHP)	Azure, per month (PHP)	Local partner, per month (PHP)
Small	No fee	43,000.00	46,000.00	42,000.00
Medium	No fee	69,000.00	73,000.00	67,000.00
Large	No fee	143,000.00	150,000.00	135,000.00
Enterprise	No fee	256,000.00	269,000.00	242,000.00

The price is the sum of the environments of the set. On AWS:

Size	Dev (PHP)	SIT (PHP)	UAT (PHP)	Production (PHP)
Small	11,000.00	Not used	11,000.00	21,000.00
Medium	11,000.00	Not used	11,000.00	47,000.00
Large	11,000.00	23,000.00	23,000.00	86,000.00
Enterprise	11,000.00	23,000.00	23,000.00	199,000.00

Production of Large and Enterprise brokers runs with a standby database; Enterprise also keeps a cross-region copy of the backups.

8.3 Pre-Prod, per month of use

Size	AWS (PHP)	Azure (PHP)	Local partner (PHP)
Small	21,000.00	22,000.00	20,000.00
Medium	47,000.00	49,000.00	45,000.00
Large	86,000.00	90,000.00	82,000.00
Enterprise	169,000.00	177,000.00	160,000.00

Pre-Prod runs at production size, so the rehearsal measures real timings. It is billed only for the months it exists. For budgeting, plan 1 to 2 months around go-live and 1 month for each major release.

8.4 Hosting per year on AWS, for budgeting

Size	Year 1: standing set and 2 months of Pre-Prod (PHP)	Each later year: standing set and 1 month of Pre-Prod (PHP)
Small	558,000.00	537,000.00

Size	Year 1: standing set and 2 months of Pre-Prod (PHP)	Each later year: standing set and 1 month of Pre-Prod (PHP)
Medium	922,000.00	875,000.00
Large	1,888,000.00	1,802,000.00
Enterprise	3,410,000.00	3,241,000.00

- AWS and Azure are priced on their Singapore regions. Hosting in Singapore is a transfer of personal data outside the Philippines, which the broker documents under the Data Privacy Act.
- The local partner option keeps the data in the Philippines.
- When the broker hosts, it provides the same environment set. iorta TechNXT supplies the deployment guide and charges set-up support at day rates.
- Hosting fees do not increase each year. They change only under the pass-through clause of the Hosting and Infrastructure Services Agreement.
- Cloud prices are confirmed with the provider before the Order Form is signed.

9. Support and maintenance

9.1 Standard support

Standard support is included in the subscription and in the AMC. Service hours are 08:00 to 18:00 PHT, Monday to Friday, except Philippine regular holidays.

Severity	Meaning	First response	Restore service or workaround
P1 Critical	Production down or a core process stopped for all users	30 minutes	4 service hours
P2 High	A core process stopped for one team or branch, no acceptable workaround	2 service hours	2 business days
P3 Medium	A function fails and a workaround exists	1 business day	5 business days
P4 Low	Question, cosmetic issue or request for change	2 business days	Planned with the broker

9.2 24x7 Severity 1 support (optional)

Size	Per year, Year 1 (PHP)	USD reference
Small	240,000.00	3,825
Medium	480,000.00	7,649
Large	900,000.00	14,343
Enterprise	1,500,000.00	23,904

This option adds round-the-clock response to P1 incidents reported by telephone. It increases 5% a year.

10. Optional services

Item	Price (PHP)	USD reference
Additional environment (training or second UAT), set-up	100,000.00 one-time	1,594
Additional environment hosted by iorta TechNXT	11,000.00 a month	175
Training beyond the included days	30,000.00 per trainer day	478
Data migration beyond the standard templates	240,000.00 per legacy source	3,825
Data migration, additional effort	16,100.00 per man-day	257
Additional integration, standard	320,000.00 per integration	5,100
Additional integration, complex	720,000.00 per integration	11,474
Additional line of business after go-live	100,000.00 per line	1,594
New report or document template (typical)	60,000.00 per item	956
On-site consultant day in Metro Manila	20,000.00 per day	319

- A trainer day covers up to 15 participants. The broker provides the room and the devices.
- A standard integration is one documented API or file exchange in one direction, of a kind the delivered connectors do not cover. A complex integration is two-way, has no API, or is a batch with reconciliation.
- Travel, lodging and meals outside Metro Manila are billed at cost. The recurring 24x7 Severity 1 support option increases 5% a year, like the AMC and the subscription. Hosting fees do not increase each year; they change only under the pass-through clause of the Hosting and Infrastructure Services Agreement.

10.1 Optional modules and partner services

Every module is included in the software price and in every package. The services below are optional, add-on items: they cover the set-up of a module with the broker's officers and advisers, the go-live of a delivered connector with its partner, and the validation or certification steps that a regulator or a partner requires before first use. Each is priced at its man-days times the blended day rate of PHP 16,100.00, rounded to PHP 10,000.00. The regulator's or partner's own fees (AMLC, IC, BIR, the CTPL provider, insurers, banks, gateways and list providers) are not included; the broker contracts and pays the partner directly.

