1. Document Control

Date	Version	Author & Business Unit Info	Reviewed By & Business Unit Info	Approved By & Business Unit Info	Change History
04 October 2026	1.2	iorta TechNXT			Index by department (users, developers, business analysts, QA, delivery and PM, sales, support, management) with what each document is for; BRD, process flows, test strategy and plan, traceability matrix and dependency map added; brand packs and the guides kept with the code listed

2. Acronyms

Acronym / Symbol	Definition / Meaning
OOTB	Out of the box
BRD	Business requirements document
PFD	Process flow document
PM	Project manager
QA	Quality assurance
DPO	Data protection officer
NDA	Non-disclosure agreement
PIA	Privacy impact assessment
RAID	Risks, assumptions, issues and dependencies
RACI	Responsible, Accountable, Consulted, Informed
ROI	Return on investment

SLA	Service level agreement
SOW	Statement of work
UAT	User acceptance test
DR	Disaster recovery
SaaS	Software as a service
AMLA	Anti-Money Laundering Act
CTPL	Compulsory third party liability
DPA	Data Privacy Act

3. How to use this index

The BrokerVerse OOTB documentation pack holds every document iorta TechNXT uses to sell, contract, implement, run and support iNXT BrokerVerse OOTB for a Philippine non-life broker. This index lists each document for each department that uses it, with what it is for, then each file by folder and by stage of the customer lifecycle.

- **Client-facing** files may be given to the broker, normally from the stage shown.
- **INTERNAL** files are for iorta TechNXT staff only. They hold pricing logic, discount limits, competitor positioning, internal strategy or a third party's marks and are never sent to a broker or attached to a proposal. Their file names end in _INTERNAL where the document is a sales tool.
- Departments: Users (the broker's users and key users, and the System Administrator, using the application day to day); Developers (product engineering and the developers who review, extend or deploy the code); Business analysts (business analysts and solution consultants who run discovery, fit-gap and configuration); QA (quality analysts and test leads who plan, run and report the tests); Delivery and PM (the delivery head, project managers and implementation consultants); Sales (account managers and

presales); Support (I2 application support, L3 engineering on call and DevOps); Management (iorta TechNXT management, and the broker's management for client-facing files).

- Lifecycle stages: Pre-sales, Contracting, Implementation, Go-live, Support.

The files are kept in docs/package, one folder per purpose in the order of the customer lifecycle, and each file is kept once, in its latest version: a superseded document is removed with its source. source/ holds the text sources and tools/ the builders.

Folder	What it holds	Count
01_Sales/	Material for prospects and the sales team: brochures, presentation, functionality, demo, FAQ, e-mails, ROI calculator and the competitive battlecard.	10
02_Commercials/	Prices and the commercial proposal: the rate card given to the broker, and the internal pricing model, price book, proposal note and negotiation playbook.	5
03_Contracts/	The contract pack, from the NDA to the hypercare exit certificate, including the SOW and the UAT and go-live acceptance certificates.	18
04_Onboarding_and_Go_Live/	What the broker completes or reviews to onboard and go live: security due diligence, discovery and configuration, privacy impact assessment, data migration and cutover, environments and rollout. Brand packs are kept in the sub-folder Brand_Packs/.	6
05_Delivery/	The implementation project: BRD, process flows, approach and plan, dependency map, project control templates, training, user manual, reports, communications, schedules, test strategy, plan, cases, traceability and results, and the regulatory compliance matrix. The standard upload templates are kept in the sub-folder Upload_Templates/.	21
06_Support/	Production support and its operational procedures, business continuity and disaster recovery, and releases.	4
07_Technical/	Architecture, infrastructure, security and privacy, technical reference, API catalogue and data dictionary.	4
08_Management/	Release recommendation and management register, OOTB strategy, Philippine fit and ASEAN rollout assessment, and this index.	4

4. Index by department

Each department starts with the documents below. A document used by several departments is listed under each of them. The guides kept with the code are listed where a department uses them.

4.1 Users

The broker's users and key users, and the System Administrator, using the application day to day.

Document	Folder	What it is for
Process Flow Document	05_Delivery	End-to-end process flows of the broker with the screens, roles and postings of each step (PFD)
Training Plan	05_Delivery	Training and change management by role
User Manual	05_Delivery	User manual by role, also opened per screen from the Help panel (F1)
Reports Book	05_Delivery	Every report, dashboard and export with its columns and rules
Communication Templates and Touchpoints	05_Delivery	Every e-mail, SMS, notification and printed document the system sends
Schedules and Batch Jobs	05_Delivery	Every scheduled job and batch process, the operational run book and the support runbook per job
OOTB Documentation Pack Index	08_Management	This index
Upload Templates	05_Delivery	Standard upload templates for the go-live data, one per master or opening balance, and the go-live configuration and migration workbooks
docs/onboarding/GETTING_STARTED.md	Code repository	First sign-in, menus per role, My Work, the Help panel
docs/onboarding/SUPPORT_AND_ESCALATION.md	Code repository	How to report an issue, severities, support procedures by area
docs/onboarding/UAT_SCRIPTS.md	Code repository	UAT scenarios per role for the first week
docs/onboarding/GO_LIVE_DATA_SETUP.md	Code repository	Order of set-up from company to opening balances
docs/onboarding/BRANDING_AND_SIGNATURES.md	Code repository	Theme, brand packs, e-signatures and their support procedures

4.2 Developers

Product engineering and the developers who review, extend or deploy the code.

