2. Acronyms and Glossary

Acronym / Term	Definition / Meaning
ADA	Auto-debit arrangement: the client's bank pays the premium by debit to the client's account.
BIR	Bureau of Internal Revenue.
BP	Bills payment: premium paid through a bank or payment centre.
CCD	Cash Control Department of TISPH.
Client	A person or company with at least one policy.
CTPL	Compulsory third party liability insurance of a motor vehicle.
COC	Certificate of cover of a CTPL policy.
Endorsement	A change to a policy during its period.
Insurer	An insurance company of the TISPH panel.
LTO	Land Transportation Office.
Maker and checker	The maker enters a record; a different user, the checker, approves it.
PDC	Post-dated cheque.
Placement slip	The request to an insurer to issue cover on agreed terms.
Prospect	A person or company that may become a client.
QRPh	The national QR code standard for payments.
Quotation	The terms offered to a prospect or client.
Receipt	The official or acknowledgement receipt of a payment.
Remittance	The payment of premium, net of commission, to the insurer.
Request for quotation	The request to the insurers for their offers on a risk.
SOA	Statement of account.
TFS	Toyota Financial Services.
TISPH	Toyota Insurance Services Philippines.

1. About this manual

1.1 Purpose

This manual tells the staff of Toyota Insurance Services Philippines how to do their work in the system: Sales, Operations, Cash Control, Finance and General Accounting, IT AppSupport and the General Manager. It covers the work from the first contact with a client (a TFS referral, a dealer lead, a walk-in client or a renewal) to the quotation, the placement with the panel insurers, the policy, the collection, the remittance to the insurer, the commission, the claims, the renewals and the month-end close.

1.2 How the manual is organised

Chapter	Content
Getting started	Signing in with your Microsoft 365 account, the screen layout, My Work, lists, forms, approvals and maker-checker, the audit trail and the Help panel.
The TISPH process end to end	Each step of the work, from the lead to the month-end close, with the roles that do it and the screen where it is done.
One chapter per role	The thirteen roles of TISPH by department: Sales, Operations, Cash Control, Finance and Accounting, IT and Management. Each chapter lists the menus of the role, what it can view, change and approve, who approves its work, its segregation-of-duties rules, its tasks and its procedures.
Screen reference	Every screen of the TISPH menus, in menu order, with the roles that open it.
Reports	The report menus and the Report Builder.
Glossary	The insurance, accounting and system terms used on the screens.

Read Getting started and The TISPH process end to end first, then the chapter of your role. In the system, open Help (F1) on any screen: **Open this section** opens the section of that screen, and **Open my role chapter** opens the chapter of your role.

The menus, access levels, approvals and segregation-of-duties rules in the role chapters are produced from the delivered configuration of the system. They describe the roles as delivered. The access in force for a person is on Master > Users and Access > User Access Matrix.

1.3 Conventions

Convention	Meaning
Operations > Sales & Marketing > Prospects	A menu path: open each item in the side bar in turn.
Create Prospect	A button, tab, field or status, written exactly as it appears on the screen.
PHP 1,250,000.00	Amounts in Philippine pesos. The screens show the peso sign, for example ₱1,250,000.00.
03/10/2026	The screens show dates as DD/MM/YYYY, in Manila time.
Maker and checker	The maker enters a record; a different user, the checker, approves it.

The screenshots show fictional sample data of a test system: clients, vehicles, policies and amounts are not real. Your screens show your own data, and your menu shows only the screens of your role.

2. Getting started

2.1 Signing in

Every person has his or her own account. Never share an account: every action is recorded against the user in the audit trail.

1. Open the address of the system given by IT AppSupport in Chrome or Edge.
2. Choose **Sign in with Microsoft**.
3. Sign in with your Microsoft 365 account of Toyota Insurance Services Philippines, and complete the verification that Microsoft asks for.
4. The system opens My Work.

Sign in with a user ID and password is for the accounts that IT AppSupport creates without a Microsoft 365 account.

In preparation. Password rules, two-step verification, forgotten password and locked accounts, as configured for TISPH.