Item	Man-days	Price (PHP)	USD reference	Scope
Connector go-live with a partner	5	80,000.00 per connector	1,275	One delivered connector (one SMS gateway, the CTPL provider and LTO feed, one insurer's API mapping, one bank's file layout, or the BIR EIS) taken live: configuration, credential check, live test and support of the partner's acceptance
Activation of the AML/CFT toolkit	8	130,000.00 one-time	2,072	Risk factors and rules workshop with the compliance officer, settings, first list loads, provider set-up and a test AMLC file
Activation of the IC compliance registers	6	100,000.00 one-time	1,594	Licence and fit and proper register load, insurer certificates, complaints and

Item	Man-days	Price (PHP)	USD reference	Scope
				breach settings, mapping of the IC statement to the broker's chart
Activation of the BIR pack	8	130,000.00 one-time	2,072	BIR and EOPT invoice settings with the tax adviser, ATC mapping, DAT file dry run, CAS books pack
Dealer programme set-up	3	50,000.00 per programme	797	Channels, rates, subsidy, bank letter and the first upload of one programme
Client brand pack	2	30,000.00 per pack	478	Theme, sign-in picture, document and e-mail branding, e-signature mapping and the exported pack
AMLC reporting file validation and portal test	3	50,000.00 one-time	797	CTR and STR layout, institution and transaction codes confirmed with the AMLC, test file accepted in the AMLC portal
IC annual statement form alignment	3	50,000.00 one-time	797	The accountant's working paper mapped to the IC form set in force for the year
EOPT invoicing review with the broker's tax adviser	2	30,000.00 one-time	478	Registered invoice documents, supplementary wording, VAT treatment, ATP or CAS
BIR CAS registration support	4	60,000.00 one-time	956	Books, system description and the Permit to Use filing prepared with the broker
BIR EIS enrolment and certification	5	80,000.00 one-time	1,275	EIS enrolment, signing certificate, final field list, production endpoint and certification of the connector
CTPL authentication and LTO interface certification	4	60,000.00 one-time	956	Acceptance of the live requests by the accredited provider, COC series and the LTO interface where the provider does not transmit
Insurer API onboarding	3	50,000.00 per insurer	797	Endpoint, credentials, field mapping and live test with one insurer
Bank payment file certification	2	30,000.00 per bank	478	Layout validated against the bank's specification and a test file accepted by the bank
SMS or Viber gateway activation	1	20,000.00 one-time	319	Sender name or short code, live credentials, templates and consent check tested with the gateway
Screening list provider onboarding	2	30,000.00 one-time	478	Provider contract data, API key, adapter test and first screening run

- The compliance officer, the accountant and the tax adviser confirm the settings and the treatment; every filing, registration and enrolment with a regulator stays with the broker, in its name.
- A client brand pack carries the marks of a client of iorta TechNXT and is applied only in that client's environments, under the client's contract with iorta TechNXT, which covers the use of its marks there.
- These services do not change any package price. They are quoted on the Order Form as separate one-time lines and are invoiced on delivery.

11. Change requests

11.1 Day rates

Role	Day rate (PHP)	USD reference
Business analyst	18,000.00	287
Developer	16,000.00	255
QA engineer	12,000.00	191
Project manager	22,000.00	351
Blended rate	16,100.00	257

A man-day is 8 hours. Day rates are fixed for 12 months from signing.

11.2 How a change is priced

1. The broker raises the change with the business need and examples.
2. iorta TechNXT estimates the developer man-days from the screens, APIs, reports, database changes and jobs affected.
3. Business analysis is 30% of development, testing 40% of development, project management 10% of the subtotal and contingency 10% of the total. Days round up to the half day.
4. The price is the days by role times the role rate. The broker approves the price before work starts.

Band	Total man-days	Example	Price (PHP)
Small	Up to 5	2 developer days, 5 days in total	81,050.00
Medium	5.5 to 20	7 developer days, 16 days in total	250,150.00
Large	20.5 to 60	20 developer days, 42 days in total	665,400.00

Work above 60 man-days is a separate project with its own statement of work.

12. Payment terms

Item	Terms
Implementation or onboarding fee	40% on signing, 40% on UAT sign-off, 20% on go-live
Perpetual licence fee	100% on go-live
AMC	Yearly in advance, from the start of Year 2
Subscription	Monthly in advance, from go-live
Hosting	Monthly in advance, from the date each environment is handed over; Pre-Prod monthly in advance for each month of use
24x7 Severity 1 support	Yearly in advance
Change requests	Small: on delivery. Medium: 50% on approval, 50% on UAT sign-off. Large: 30% on approval, 50% on UAT sign-off, 20% on deployment
Optional services	Monthly in arrears at actual days, or as quoted for fixed-price items

- Invoices are payable within 30 days of the invoice date.
- Subscription and hosting may be suspended after 60 days of non-payment, after written notice.

13. Taxes

- All prices exclude VAT. VAT at 12% is added on each invoice.
- A broker that is a withholding agent deducts creditable withholding tax as its status and the payment type require and issues BIR Form 2307 for each deduction. Withholding does not reduce the invoice price.
- The withholding treatment of the perpetual licence fee is confirmed by both parties' tax advisers before the Order Form is signed.

14. Validity and conditions

- This rate card is valid for 90 days from 04 October 2026. A quotation is valid for 90 days from its date.
- The contract currency is PHP. USD figures are for reference only.
- Prices assume the OOTB version as delivered, the broker's data supplied in the standard templates, a named project manager and key users, and sign-offs on time. Delays on the broker's side may move milestones and the related payments.
- Cloud prices and the local partner price are confirmed with the provider before signing.
- The contract is the iorta TechNXT Master Services Agreement with an Order Form and the schedules for the chosen model.

15. How to proceed

1. Choose a package, or ask for a quotation for your user count, lines of business, hosting and options.
2. Sign the Mutual Non-Disclosure Agreement before a demonstration with your own data.
3. Receive the quotation and the draft Order Form.
4. Sign the Master Services Agreement, the Order Form and the schedules for the chosen model.
5. Pay the first implementation milestone. The mobilisation date is agreed in the Order Form.

Contact: iorta TechNXT Corp., [address], [e-mail], [telephone].

16. Document Sign-Off

Serial Number	Description	Owner	Status
1	No open items at the time of issue	iorta TechNXT	

Sign Off Date	Signature	Approved By	Department & Project Role