Document	Folder	What it is for
Environment Strategy and Production Rollout	04_Onboarding_and_Go_Live	Environments, promotion of code, scripts and configuration, release pipeline, cutover runbook and RACI
Business Requirements Document	05_Delivery	Business requirements of the OOTB product by module, with business rules and regulatory references (BRD)
Test Strategy	05_Delivery	How the product and each implementation are tested: levels, types, environments, test data and masking, entry and exit criteria, defects, CI gates
Test Cases	05_Delivery	Release test cases with regulatory

Document	Folder	What it is for
		references, the requirements traceability matrix (sheet Requirements Traceability: the 150 processes to test cases and automated tests), defects
Test Summary Report	05_Delivery	Results of the release test
Release Notes Template	06_Support	Release notes for each patch, minor or major release, with jobs, connectors and keys
Architecture Infrastructure Security and Privacy	07_Technical	Architecture, hosting options, security controls and data privacy
Technical Reference	07_Technical	Code base, modules, security implementation and how to extend
API and Dependency Catalogue	07_Technical	Every API route with its permission and the screens that call it
Data Dictionary	07_Technical	Tables, columns, relationships, personal data and retention
Go No Go and Management Register (INTERNAL)	08_Management	Release recommendation, go-live conditions, risks, plans and decisions needed
OOTB Strategy and Playbook INTERNAL (INTERNAL)	08_Management	How iorta TechNXT sells, delivers, supports and evolves the OOTB product
PH Fit and ASEAN Rollout Assessment (INTERNAL)	08_Management	Philippine process fit by area with evidence, gaps ranked, and the change needed for each ASEAN country
OOTB Documentation Pack Index	08_Management	This index
docs/developer-guide/README.md	Code repository	Developer and production support guide: back end, front end, tracing a defect
deploy/README.md, deploy/REFERENCE.md	Code repository	Installation, environment variables and keys, release pipeline, rollback
backend/docs/api	Code repository	OpenAPI file, Postman collection and API touchpoint workbook

4.3 Business analysts

Business analysts and solution consultants who run discovery, fit-gap and configuration.

Document	Folder	What it is for
Product Functionality	01_Sales	What the product does, module by module, with the vendor comparison checklist
Implementation Statement of Work	03_Contracts	Implementation scope, milestones, acceptance and governance (SOW)
Change Request Procedure and Form	03_Contracts	Change request procedure and form
Discovery Workbook Guide	04_Onboarding_and_Go_Live	How to run the discovery and configuration workshops
Discovery and Configuration Workbook	04_Onboarding_and_Go_Live	Configuration decisions captured in discovery
Data Migration and Cutover Plan	04_Onboarding_and_Go_Live	Go-live data, workbench, mock loads, reconciliation and cutover
Privacy Impact Assessment and Records of Processing Templates	04_Onboarding_and_Go_Live	PIA and records of processing pre-filled for the broker DPO
Business Requirements Document	05_Delivery	Business requirements of the OOTB product by module, with business rules and regulatory references

Document	Folder	What it is for
		(BRD)
Process Flow Document	05_Delivery	End-to-end process flows of the broker with the screens, roles and postings of each step (PFD)
Fit Gap Register	05_Delivery	Register of requirements classed Fit, Configure, Procedure or Gap, with the product gaps closed in this release
User Manual	05_Delivery	User manual by role, also opened per screen from the Help panel (F1)
Reports Book	05_Delivery	Every report, dashboard and export with its columns and rules
Communication Templates and Touchpoints	05_Delivery	Every e-mail, SMS, notification and printed document the system sends
Communication Touchpoints	05_Delivery	Companion workbook of the communication templates
Philippine Regulatory Compliance Matrix	05_Delivery	How the product supports IC, BIR, premium tax, CTPL, DPA and AMLA obligations
Data Dictionary	07_Technical	Tables, columns, relationships, personal data and retention
OOTB Documentation Pack Index	08_Management	This index
Upload Templates	05_Delivery	Standard upload templates for the go-live data, one per master or opening balance, and the go-live configuration and migration workbooks
docs/onboarding/ GO_LIVE_DATA_SETUP.md	Code repository	Order of set-up from company to opening balances
docs/onboarding/ GO_LIVE_DATA_WORKBENCH.md	Code repository	Configuration and migration workbooks, validation, load, reconciliation, environment comparison

4.4 QA

Quality analysts and test leads who plan, run and report the tests.