2.2 The screen layout

In preparation. The header (logo, menu search, notifications, profile menu), the side bar with the menus of your role, the page title and actions, and how to return to My Work.

2.3 My Work

Menu: My Work

Role	Access
TIS Sales Associate	View
TIS Sales Officer	View
TIS Sales Unit Head	View
TIS Operations Associate	View
TIS Operations Officer	View
TIS Operations Unit Head	View
CCD-PDU (Post-Dated Cheques)	View
CCD-PDC / CCD-ADA	View
CCD-BP / QRPh (Receipting)	View
CCD-Recon (Reconciliation and Reversals)	View
TIS Finance & General Accounting	View
TIS IT AppSupport / Admin	View
TIS General Manager	View

In preparation. The first screen after sign-in: the figures in the header, the work items of your role, follow-up tasks and how to open a record from them.

2.4 My Profile

In preparation. Your name, roles, e-mail and the account security settings of My Profile (profile menu > My Profile).

2.5 Notifications

In preparation. The bell in the header, the notifications list and what each kind of notification asks you to do.

2.6 Working with lists

In preparation. Search, filters, status cards and tabs, sorting, paging, row actions and export.

2.7 Working with forms

In preparation. Required fields, look-up lists, error messages, saving and cancelling, the record number given on save, uploads and templates.

2.8 Approvals and maker-checker

The user who enters a record never approves it: a different user, holding the approval of that record, approves it. The system refuses the approval of your own record and tells the users who may approve. Your role chapter lists what your role approves and who approves your work.

Record	Approved by
Quotation	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head and TIS General Manager
Check of a placement against the slip	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head and TIS General Manager
Renewal terms	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head and TIS General Manager
Claim decisions and settlement	TIS Operations Unit Head and TIS General Manager
Supplier invoice	TIS Sales Unit Head, TIS Operations Unit Head, TIS Finance & General Accounting and TIS General Manager
Bank reconciliation	TIS Finance & General Accounting
Insurer statement reconciliation	CCD-Recon (Reconciliation and Reversals)
Month-end and year-end close	TIS Finance & General Accounting
Posting rules and account determination	TIS Finance & General Accounting
Role access changes and authority limits	TIS IT AppSupport / Admin

On top of maker-checker, the Authority Matrix (Master > Users and Access) sets the largest amount each role may approve per transaction, and the Segregation of Duties rules warn or block when one person is given roles that should stay apart.

In preparation. The statuses of a record and where the approval is made on each screen (approval buttons, My Work items).

2.9 Where the audit trail is

The system records every creation, change, approval and sign-in with the user, the time and the values before and after.

Where	Who
Master > System > Audit Trail	The roles listed in Audit Trail of the screen reference

Where	Who
The Audit Trail or History tab of a record	Users who may open the record

In preparation. How to search the audit trail and read an entry.

2.10 The Help panel

Press F1, or ? outside a text field, or choose Help in the profile menu. The panel shows the section of this manual for the screen you are on (**Open this section**), the chapter of your role (**Open my role chapter**), the manual as PDF and Word, the support contacts and the keyboard shortcuts.

3. The TISPH process end to end

The work of Toyota Insurance Services Philippines follows one chain: a lead becomes a quotation, the quotation is placed with a panel insurer, the insurer's policy is booked and billed, Cash Control collects the premium, the premium is remitted to the insurer, the commission is earned and paid, claims are followed up with the insurer, the policy is renewed, and Finance closes the month and files the BIR returns. Each section below names the roles that do the step, as delivered, and the screens where it is done.

3.1 Leads from TFS, dealers and walk-in clients

Prospects are entered by TIS Sales Associate, TIS Sales Officer, TIS Sales Unit Head and TIS General Manager, on Prospects. Leads are assigned to the sales team on Lead Assignment by TIS Sales Officer, TIS Sales Unit Head and TIS General Manager.

In preparation. The sources of TISPH leads (Toyota Financial Services referrals, dealers, walk-in clients, renewals), the lead source and product tagging, and the follow-up of a lead.

