1. Document Control

Date	Version	Author & Business Unit Info	Reviewed By & Business Unit Info	Approved By & Business Unit Info	Change History
04 October 2026	1.0.1	iorta TechNXT Corp.	To be completed	To be completed	Version 1.0.1: optional services confirmed by management on 04 October 2026: the optional modules and partner services (module activation, connector go-live, regulator and partner items) are one-time optional services under the approval matrix; regulator and partner fees are never discounted. Version 1.0: initial issue

2. Acronyms

Acronym / Symbol	Definition / Meaning
AM	Account manager
AMC	Annual Maintenance Contract
CEO	Chief executive officer
CR	Change request
Dev	Development environment
LOB	Line of business
MSA	Master Services Agreement
OOTB	Out of the box
PHP	Philippine peso
Pre-Prod	Pre-production environment
SH	Sales head

SIT	System integration test
SLA	Service level agreement
SOW	Statement of work
UAT	User acceptance test
VAT	Value-added tax

3. Purpose and handling

This playbook tells the iorta TechNXT Corp. sales team how far it may move on the price of iNXT BrokerVerse OOTB, who approves each step, and what to ask for in return. It goes with the price book workbook iNXT_BrokerVerse_Price_Book.xlsx (Negotiation and Pre-set Packages sheets).

INTERNAL. Do not send, forward, print for or show this document to a client or a partner. The client copy of the prices is the Rate Card. The floor prices in this document are confidential information of iorta TechNXT Corp.

All figures are in PHP and exclude 12% VAT. List prices are the recommended price points of the pricing workbook BrokerVerse_Commercials_and_Pricing.xlsx. Discounts are always measured against the list price of each component.

4. Principles

- Start at list price. Show the list price in every presentation and in the first quotation.
- Trade, do not give. Every concession is exchanged for something of value to iorta TechNXT: term, cash timing, a reference, scope or a signing date.
- Move scope before price. A smaller scope at full rate keeps the price list intact; a discount weakens it for every later deal. The optional modules and partner services are the first scope to move: a broker that wants a lower first invoice can defer a module activation or a partner certification to a later Order Form at the same list price.
- Protect the recurring line. Subscription, AMC and hosting fund support for years. One-time fees can move more easily than recurring fees.
- Never go below the floor. The floor is the CEO limit. Nobody can approve a price below it.
- Write it down. Every discount appears as a separate line on the quotation and the Order Form, with the lever named.

5. Approval matrix

5.1 Maximum discount off list by approver

Component	Account manager	Sales head	CEO	Floor (never below)
Perpetual licence fee	5%	10%	15%	85% of list
Subscription per user per month	5%	10%	15%	85% of list
Implementation or onboarding fee	5%	10%	15%	85% of list
One-time optional services and 24x7 support	5%	10%	15%	85% of list
Hosting per month	0%	5%	10%	90% of list
Change requests and day rates	0%	5%	10%	90% of list
AMC rate (22%) and yearly escalation (5%)	Not discounted	Not discounted	Not discounted	22% and 5%

- The approver is set by the highest discount on any component. A deal with 4% on subscription and 7% on implementation needs the sales head.
- The optional modules and partner services of the Rate Card (activation of the AML/CFT toolkit, the IC compliance registers and the BIR pack, connector go-live, dealer programme set-up, client brand packs, and the regulator and partner items: AMLC file validation, IC annual statement form alignment, EOPT invoicing review, BIR CAS registration support, BIR EIS enrolment, CTPL and LTO certification, insurer API onboarding, bank file certification, SMS or Viber gateway activation, screening list provider onboarding) are one-time optional services and follow that row: 5%, 10%, 15%, floor 85% of list. They were confirmed by management on 04 October 2026 as add-on items; they are never folded into a package price, and the regulator's or partner's own fees, which are not in these prices, are never discounted or absorbed.
- Levers that "count toward the limit" (chapter 5) add to the discretionary discount. The total may not pass the CEO limit.
- AMC follows the quoted (net) licence fee. A discount on the licence therefore also lowers the AMC. This is why the licence discount needs care.
- Hosting carries a 20% margin over the estimated cloud cost of each environment. At 10% off, about 8% remains for exchange rate movement and operations. Never discount hosting to win the software deal, and never drop an environment of the set (Dev, UAT, SIT for large brokers) or the Pre-Prod months to lower the price: the environment set by broker size is a product owner decision, not a lever.