Document	Folder	What it is for
UAT and Go Live Acceptance Certificates	03_Contracts	UAT and go-live acceptance certificates
Data Migration and Cutover Plan	04_Onboarding_and_Go_Live	Go-live data, workbench, mock loads, reconciliation and cutover
Business Requirements Document	05_Delivery	Business requirements of the OOTB product by module, with business rules and regulatory references (BRD)
Process Flow Document	05_Delivery	End-to-end process flows of the broker with the screens, roles and postings of each step (PFD)
User Manual	05_Delivery	User manual by role, also opened per screen from the Help panel (F1)
Test Strategy	05_Delivery	How the product and each implementation are tested: levels, types, environments, test data and masking, entry and exit criteria, defects, CI gates
Test Plan	05_Delivery	Test plan of a broker implementation: scope per module, schedule by size, cycles from SIT to hypercare, resourcing, sign-off

Document	Folder	What it is for
Test Cases	05_Delivery	Release test cases with regulatory references, the requirements traceability matrix (sheet Requirements Traceability: the 150 processes to test cases and automated tests), defects
Test Summary Report	05_Delivery	Results of the release test
Philippine Regulatory Compliance Matrix	05_Delivery	How the product supports IC, BIR, premium tax, CTPL, DPA and AMLA obligations
API and Dependency Catalogue	07_Technical	Every API route with its permission and the screens that call it
OOTB Documentation Pack Index	08_Management	This index
docs/onboarding/UAT_SCRIPTS.md	Code repository	UAT scenarios per role for the first week
docs/onboarding/SMOKE_TEST_AND_RESET.md	Code repository	Smoke test, transaction reset and the go-live lock
docs/onboarding/DATA_MASKING.md	Code repository	Masking of production copies for test and training
backend/docs/api	Code repository	OpenAPI file, Postman collection and API touchpoint workbook

4.5 Delivery and PM

The delivery head, project managers and implementation consultants.

Document	Folder	What it is for
Implementation Statement of Work	03_Contracts	Implementation scope, milestones, acceptance and governance (SOW)
Customer Responsibilities and RACI Annex	03_Contracts	What the broker provides and who does what
Change Request Procedure and Form	03_Contracts	Change request procedure and form
UAT and Go Live Acceptance Certificates	03_Contracts	UAT and go-live acceptance certificates
Hypercare Exit and Handover Certificate	03_Contracts	Hypercare exit and handover to support
Security Due Diligence Questionnaire	04_Onboarding_and_Go_Live	Pre-answered security and outsourcing due diligence questionnaire
Discovery Workbook Guide	04_Onboarding_and_Go_Live	How to run the discovery and configuration workshops
Discovery and Configuration Workbook	04_Onboarding_and_Go_Live	Configuration decisions captured in discovery
Data Migration and Cutover Plan	04_Onboarding_and_Go_Live	Go-live data, workbench, mock loads, reconciliation and cutover
Environment Strategy and Production Rollout	04_Onboarding_and_Go_Live	Environments, promotion of code, scripts and configuration, release pipeline, cutover runbook and RACI
Privacy Impact Assessment and Records of Processing Templates	04_Onboarding_and_Go_Live	PIA and records of processing pre-filled for the broker DPO
Business Requirements Document	05_Delivery	Business requirements of the OOTB product by module, with business rules and regulatory references (BRD)
Process Flow Document	05_Delivery	End-to-end process flows of the broker with the screens, roles and postings of each step (PFD)
Implementation Approach and Plan	05_Delivery	Method, phases, plans by size,