3.2 Quotation and request for quotation

Quotations and requests for quotation to the panel insurers are prepared by TIS Sales Associate, TIS Sales Officer, TIS Sales Unit Head, TIS Operations Associate, TIS Operations Officer, TIS Operations Unit Head and TIS General Manager. A quotation is approved by another user: TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head and TIS General Manager.

In preparation. Quick Quote for package products, the request for quotation to the insurers for the other risks, the comparison of offers, the client's acceptance.

3.3 Placement with the insurer

The placement slip goes to the insurer, which returns the e-policy. The check of the e-policy against the slip is decided by TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head and TIS General Manager, never by the user who recorded the e-policy. See Placement Slips.

In preparation. Sending the placement slip, the insurer's acknowledgement, recording the e-policy, differences and returns.

3.4 Policy, billing and endorsements

Policies, cover notes and CTPL certificates are recorded by TIS Sales Associate, TIS Sales Officer, TIS Sales Unit Head, TIS Operations Associate, TIS Operations Officer, TIS Operations Unit Head and TIS General Manager; endorsements and cancellations by TIS Sales Associate, TIS Sales Officer, TIS Sales Unit Head, TIS Operations Associate, TIS Operations Officer, TIS Operations Unit Head and TIS General Manager. See Policies.

In preparation. Booking the policy, the billing statement to the client, endorsements and cancellations with return premium.

3.5 Collection by Cash Control

Receipts are issued and collections posted by CCD-PDU (Post-Dated Cheques), CCD-PDC / CCD-ADA, CCD-BP / QRPh (Receipting) and CCD-Recon (Reconciliation and Reversals). Post-dated cheques are handled on Post-Dated Cheques. See Receipts.

In preparation. Over-the-counter payments, bills payment and QRPh, post-dated cheques and auto-debit arrangements, the daily payment reconciliation, reversals.

3.6 Remittance to the insurers

Remittances to the insurers are prepared by CCD-Recon (Reconciliation and Reversals) and TIS Finance & General Accounting. See Remittance to insurers.

In preparation. Remittance runs, approval within the Authority Matrix limits, payment to the insurer, insurer statements and their reconciliation.

3.7 Commission and incentives

Commission is processed by TIS Finance & General Accounting; incentive calculations by TIS Sales Unit Head and approved by TIS Sales Unit Head. See Commission to agents and referrers and Incentives.

In preparation. Commission earned from the insurers, commission to referrers, the telesales incentive.

3.8 Claims

Claims are registered and followed up by TIS Operations Associate, TIS Operations Officer, TIS Operations Unit Head and TIS General Manager. Claim decisions and settlement approvals are made by TIS Operations Unit Head and TIS General Manager. See Claims.

In preparation. Registering a claim, claim documents, motor claim repairs and letters of authority, settlement through the insurer.

3.9 Renewals

Renewals are prepared by TIS Sales Associate, TIS Sales Officer, TIS Sales Unit Head, TIS Operations Associate, TIS Operations Officer, TIS Operations Unit Head and TIS General Manager; renewal terms are approved by TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head and TIS General Manager. See Renewal Queue.

In preparation. The renewal queue, renewal terms, negotiations, lapsed policies.

3.10 Month-end and tax

The month-end and year-end steps and the BIR returns are run by TIS Finance & General Accounting; the close is approved by TIS Finance & General Accounting. See Period end and Tax: BIR forms and returns.

In preparation. The month-end checklist, bank reconciliation, the SAP GL export, the close and its approval, the BIR returns.

4. TIS Sales Associate

4.1 Role summary

Department: Sales. Leads, clients, quotations, placements, policies, endorsements and renewals; no approvals.

In preparation. What this role is responsible for at Toyota Insurance Services Philippines, and how it works with the other roles of its department.

4.2 Menus available

The menus of this role as delivered. Access: View (open and read), Create and edit (enter and change records), Approve (decide the records of other users).

4.4 Approvals

This role approves nothing.