5.2 Recording the approval

1. The account manager enters the discounts in the Quick Quote sheet. The sheet shows the approver needed.
2. The account manager sends the approver the Quick Quote, the reason, the levers offered and what the client gives in return.
3. The approver replies in writing (e-mail is enough). The approval is filed in the deal file before the quotation leaves iorta TechNXT.

4. A CEO approval also records the expected 5-year contract value at list and at the quoted price.

6. Floor prices

6.1 Rates at the floor

Size	Perpetual licence per user, slab rate (list / floor)	Subscription per user per month, slab rate (list / floor)	Implementation, reference scope (list / floor)	AWS hosting per month (list / floor)
Small	90,000 / 76,500	3,200 / 2,720	1,130,000 / 960,500	43,000 / 38,700
Medium	78,000 / 66,300	2,800 / 2,380	2,090,000 / 1,776,500	69,000 / 62,100
Large	66,000 / 56,100	2,400 / 2,040	3,700,000 / 3,145,000	143,000 / 128,700
Enterprise	54,000 / 45,900	2,000 / 1,700	5,800,000 / 4,930,000	256,000 / 230,400

The graduated slabs still apply at the floor: each slab rate is reduced by the floor discount. AWS hosting is the standing environment set of the size: Dev, UAT and Production for Small and Medium; Dev, SIT, UAT and Production with high availability for Large and Enterprise. The temporary Pre-Prod (AWS list PHP 21,000, 47,000, 86,000 and 169,000 per month of use by size) follows the same hosting floor.

6.2 Pre-set packages at list and at the floor

Year 1 and 5-year totals, reference users and lines of business, all components at the floor. Hosted packages include 2 months of Pre-Prod in Year 1 and 1 month a year after.

Size and package	Year 1, list	Year 1, floor	5-year, list	5-year, floor
Small: Essentials	1,706,000	1,450,100	4,312,764	3,665,849
Small: Standard	2,264,000	1,952,300	7,018,764	6,101,249
Small: Ownership	3,038,000	2,610,200	6,466,107	5,631,491
Small: Ownership Plus	3,564,000	3,056,600	8,026,259	6,954,320
Medium: Essentials	4,226,000	3,592,100	13,892,748	11,808,836
Medium: Standard	5,148,000	4,421,900	18,314,748	15,788,636
Medium: Ownership	7,992,000	6,839,300	16,214,173	14,003,147
Medium: Ownership Plus	8,744,000	7,477,100	19,034,476	16,393,805
Large: Essentials	9,484,000	8,061,400	35,660,251	30,311,213
Large: Standard	11,372,000	9,760,600	44,756,251	38,497,613
Large: Ownership	18,968,000	16,217,200	38,863,284	33,488,591
Large: Ownership Plus	20,064,000	17,143,600	43,632,352	37,517,099
Enterprise: Essentials	17,440,000	14,824,000	70,118,348	59,600,596
Enterprise: Standard	20,850,000	17,893,000	86,492,348	74,337,196
Enterprise: Ownership	35,910,000	30,694,000	74,191,674	63,881,623
Enterprise: Ownership Plus	37,524,000	32,056,600	81,886,121	70,377,203

In the floor figures, the one-time services and the 24x7 Severity 1 support of Ownership Plus are also at 85% of list, and hosting at 90% of list.

7. Give and get levers

Lever	What iorta TechNXT gets	Allowed price effect	Approver	Counts toward the limit
Longer term	3-year or 5-year committed term, no termination for convenience	3 years: up to 3% off subscription; 5 years: up to 5%	AM (3%), SH (5%)	Yes
Upfront payment	Subscription paid yearly in advance, or implementation 100% on signing	Subscription yearly in advance: up to 4% off the prepaid amount; implementation 100% on signing: up to 3%	AM	Yes
Reference customer	Named as a client, logo use, two reference calls a year	Up to 2% off licence or subscription	AM	Yes
Case study	Joint published case study within 6 months of go-live	Up to 2%, or a PHP 100,000.00 credit against change requests	SH	Yes
Multi-year AMC prepayment	AMC for 3 years paid at the start of the AMC term	AMC for the prepaid years held at the first AMC year rate (about 5% of the prepaid AMC)	CEO	No (AMC lever)
Reduced scope	Fewer lines of business at go-live, broker loads its own data, remote training only	Implementation falls by the man-days removed at the blended rate (6 man-days per line of business)	AM	No (not a discount)
Phased users	Contract for the full user count, delivered in tranches	Billing per tranche; slab prices locked for 24 months	SH	No
Signing date	Order Form signed by a stated date	Up to 2% off licence or subscription	SH	Yes
Onboarding reduction	5-year subscription term	Onboarding fee at 90% of the implementation fee	SH	Yes