Document	Folder	What it is for
		roles, governance and risks
Implementation Plan	05_Delivery	Task-level plans for the four sizes with owners, predecessors, float and critical path; milestones; RACI
Dependency Map and Critical Path	05_Delivery	Dependencies between work streams, partners and decisions, and the critical path to go-live
Fit Gap Register	05_Delivery	Register of requirements classed Fit, Configure, Procedure or Gap, with the product gaps closed in this release
RAID Log Template	05_Delivery	Risks, assumptions, issues and dependencies, pre-filled for an implementation, with scoring and summary
Project Status Report Template	05_Delivery	Weekly or fortnightly status and steering committee report
Training Plan	05_Delivery	Training and change management by role
Schedules and Batch Jobs	05_Delivery	Every scheduled job and batch process, the operational run book and the support runbook per job
Test Strategy	05_Delivery	How the product and each implementation are tested: levels, types, environments, test data and masking, entry and exit criteria, defects, CI gates
Test Plan	05_Delivery	Test plan of a broker implementation: scope per module, schedule by size, cycles from SIT to hypercare, resourcing, sign-off
Test Summary Report	05_Delivery	Results of the release test
Business Requirements Document	05_Delivery	Business requirements by process area with acceptance criteria and the screen that meets each, non-functional requirements and the functional specification by module
Process Flow Document	05_Delivery	End-to-end process flows with swimlane diagrams, numbered steps, postings, documents and controls
Release Notes and Roadmap	06_Support	What the release delivers, known limitations, versioning policy and indicative roadmap
Architecture Infrastructure Security and Privacy	07_Technical	Architecture, hosting options, security controls and data privacy
Go No Go and Management Register (INTERNAL)	08_Management	Release recommendation, go-live conditions, risks, plans and decisions needed
OOTB Strategy and Playbook INTERNAL (INTERNAL)	08_Management	How iorta TechNXT sells, delivers, supports and evolves the OOTB product
OOTB Documentation Pack Index	08_Management	This index
Brand Packs (INTERNAL)	04_Onboarding_and_Go_Live	Brand packs to import in Theme and Branding; a client pack carries the marks of a client of iorta TechNXT and is applied only in that client's environments, under the client's contract with iorta TechNXT
Upload Templates	05_Delivery	Standard upload templates for the go-live data, one per master or opening balance, and the go-live

Document	Folder	What it is for
		configuration and migration workbooks
docs/onboarding/ GO_LIVE_DATA_SETUP.md	Code repository	Order of set-up from company to opening balances
docs/onboarding/ GO_LIVE_DATA_WORKBENCH.md	Code repository	Configuration and migration workbooks, validation, load, reconciliation, environment comparison
docs/onboarding/ SMOKE_TEST_AND_RESET.md	Code repository	Smoke test, transaction reset and the go-live lock

4.6 Sales

Account managers and presales.

Document	Folder	What it is for
Brochure	01_Sales	Product brochure (8 pages): platform, compliance, connections, roles, deployment, delivery and support
One Page Brochure	01_Sales	One-page summary for a first e-mail, a trade event or a social post
Client Presentation	01_Sales	Client presentation deck for the first meeting, with speaker notes
Product Functionality	01_Sales	What the product does, module by module, with the vendor comparison checklist
Demo Script	01_Sales	Scripted 60 and 30-minute demonstrations with optional segments (AML/CFT, IC registers, BIR and EOPT, integrations, dealer programmes, branding, My Work, Report Builder)
FAQ and Objection Handling	01_Sales	Answers to common questions and objections; known limits to disclose
Prospect Email Templates	01_Sales	E-mails from first contact to the welcome after signing, including the compliance-led introduction
Prospect Email Templates	01_Sales	Plain-text copy of the prospect e-mails for pasting into a mail client (generated from the same source)
ROI Calculator	01_Sales	Return on investment calculator filled in with the broker
Competitive Battlecard INTERNAL (INTERNAL)	01_Sales	Competitor positioning, proof points and limits to disclose
Commercial Proposal Rate Card	02_Commercials	Rate card and commercial proposal given to the broker
Commercials and Pricing (INTERNAL)	02_Commercials	Formula-driven pricing model behind the rate card
Price Book (INTERNAL)	02_Commercials	Price book with quick quote, packages and negotiation limits
Commercial Proposal Note (INTERNAL)	02_Commercials	Pricing rationale, market positioning, review of the new modules against the price list
Negotiation Playbook INTERNAL (INTERNAL)	02_Commercials	Discount limits, trade-offs and approval rules in negotiation
Contract Pack Index and Cover Letter	03_Contracts	Index of the contract pack and cover letter to the broker
Mutual Non Disclosure Agreement	03_Contracts	Mutual NDA before detailed discussions

Document	Folder	What it is for
Letter of Award and Proposal Acceptance	03_Contracts	Broker letter of award and acceptance of the proposal
Order Form	03_Contracts	Order Form: size, model, prices, hosting and dates
Service Catalogue and Rate Annex	03_Contracts	Optional services and day rates
Security Due Diligence Questionnaire	04_Onboarding_and_Go_Live	Pre-answered security and outsourcing due diligence questionnaire
Philippine Regulatory Compliance Matrix	05_Delivery	How the product supports IC, BIR, premium tax, CTPL, DPA and AMLA obligations
Business Requirements Document	05_Delivery	Business requirements by process area with acceptance criteria and the screen that meets each, non-functional requirements and the functional specification by module
Release Notes and Roadmap	06_Support	What the release delivers, known limitations, versioning policy and indicative roadmap
Go No Go and Management Register (INTERNAL)	08_Management	Release recommendation, go-live conditions, risks, plans and decisions needed
OOTB Strategy and Playbook INTERNAL (INTERNAL)	08_Management	How iorta TechNXT sells, delivers, supports and evolves the OOTB product
PH Fit and ASEAN Rollout Assessment (INTERNAL)	08_Management	Philippine process fit by area with evidence, gaps ranked, and the change needed for each ASEAN country
OOTB Documentation Pack Index	08_Management	This index

4.7 Support

L2 application support, L3 engineering on call and DevOps.