Who approves the work of this role:

Work	Approval	Approved by
Policies	Decide the check of a placement against the slip (not the user who recorded the policy)	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Quotations and placement	Approve a quotation created by another user	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Renewals	Approve or return renewal terms of another user	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Quotation > Underwriting referral (the authority role of the acceptance rule)	Underwriting referral approval within the approver's limit	TIS Operations Unit Head

The user who enters a record never approves it: the approval is always another user's.

4.5 Segregation of duties

Rule	Conflict	When given together	Reason
Administration and transactions	Policies (create and edit), Quotations and placement (create and edit) with Users (create and edit), Roles (create and edit), Access control (create and edit) held by the same person	Warning	The person who administers users and access should not enter business or accounting transactions
Placing and paying insurers	Quotations and placement (create and edit), Policies (create and edit) with Remittance and insurer reconciliation (create and edit), Disbursements and petty cash (create and edit) held by the same person	Warning	The person who places business with an insurer should not also prepare the payments to insurers
Receipting and selling	Quotations and placement (create and edit), Policies (create and edit) with Receipts (create and edit) held by the same person	Warning	The person who issues receipts and posts cash should not also sell or issue the policies paid for

These are the delivered rules. The rules in force are on Master > Users and Access > Segregation of Duties.

4.6 Daily and periodic tasks

In preparation. The daily, weekly and month-end tasks of this role, each with the screen where it is done, follow in the next draft of this manual.

4.7 Procedures

In preparation. The step-by-step procedures of this role follow in the next draft of this manual. Each one points to the screen sections of the screen reference.

5. TIS Sales Officer

8.4 Approvals

This role approves nothing.

Who approves the work of this role:

Work	Approval	Approved by
Claims	Claim decisions: review, reject, settle, approve a settlement, close	TIS Operations Unit Head or TIS General Manager
Policies	Decide the check of a placement against the slip (not the user who recorded the policy)	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Quotations and placement	Approve a quotation created by another user	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Renewals	Approve or return renewal terms of another user	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Operations > Claims > Settlement approval	Claim settlement approval within the approver's limit	TIS Operations Unit Head or TIS General Manager
Quotation > Underwriting referral (the authority role of the acceptance rule)	Underwriting referral approval within the approver's limit	TIS Operations Unit Head

The user who enters a record never approves it: the approval is always another user's.

8.5 Segregation of duties

Rule	Conflict	When given together	Reason
Administration and transactions	Policies (create and edit), Quotations and placement (create and edit), Claims (create and edit) with Users (create and edit), Roles (create and edit), Access control (create and edit) held by the same person	Warning	The person who administers users and access should not enter business or accounting transactions
Claims and payment	Claims (create and edit) with Disbursements and petty cash (create and edit) held by the same person	Warning	The claims handler should not also prepare the claim payments
Placing and paying insurers	Quotations and placement (create and edit), Policies (create and edit) with Remittance and insurer reconciliation (create and edit), Disbursements and petty cash (create and edit) held by the same person	Warning	The person who places business with an insurer should not also prepare the payments to insurers
Receipting and selling	Quotations and placement (create and edit), Policies (create and edit) with Receipts (create and edit) held by the same person	Warning	The person who issues receipts and posts cash should not also sell or issue the policies paid for

These are the delivered rules. The rules in force are on Master > Users and Access > Segregation of Duties.

8.6 Daily and periodic tasks

In preparation. The daily, weekly and month-end tasks of this role, each with the screen where it is done, follow in the next draft of this manual.

8.7 Procedures

In preparation. The step-by-step procedures of this role follow in the next draft of this manual. Each one points to the screen sections of the screen reference.