7.1 How to use the levers

- Offer one lever at a time and ask for the get first: "If you can sign a 3-year term, I can take 3% off the subscription."
- Do not stack more than three levers on one deal without the sales head.
- A lever lapses if the get is not delivered: a missed prepayment, a withdrawn reference or a late signature returns the price to the level before the lever. Write this into the Order Form.
- Reduced scope must be real. Removed lines of business are added later at PHP 100,000.00 per line; removed data migration is added later at PHP 240,000.00 per legacy source.
- Phasing keeps the minimum billable users of the size for subscription.

8. Typical client positions and answers

Client position	Answer
"The subscription is too high."	Show the per-user price against the market (USD 32 to 51 per user per month against USD 125 to 300 for global broker systems), then offer the 3-year term lever.
"We cannot pay the implementation up front."	The schedule is already 40/40/20 by milestone. Offer phased users or reduced scope at go-live rather than a discount.
"Our IT will host it."	Accept: the Essentials package. Hosting is never bundled into the software price. Offer set-up support at day rates.
"Waive the AMC."	AMC is not discounted. Offer the 12-month warranty already included, or the multi-year AMC prepayment lever.
"Remove the yearly 5% increase."	The escalation stays. The multi-year AMC prepayment lever holds it for the prepaid years only.
"Another vendor is cheaper."	Ask for the scope compared: Philippine taxes, BIR working papers, remittance and reconciliation are included here. Do not match a price without a like-for-like scope.
"Add a few customisations for free."	Customisation is a change request at day rates. A free item counts as a 100% discount on that item and needs approval within the limits.
"Data must stay in the Philippines."	Offer the local partner hosting option. It costs less than AWS or Azure in the price list.

9. Contract positions

The price is only part of the deal. The following positions protect the value of the contract. Changes to them need the approval shown.

Position	Standard	Who may change it
Limitation of liability	Fees paid and payable in the 12 months before the event giving rise to the claim (as in the MSA); no indirect or consequential loss	CEO with legal counsel
Platform IP	iorta TechNXT retains all rights in the platform; the client owns its data	Not negotiable
Payment term	30 days from invoice	SH up to 45 days
Suspension	Subscription and hosting after 60 days of non-payment, with notice	CEO
Subscription minimum term	12 months	Not negotiable
Auto-renewal	Yearly after the initial term, 90 days' notice to stop	SH
Source code escrow	Optional, at the client's cost, perpetual licence only	SH
Service credits	Capped at 10% of the monthly fee of the affected service	CEO with legal counsel
Governing law and venue	Philippine law; dispute steps of the MSA	Legal counsel

10. Process and documents

1. Present with the Quick Quote at list price and the Rate Card.
2. Send the quotation (Quick Quote print area) with the Validity and Terms sheet within 2 business days of the meeting.
3. Negotiate with levers. Record approvals.
4. Issue the Order Form with the agreed prices, discounts as separate lines, and the levers' conditions.
5. Contract set: Master Services Agreement, Order Form, the licence or subscription agreement, the Implementation SOW, the Annual Maintenance and Support Agreement (perpetual) or the SLA schedule (subscription), the Hosting Services Agreement if iorta TechNXT hosts, and the Data Processing Agreement.
6. Hand the signed deal file to delivery and finance.

11. Owner decisions open

- Confirm the approval limits and the floor (this playbook uses the limits set by the business owner: 5%, 10% and 15%).
- Confirm that AMC is computed on the quoted (net) licence fee rather than on the list licence fee.
- Confirm the early termination fee for committed terms (all remaining fees, or 50% of them).
- Confirm the lever values (term, upfront payment, reference, case study, signing date).

12. Document Sign-Off

Serial Number	Description	Owner	Status
1	No open items at the time of issue	iorta TechNXT