Document	Folder	What it is for
Annual Maintenance Support and SLA	03_Contracts	Annual maintenance, support and service levels
Hosting and Infrastructure Services Agreement	03_Contracts	Hosting services, data location, backups and recovery objectives
Data Processing Agreement	03_Contracts	Data processing agreement under the Data Privacy Act
Exit and Transition Plan	03_Contracts	Data return and transition at the end of the contract
Hypercare Exit and Handover Certificate	03_Contracts	Hypercare exit and handover to support
Environment Strategy and Production Rollout	04_Onboarding_and_Go_Live	Environments, promotion of code, scripts and configuration, release pipeline, cutover runbook and RACI
User Manual	05_Delivery	User manual by role, also opened per screen from the Help panel (F1)
Reports Book	05_Delivery	Every report, dashboard and export with its columns and rules
Communication Templates and Touchpoints	05_Delivery	Every e-mail, SMS, notification and printed document the system sends
Communication Touchpoints	05_Delivery	Companion workbook of the communication templates
Schedules and Batch Jobs	05_Delivery	Every scheduled job and batch process, the operational run book and the support runbook per job

Document	Folder	What it is for
Process Flow Document	05_Delivery	End-to-end process flows with swimlane diagrams, numbered steps, postings, documents and controls
Production Support Approach and Standards	06_Support	Support model, severities, change and release management, monitoring, and the procedures for integrations, compliance deadlines, keys, brand packs and e-signatures
Business Continuity and Disaster Recovery Plan	06_Support	Backups, keys, recovery objectives, scenarios, partner outages and DR tests
Release Notes and Roadmap	06_Support	What the release delivers, known limitations, versioning policy and indicative roadmap
Release Notes Template	06_Support	Release notes for each patch, minor or major release, with jobs, connectors and keys
Architecture Infrastructure Security and Privacy	07_Technical	Architecture, hosting options, security controls and data privacy
Technical Reference	07_Technical	Code base, modules, security implementation and how to extend
API and Dependency Catalogue	07_Technical	Every API route with its permission and the screens that call it
Data Dictionary	07_Technical	Tables, columns, relationships, personal data and retention
Go No Go and Management Register (INTERNAL)	08_Management	Release recommendation, go-live conditions, risks, plans and decisions needed
OOTB Strategy and Playbook INTERNAL (INTERNAL)	08_Management	How iorta TechNXT sells, delivers, supports and evolves the OOTB product
OOTB Documentation Pack Index	08_Management	This index
Brand Packs (INTERNAL)	04_Onboarding_and_Go_Live	Brand packs to import in Theme and Branding; a client pack carries the marks of a client of iorta TechNXT and is applied only in that client's environments, under the client's contract with iorta TechNXT
docs/onboarding/SUPPORT_AND_ESCALATION.md	Code repository	How to report an issue, severities, support procedures by area
docs/onboarding/GO_LIVE_DATA_WORKBENCH.md	Code repository	Configuration and migration workbooks, validation, load, reconciliation, environment comparison
docs/onboarding/BRANDING_AND_SIGNATURES.md	Code repository	Theme, brand packs, e-signatures and their support procedures
docs/onboarding/SMOKE_TEST_AND_RESET.md	Code repository	Smoke test, transaction reset and the go-live lock
docs/onboarding/DATA_MASKING.md	Code repository	Masking of production copies for test and training
docs/developer-guide/README.md	Code repository	Developer and production support guide: back end, front end, tracing a defect
deploy/README.md, deploy/REFERENCE.md	Code repository	Installation, environment variables and keys, release pipeline, rollback

4.8 Management

iorta TechNXT management, and the broker's management for client-facing files.