9.4 Approvals

This role approves the work of other users:

- Claim decisions: review, reject, settle, approve a settlement, close
- Approve supplier invoices (not the preparer)
- Decide the check of a placement against the slip (not the user who recorded the policy)
- Approve a quotation created by another user
- Approve or return renewal terms of another user

Approval limits of this role on the Authority Matrix:

Transaction	Approval step	Limit of the role
Claim settlement approval	Operations > Claims > Settlement approval	Not set: no amount limit applies
Underwriting referral approval	Quotation > Underwriting referral (the authority role of the acceptance rule)	Not set: no amount limit applies

Who approves the work of this role:

Work	Approval	Approved by
Claims	Claim decisions: review, reject, settle, approve a settlement, close	TIS Operations Unit Head or TIS General Manager
Policies	Decide the check of a placement against the slip (not the user who recorded the policy)	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Quotations and placement	Approve a quotation created by another user	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Renewals	Approve or return renewal terms of another user	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Operations > Claims > Settlement approval	Claim settlement approval within the approver's limit	TIS Operations Unit Head or TIS General Manager
Quotation > Underwriting referral (the authority role of the acceptance rule)	Underwriting referral approval within the approver's limit	TIS Operations Unit Head

The user who enters a record never approves it: the approval is always another user's.

9.5 Segregation of duties

Rule	Conflict	When given together	Reason
Administration and transactions	Policies (create and edit), Quotations and placement (create and edit), Claims (create and edit) with Users (create and edit), Roles (create and edit), Access control (create and edit) held by the same person	Warning	The person who administers users and access should not enter business or accounting transactions
Claims and payment	Claims (create and edit) with Disbursements and petty cash (create and edit) held by the same person	Warning	The claims handler should not also prepare the claim payments
Placing and paying insurers	Quotations and placement (create and edit), Policies (create and edit) with Remittance and insurer reconciliation (create and edit), Disbursements and petty cash (create and edit) held by the same person	Warning	The person who places business with an insurer should not also prepare the payments to insurers
Receipting and selling	Quotations and placement (create and edit), Policies (create and edit) with Receipts (create and edit) held by the same person	Warning	The person who issues receipts and posts cash should not also sell or issue the policies paid for

These are the delivered rules. The rules in force are on Master > Users and Access > Segregation of Duties.

9.6 Daily and periodic tasks

In preparation. The daily, weekly and month-end tasks of this role, each with the screen where it is done, follow in the next draft of this manual.

9.7 Procedures

In preparation. The step-by-step procedures of this role follow in the next draft of this manual. Each one points to the screen sections of the screen reference.

Commission	Commission	Create and edit	Process commission and insurer overrides
Reports	Reports	View	Run and download reports
Product Configurator	Products	View	See products and product templates

Area	Module	Access	What it allows
Master data and configuration	Reference masters	View	See reference masters
Master data and configuration	Distribution channels	View	See dealers, financing banks, affinity partners and their production
Master data and configuration	Posting rules and account determination	Create and edit	Propose changes to posting rules and account determination
Master data and configuration	Posting rules and account determination	Approve	Approve changes to posting rules and account determination (not the requester)
Master data and configuration	Schedules	View	See scheduled jobs and their runs
Master data and configuration	Integrations	View	See connectors and the integration outbox and inbox
Master data and configuration	Audit trail	View	See the audit trail
Basic and special access	Basic access	View	Own profile and the look-up lists of every form
Basic and special access	Full personal data	Special	See TIN, government ID numbers, mobile, e-mail, bank account and birth date unmasked on screens and exports

14.4 Approvals

This role approves the work of other users:

- Approve and reopen bank reconciliations (not the preparer)
- Approve premium warranty extensions and client credit limits (not the requester)
- Approve supplier invoices (not the preparer)
- Approve the close, post into soft-closed periods, reopen periods, reverse a year-end close
- Approve changes to posting rules and account determination (not the requester)

Approval limits of this role on the Authority Matrix:

Transaction	Approval step	Limit of the role
Payment voucher and cheque release	Accounts > Disbursements > Cheque approval, and bank payment batch approval	Not set: no amount limit applies
Journal voucher approval	Accounts > Journal Vouchers > Approve	Not set: no amount limit applies
Remittance approval	Accounts > Remittance > Approval	Not set: no amount limit applies
Remittance settlement, adjustment and transfer	Accounts > Remittance > Approval (settlement, adjustment, transfer)	Not set: no amount limit applies

Who approves the work of this role:

Work	Approval	Approved by
Bank reconciliation	Approve and reopen bank reconciliations (not the preparer)	TIS Finance & General Accounting
Payables	Approve supplier invoices (not the preparer)	TIS Sales Unit Head, TIS Operations Unit Head, TIS Finance & General Accounting or TIS General Manager
Period end and tax	Approve the close, post into soft-closed periods, reopen periods, reverse a year-end close	TIS Finance & General Accounting

Work	Approval	Approved by
Posting rules and account determination	Approve changes to posting rules and account determination (not the requester)	TIS Finance & General Accounting
Remittance and insurer reconciliation	Approve insurer statement reconciliations and post their adjustments (not the preparer)	CCD-Recon (Reconciliation and Reversals)
Accounts > Disbursements > Cheque approval, and bank payment batch approval	Payment voucher and cheque release within the approver's limit	TIS Finance & General Accounting
Accounts > Journal Vouchers > Approve	Journal voucher approval within the approver's limit	TIS Finance & General Accounting
Accounts > Remittance > Approval	Remittance approval within the approver's limit	CCD-Recon (Reconciliation and Reversals) or TIS Finance & General Accounting
Accounts > Remittance > Approval (settlement, adjustment, transfer)	Remittance settlement, adjustment and transfer within the approver's limit	CCD-Recon (Reconciliation and Reversals) or TIS Finance & General Accounting

The user who enters a record never approves it: the approval is always another user's.

14.5 Segregation of duties

Rule	Conflict	When given together	Reason
Administration and transactions	Disbursements and petty cash (create and edit), Journal vouchers (create and edit), Remittance and insurer reconciliation (create and edit) with Users (create and edit), Roles (create and edit), Access control (create and edit) held by the same person	Warning	The person who administers users and access should not enter business or accounting transactions
Claims and payment	Disbursements and petty cash (create and edit) with Claims (create and edit) held by the same person	Warning	The claims handler should not also prepare the claim payments
Placing and paying insurers	Remittance and insurer reconciliation (create and edit), Disbursements and petty cash (create and edit) with Quotations and placement (create and edit), Policies (create and edit) held by the same person	Warning	The person who places business with an insurer should not also prepare the payments to insurers

These are the delivered rules. The rules in force are on Master > Users and Access > Segregation of Duties.

14.6 Daily and periodic tasks

In preparation. The daily, weekly and month-end tasks of this role, each with the screen where it is done, follow in the next draft of this manual.

14.7 Procedures

In preparation. The step-by-step procedures of this role follow in the next draft of this manual. Each one points to the screen sections of the screen reference.

15. TIS IT AppSupport / Admin

15.1 Role summary

Department: IT. Users, roles, settings, reference masters and interfaces; no business transactions.

In preparation. What this role is responsible for at Toyota Insurance Services Philippines, and how it works with the other roles of its department.

16.4 Approvals

This role approves the work of other users:

- Claim decisions: review, reject, settle, approve a settlement, close
- Approve supplier invoices (not the preparer)
- Decide the check of a placement against the slip (not the user who recorded the policy)
- Approve a quotation created by another user
- Approve or return renewal terms of another user

Approval limits of this role on the Authority Matrix:

Transaction	Approval step	Limit of the role
Claim settlement approval	Operations > Claims > Settlement approval	Not set: no amount limit applies

Who approves the work of this role:

Work	Approval	Approved by
Claims	Claim decisions: review, reject, settle, approve a settlement, close	TIS Operations Unit Head or TIS General Manager
Policies	Decide the check of a placement against the slip (not the user who recorded the policy)	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Quotations and placement	Approve a quotation created by another user	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Renewals	Approve or return renewal terms of another user	TIS Sales Officer, TIS Sales Unit Head, TIS Operations Unit Head or TIS General Manager
Operations > Claims > Settlement approval	Claim settlement approval within the approver's limit	TIS Operations Unit Head or TIS General Manager
Quotation > Underwriting referral (the authority role of the acceptance rule)	Underwriting referral approval within the approver's limit	TIS Operations Unit Head

The user who enters a record never approves it: the approval is always another user's.