Document	Folder	What it is for
Product Functionality	01_Sales	What the product does, module by module, with the vendor comparison checklist
Commercial Proposal Rate Card	02_Commercials	Rate card and commercial proposal given to the broker
Commercials and Pricing (INTERNAL)	02_Commercials	Formula-driven pricing model behind the rate card
Price Book (INTERNAL)	02_Commercials	Price book with quick quote, packages and negotiation limits
Commercial Proposal Note (INTERNAL)	02_Commercials	Pricing rationale, market positioning, review of the new modules against the price list
Negotiation Playbook INTERNAL (INTERNAL)	02_Commercials	Discount limits, trade-offs and approval rules in negotiation
Contract Pack Index and Cover Letter	03_Contracts	Index of the contract pack and cover letter to the broker
Mutual Non Disclosure Agreement	03_Contracts	Mutual NDA before detailed discussions
Letter of Award and Proposal Acceptance	03_Contracts	Broker letter of award and acceptance of the proposal
Master Services Agreement	03_Contracts	Master Services Agreement
Order Form	03_Contracts	Order Form: size, model, prices, hosting and dates
Perpetual Software Licence Agreement	03_Contracts	Licence schedule for the perpetual model
Software Subscription Agreement	03_Contracts	Subscription schedule for the SaaS model
Implementation Statement of Work	03_Contracts	Implementation scope, milestones, acceptance and governance (SOW)
Annual Maintenance Support and SLA	03_Contracts	Annual maintenance, support and service levels
Hosting and Infrastructure Services Agreement	03_Contracts	Hosting services, data location, backups and recovery objectives
Data Processing Agreement	03_Contracts	Data processing agreement under the Data Privacy Act
Service Catalogue and Rate Annex	03_Contracts	Optional services and day rates
Customer Responsibilities and RACI Annex	03_Contracts	What the broker provides and who does what
Change Request Procedure and Form	03_Contracts	Change request procedure and form
Source Code Escrow Agreement	03_Contracts	Optional source code escrow with the perpetual licence
Exit and Transition Plan	03_Contracts	Data return and transition at the end of the contract
UAT and Go Live Acceptance Certificates	03_Contracts	UAT and go-live acceptance certificates
Hypercare Exit and Handover Certificate	03_Contracts	Hypercare exit and handover to support
Security Due Diligence Questionnaire	04_Onboarding_and_Go_Live	Pre-answered security and outsourcing due diligence questionnaire
Environment Strategy and Production Rollout	04_Onboarding_and_Go_Live	Environments, promotion of code, scripts and configuration, release pipeline, cutover runbook and RACI
Privacy Impact Assessment and Records of Processing Templates	04_Onboarding_and_Go_Live	PIA and records of processing pre-filled for the broker DPO
Implementation Approach and Plan	05_Delivery	Method, phases, plans by size, roles, governance and risks
Dependency Map and Critical Path	05_Delivery	Dependencies between work streams, partners and decisions, and the critical path to go-live

Document	Folder	What it is for
Fit Gap Register	05_Delivery	Register of requirements classed Fit, Configure, Procedure or Gap, with the product gaps closed in this release
RAID Log Template	05_Delivery	Risks, assumptions, issues and dependencies, pre-filled for an implementation, with scoring and summary
Project Status Report Template	05_Delivery	Weekly or fortnightly status and steering committee report
Test Strategy	05_Delivery	How the product and each implementation are tested: levels, types, environments, test data and masking, entry and exit criteria, defects, CI gates
Test Plan	05_Delivery	Test plan of a broker implementation: scope per module, schedule by size, cycles from SIT to hypercare, resourcing, sign-off
Test Summary Report	05_Delivery	Results of the release test
Philippine Regulatory Compliance Matrix	05_Delivery	How the product supports IC, BIR, premium tax, CTPL, DPA and AMLA obligations
Business Requirements Document	05_Delivery	Business requirements by process area with acceptance criteria and the screen that meets each, non-functional requirements and the functional specification by module
Production Support Approach and Standards	06_Support	Support model, severities, change and release management, monitoring, and the procedures for integrations, compliance deadlines, keys, brand packs and e-signatures
Business Continuity and Disaster Recovery Plan	06_Support	Backups, keys, recovery objectives, scenarios, partner outages and DR tests
Release Notes and Roadmap	06_Support	What the release delivers, known limitations, versioning policy and indicative roadmap
Architecture Infrastructure Security and Privacy	07_Technical	Architecture, hosting options, security controls and data privacy
Go No Go and Management Register (INTERNAL)	08_Management	Release recommendation, go-live conditions, risks, plans and decisions needed
OOTB Strategy and Playbook INTERNAL (INTERNAL)	08_Management	How iorta TechNXT sells, delivers, supports and evolves the OOTB product
PH Fit and ASEAN Rollout Assessment (INTERNAL)	08_Management	Philippine process fit by area with evidence, gaps ranked, and the change needed for each ASEAN country
OOTB Documentation Pack Index	08_Management	This index

5. Index by lifecycle stage

Stage	Documents used
Pre-sales	Brochure; One Page Brochure; Client Presentation; Product Functionality; Demo Script; FAQ and Objection Handling; Prospect Email Templates; Prospect Email Templates; ROI Calculator; Competitive Battlecard INTERNAL (INTERNAL); Commercial Proposal Rate Card; Commercial and Pricing (INTERNAL); Price Book (INTERNAL); Commercial Proposal Note (INTERNAL); Mutual Non Disclosure Agreement; Security Due Diligence Questionnaire; Business Requirements Document; Implementation Approach and Plan; Test Summary Report; Philippine Regulatory Compliance Matrix; Business Requirements Document; Release Notes and Roadmap; Architecture Infrastructure Security and Privacy; OOTB Strategy and Playbook INTERNAL (INTERNAL); PH Fit and ASEAN Rollout Assessment (INTERNAL); OOTB Documentation Pack Index