16.5 Segregation of duties

Rule	Conflict	When given together	Reason
Administration and transactions	Policies (create and edit), Quotations and placement (create and edit), Claims (create and edit) with Users (create and edit), Roles (create and edit), Access control (create and edit) held by the same person	Warning	The person who administers users and access should not enter business or accounting transactions
Claims and payment	Claims (create and edit) with Disbursements and petty cash (create and edit) held by the same person	Warning	The claims handler should not also prepare the claim payments
Placing and paying insurers	Quotations and placement (create and edit), Policies (create and edit) with Remittance and insurer reconciliation (create and edit), Disbursements and petty cash (create and edit) held by the same person	Warning	The person who places business with an insurer should not also prepare the payments to insurers
Receipting and selling	Quotations and placement (create and edit), Policies (create and edit) with Receipts (create and edit) held by the same person	Warning	The person who issues receipts and posts cash should not also sell or issue the policies paid for

These are the delivered rules. The rules in force are on Master > Users and Access > Segregation of Duties.

16.6 Daily and periodic tasks

In preparation. The daily, weekly and month-end tasks of this role, each with the screen where it is done, follow in the next draft of this manual.

16.7 Procedures

In preparation. The step-by-step procedures of this role follow in the next draft of this manual. Each one points to the screen sections of the screen reference.

17. Screen reference: Operations

The screens of the Operations menu, in menu order: prospects, quotations and placement, clients, policies, claims, renewals and the policy services.

Each section names the menu of the screen and the roles that open it, with their access. Your own menu shows only the screens of your role.

17.1 Prospects

Menu: Operations > Sales & Marketing > Prospects

Role	Access
TIS Sales Associate	Create and edit
TIS Sales Officer	Create and edit

TIS Operations Associate	Create and edit
TIS Operations Officer	Create and edit
TIS Operations Unit Head	Approve
TIS General Manager	Approve

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

17.3 Requests for quotation (broker slips)

Choose Operations > Sales & Marketing > Request for Quotation (Broker Slip). The cards count the requests by status (**Submitted, Responses in, Draft, Closed**); select a card to filter. Each row shows **Slip No.**, **Insured**, **Product**, **Sum insured**, **Offers / approached** (with the number declined), **Best offer (gross)**, **Response due**, **Age**, **Status** and the **Quotation Slip** made from it. Select a row to open it.

Menu: Operations > Sales & Marketing > Requests for Quotation

Role	Access

TIS IT AppSupport / Admin	View
TIS General Manager	Approve

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

17.4.1 Create a motor quotation

A motor quotation has five steps. Nothing is saved until **Completed Quote** on the last step, so you can move with **Back** and **Next**.

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

17.5 Placement Slips

The broker never issues cover. A placement slip goes to the insurer, the insurer acknowledges it and returns the e-policy, the e-policy is checked against the slip and only then is the policy booked. No screen lets a user complete cover without the insurer.

Menu: Operations > Sales & Marketing > Placement Slips

Role	Access
TIS Sales Associate	Create and edit
TIS Sales Officer	Approve
TIS Sales Unit Head	Approve
TIS Operations Associate	Create and edit
TIS Operations Officer	Create and edit
TIS Operations Unit Head	Approve
TIS IT AppSupport / Admin	View
TIS General Manager	Approve

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

17.5.1 Record e-Policy

Use **Record e-Policy** to key the e-policies the insurers send back without searching for each placement slip. Choose Placement Slips and select **Record e-Policy**: the list shows the placement slips sent to the insurer or acknowledged. Select a row, then fill in the e-policy as described in Upload the e-policy. The placement slip opens afterwards for the check against the slip by another user.

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

17.6 Lead Assignment

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

17.10 Sales activities

Account executives log every call, meeting, e-mail and visit with a prospect, a client or on a quotation. Each prospect, client and quotation shows its activities as a timeline, newest first: a prospect and a client also show the activities logged on their quotations (with the quotation number), and a client those of the prospect it came from. The open next step is shown above the timeline.

Menu: Operations > Sales & Marketing > Sales Activities

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

17.11.1 Onboard a client before the first policy

A client can be created, identified and checked before any quotation or policy, as customer due diligence requires. A client created by the first policy (a prospect converted, a direct placement) is completed the same way, from **Identification and due diligence** on the client view.