BrokerVerse_RAID_Log_Template.xlsx	Risks, assumptions, issues and dependencies, pre-filled for an implementation, with scoring and summary	Delivery and PM, Management Client-facing	Implementation, Go-live
BrokerVerse_Project_Status_Report_Template.docx, pdf	Weekly or fortnightly status and steering committee report	Delivery and PM, Management Client-facing	Implementation, Go-live
BrokerVerse_Training_Plan.docx, pdf	Training and change management by role	Delivery and PM, Users Client-facing	Implementation
BrokerVerse_User_Manual.docx, pdf	User manual by role, also opened per screen from the Help panel (F1)	Users, Business analysts, QA, Support Client-facing	Implementation, Go-live, Support
BrokerVerse_Reports_Book.docx, pdf, xlsx	Every report, dashboard and export with its columns and rules	Users, Business analysts, Support Client-facing	Implementation, Support
BrokerVerse_Communication_Templates_and_Touchpoints.docx, pdf	Every e-mail, SMS, notification and printed document the system sends	Business analysts, Users, Support Client-facing	Implementation, Support
BrokerVerse_Communication_Touchpoints.xlsx	Companion workbook of the communication templates	Business analysts, Support Client-facing	Implementation, Support
BrokerVerse_Schedules_and_Batch_Jobs.docx, pdf	Every scheduled job and batch process, the operational run book and the support runbook per job	Support, Users, Delivery and PM Client-facing	Implementation, Go-live, Support
BrokerVerse_Test_Strategy	How the product and each implementation	QA, Delivery and PM, Developers,	Implementation, Go-live

File and formats	Purpose	Departments and distribution	Used in
docx, pdf	are tested: levels, types, environments, test data and masking, entry and exit criteria, defects, CI gates	Management Client-facing	
BrokerVerse_Test_Plan.docx, pdf	Test plan of a broker implementation: scope per module, schedule by size, cycles from SIT to hypercare, resourcing, sign-off	QA, Delivery and PM, Management Client-facing	Implementation, Go-live
BrokerVerse_Test_Cases.xlsx	Release test cases with regulatory references, the requirements traceability matrix (sheet Requirements Traceability: the 150 processes to test cases and automated tests), defects	QA, Developers Client-facing	Implementation, Go-live
BrokerVerse_Test_Summary_Report.docx, pdf	Results of the release test	QA, Delivery and PM, Developers, Management Client-facing	Pre-sales, Go-live
BrokerVerse_Philippine_Regulatory_Compliance_Matrix.docx, pdf	How the product supports IC, BIR, premium tax, CTPL, DPA and AMLA obligations	Sales, Business analysts, QA, Management Client-facing	Pre-sales, Implementation
BrokerVerse_Business_Requirements_Document.docx, pdf	Business requirements by process area with acceptance criteria and the screen that meets each, non-functional requirements and the functional specification by module	Delivery and PM, Sales, Management Client-facing	Pre-sales, Implementation
BrokerVerse_Process_Flow_Document.docx, pdf	End-to-end process flows with swimlane diagrams, numbered steps, postings, documents and controls	Delivery and PM, Support Client-facing	Implementation, Go-live, Support
Upload_Templates/folder	Standard upload templates for the go-live data, one per master or opening balance, and the go-live configuration and migration workbooks	Delivery and PM, Business analysts, Users Client-facing	Implementation, Go-live

6.6 Support (06_Support)

File and formats	Purpose	Departments and distribution	Used in
BrokerVerse_Production_Support_Approach_and_Standards.docx, pdf	Support model, severities, change and release management, monitoring, and the procedures for integrations, compliance deadlines, keys, brand packs and e-signatures	Support, Management Client-facing	Contracting, Go-live, Support

File and formats	Purpose	Departments and distribution	Used in
BrokerVerse_Business_Continuity_and_Disaster_Recovery_Plan.docx, pdf	Backups, keys, recovery objectives, scenarios, partner outages and DR tests	Support, Management Client-facing	Contracting, Support
BrokerVerse_Release_Notes_and_Roadmap.docx, pdf	What the release delivers, known limitations, versioning policy and indicative roadmap	Sales, Delivery and PM, Support, Management Client-facing	Pre-sales, Go-live, Support
BrokerVerse_Release_Notes_Template.docx, pdf	Release notes for each patch, minor or major release, with jobs, connectors and keys	Developers, Support Client-facing	Support

6.7 Technical (07_Technical)

File and formats	Purpose	Departments and distribution	Used in
BrokerVerse_Architecture_Infrastructure_Security_and_Privacy.docx, pdf	Architecture, hosting options, security controls and data privacy	Developers, Delivery and PM, Support, Management Client-facing	Pre-sales, Contracting, Implementation
BrokerVerse_Technical_Reference.docx, pdf	Code base, modules, security implementation and how to extend	Developers, Support Client-facing	Implementation, Support
BrokerVerse_API_and_Dependency_Catalogue.xlsx	Every API route with its permission and the screens that call it	Developers, Support, QA Client-facing	Implementation, Support
BrokerVerse_Data_Dictionary.docx, pdf, xlsx	Tables, columns, relationships, personal data and retention	Developers, Business analysts, Support Client-facing	Implementation, Support

6.8 Management (08_Management)

File and formats	Purpose	Departments and distribution	Used in
BrokerVerse_Go_No_Go_and_Management_Register.docx, pdf	Release recommendation, go-live conditions, risks, plans and decisions needed	Management, Delivery and PM, Developers, Support, Sales INTERNAL	Go-live
iNXT_BrokerVerse_00TB_Strategy_and_Playbook_INTERNAL.docx, pdf	How iorta TechNXT sells, delivers, supports and evolves the OOTB product	Management, Sales, Delivery and PM, Developers, Support INTERNAL	Pre-sales, Contracting, Implementation, Go-live, Support
BrokerVerse_PH_Fit_and_ASEAN_Rollout_Assessment.docx, pdf, xlsx	Philippine process fit by area with evidence, gaps ranked, and the change needed for each ASEAN country	Management, Sales, Developers INTERNAL	Pre-sales, Support
BrokerVerse_00TB_Documentation_Pack_Index.docx, pdf	This index	Users, Developers, Business analysts, QA, Delivery and PM, Sales, Support, Management Client-facing	Pre-sales, Contracting, Implementation, Go-live, Support

7. INTERNAL documents

These files never leave iorta TechNXT:

- 01_Sales/iNXT_BrokerVerse_Competitive_Battlecard_INTERNAL (docx, pdf): Competitor positioning, proof points and limits to disclose.
- 02_Commercials/BrokerVerse_Commercials_and_Pricing (xlsx): Formula-driven pricing model behind the rate card.
- 02_Commercials/iNXT_BrokerVerse_Price_Book (xlsx): Price book with quick quote, packages and negotiation limits.
- 02_Commercials/BrokerVerse_Commercial_Proposal_Note (docx, pdf): Pricing rationale, market positioning, review of the new modules against the price list.
- 02_Commercials/iNXT_BrokerVerse_Negotiation_Playbook_INTERNAL (docx, pdf): Discount limits, trade-offs and approval rules in negotiation.
- 08_Management/BrokerVerse_Go_No_Go_and_Management_Register (docx, pdf): Release recommendation, go-live conditions, risks, plans and decisions needed.
- 08_Management/iNXT_BrokerVerse_OOTB_Strategy_and_Playbook_INTERNAL (docx, pdf): How iorta TechNXT sells, delivers, supports and evolves the OOTB product.
- 08_Management/BrokerVerse_PH_Fit_and_ASEAN_Rollout_Assessment (docx, pdf, xlsx): Philippine process fit by area with evidence, gaps ranked, and the change needed for each ASEAN country.
- 04_Onboarding_and_Go_Live/Brand_Packs/ (folder): Brand packs to import in Theme and Branding; a client pack carries the marks of a client of iorta TechNXT and is applied only in that client's environments, under the client's contract with iorta TechNXT.

8. Building the documents

Each Word and PDF document is built from its text source in `source/` into the iorta TechNXT template. The table of sources, folders and file names is kept in one place, `tools/build_all.py`:

```
cd docs/package/tools
python3 build_all.py --list           (which source becomes which file)
python3 build_all.py                 (every document: .docx, contents page
and .pdf)
python3 build_all.py user-manual      (one document)
python3 build_all.py --sales --workbooks (also brochures, presentation, plain-text
e-mails and workbooks)
```

`build_all.py` runs `build_doc.py` (text to .docx), the post-processing step where one is needed (brochure/widths.py for the Product Functionality document) and `refresh.py` (contents page and PDF with LibreOffice, on a private profile and port). The workbooks have their own builders: `build_pricing.py`, `build_price_book.py`, `build_roi.py`, `build_questionnaire_xlsx.py`, `build_discovery_workbook.py`, `build_plan_xlsx.py`, `build_project_templates_xlsx.py` (Fit-Gap Register and RAID Log), `build_touchpoints_xlsx.py`, `build_api_catalogue.py`, `build_fit_assessment_xlsx.py` (Philippine fit and ASEAN rollout assessment) and `data-dictionary/`. The plain-text prospect e-mails come from `build_prospect_emails_txt.py`. The Test Cases and Reports Book workbooks are maintained directly. Writing rules: `tools/WRITING_RULES.md`. This index is generated by `build_pack_index.py`.