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

17.12 Policies

Choose Operations > Policy. The list shows **Policy Number, Client Id, Client Name, Gross Premium, Policy Issued, Policy Expiry, Product Description** and **Payment status**. The search box finds a policy by number or client. **Show Filters** offers **Payment Status, Product Type, Insurance Company, Client Name**, issue and expiry date ranges and minimum and maximum premium.

18. Screen reference: Accounts

The screens of the Accounts menu, in menu order: receipts and collections, Cash Control, disbursements and payables, remittance to insurers, journal vouchers, reconciliations, tax, period end and incentives.

Each section names the menu of the screen and the roles that open it, with their access. Your own menu shows only the screens of your role.

18.1 Verify payments and post official receipts

When Operations or Sales record a client payment, the policy payment status becomes Reviewing and Accounting receives the notification to verify it. Open the notification, check the payment against the bank statement and confirm it (the official receipt is posted) or reject it with a reason. Accounting users can also record a payment and issue the receipt directly from the policy.

TIS Finance & General Accounting	View

Menu: Master > Finance > Cost Centres

Role	Access
TIS Finance & General Accounting	View

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.19 Bank file layouts and payee bank accounts

Master > Finance > Bank File Layouts says how each bank's upload file is written and how its status file is read. The system is delivered with starter layouts for BDO, BPI, Metrobank, Landbank and UnionBank and a generic CSV. **The starter layouts are examples: each must be validated against the bank's current file specification, and a test file accepted by the bank, during onboarding.** They are marked **Test mode** until changed.

Menu: Master > Finance > Bank File Layouts

Role	Access
TIS Finance & General Accounting	View

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.20 E-mail Layout

Menu: Master > System > E-mail Layout

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.21 Documents and Reports Layout

Master > System > **Documents and Reports Layout** sets how every printed document (quotation, policy schedule, slips, endorsement, receipts, billing statements, vouchers, debit notes, claim letters) and every report PDF or Excel file is printed, together with the logo, legal name, TIN, licence and address of the primary company (Master > Organization > Company).

Menu: Master > System > Documents and Reports Layout

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.22 Document Signatures

Menu: Master > System > Document Signatures

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.23 Configuration

Menu: Master > System > Configuration

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.24 Document Numbering

Every number the system issues comes from a series on Master > Document Numbering: prospect, request for quotation, quotation, placement slip, policy, client, bill, official receipt, payment voucher, journal voucher, claim, endorsement, debit note, close run, reconciliation, BIR Form 2307 and the others. The list shows each series with module, prefix, format, counter reset, last number and next number.

Menu: Master > System > Document Numbering

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.25 Schedules

Menu: Master > System > Schedules

Role	Access
TIS Finance & General Accounting	View
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.26 Audit Trail

The history of a single record (claim history, policy and client **History** tab, quotation **Audit Trail** tab, master records) uses the same layout as a timeline grouped by day, newest first, with a search box, a user filter, a filter by kind of event (created, status changes and approvals, other changes, cancelled or removed) and **Export**.

Menu: Master > System > Audit Trail

Role	Access
TIS Finance & General Accounting	View
TIS IT AppSupport / Admin	View
TIS General Manager	View

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.27 E-mail Outbox

Menu: Master > System > E-mail Outbox

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.28 Integrations

Menu: Master > System > Integrations

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.29 SMS and message templates

Master > System > Message Templates holds the texts sent to clients by SMS (or Viber).

Menu: Master > System > Message Templates

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

20.30 Insurer integration

Menu: Master > System > Insurer Integration

Role	Access
TIS IT AppSupport / Admin	Create and edit

In preparation. The steps, fields and results of this screen follow in the next draft of this manual.

21. Screen reference: Product Configurator

The screens of the Product Configurator: products, covers, rating, acceptance rules, documents and the mapping to insurers.

Each section names the menu of the screen and the roles that open it, with their access. Your own menu shows only the screens of your role.

21.1 Product Configurator dashboard
