3. About this document

This document is the entry point to the iNXT BrokerVerse OOTB contract pack of iorta TechNXT Corp. (**iorta TechNXT**). It has two parts:

- **Part 1, for the client:** a cover letter that goes with the contract set sent to [Client legal name] (the **Client**) for signature.
- **Part 2, internal to iorta TechNXT:** the index of the documents, which documents apply to each commercial model and hosting option, the signing order, the order of precedence, and the checklists for the sales and legal teams.

Part 2 is internal. Send the Client the cover letter and the documents that apply, not this whole document. The floor prices and approval limits stay in the Negotiation Playbook, which is never sent.

All documents in the pack are templates for discussion, subject to review by the parties' legal counsel. Text in [square brackets] is a placeholder or an option.

4. Part 1: cover letter

Attention: [name, title]

Subject: Contract set for iNXT BrokerVerse OOTB, proposal ref. [reference]

Dear [name],

Thank you for selecting iNXT BrokerVerse OOTB [as confirmed in your Letter of Award dated [date] / as accepted in the Proposal Acceptance form dated [date]]. We enclose the contract set for your review and signature.

The contract is built in layers. The **Master Services Agreement** sets the general terms once. The **Order Form** records this purchase: the package, the number of named users, the hosting option, the term, the fees and the schedules that apply. Each schedule covers one subject: the licence or the subscription, the implementation, support and service levels, hosting, data processing and change requests. Three annexes list the services and rates, each party's responsibilities and, where they apply, the exit arrangements.

#	Document	Why it is in your set
1	Master Services Agreement	General terms for every purchase
2	Order Form no. [number]	This purchase: [package], [perpetual licence / subscription], [number] named users, [hosting option], [term]
3	[Perpetual Software Licence Agreement / Software Subscription Agreement]	Your right to use iNXT BrokerVerse OOTB
4	Implementation Statement of Work	Scope, phases, deliverables, acceptance and milestone payments of the implementation
5	Change Request Procedure and Form	How changes are requested, priced and approved
6	Annual Maintenance and Support Agreement and SLA	Maintenance, support hours, severity levels and response and restore targets
7	[Hosting and Infrastructure Services Agreement]	[Hosting of the environment set of the size (Dev, UAT and Production; SIT as well for a large broker) and the temporary Pre-Prod by iorta TechNXT on [provider and region]]
8	Data Processing Agreement	Processing of personal data under the Data Privacy Act of 2012
9	Service Catalogue and Rate Annex	Services, units and rates; out-of-scope list
10	Customer Responsibilities and RACI Annex	What each party provides and does
11	[Exit and Transition Plan]	[Return and deletion of your data when the subscription or hosting ends]
12	[Source Code Escrow Agreement]	[Optional escrow of the source code with an independent escrow agent]

For information, we also enclose the forms that will be used during the project: the UAT Sign-off and Go-live Acceptance Certificates and the Hypercare Exit and Handover to Support Certificate.

What we ask from you

1. Review the set with your legal counsel, data protection officer and tax adviser. We would be glad to walk your team through it.
2. Confirm with your tax adviser the withholding treatment of [the licence fee / the subscription fee], which we will record in the Order Form.
3. [Confirm the hosting location. Under the AWS and Azure options, data is stored in Singapore; please record the transfer in your privacy impact assessment. The local partner option keeps the data in the Philippines.]
4. Sign the documents in the order in the table below, with your board resolution or secretary's certificate for the signatories.

Step	Document	Timing
1	Master Services Agreement and Data Processing Agreement	Together
2	Order Form with the schedules and annexes	Same day as step 1, or after it
3	[Source Code Escrow Agreement, with the escrow agent]	[Before Go-Live; the first deposit is due within 60 days of Go-Live]

The first implementation payment (40% of the [implementation / onboarding] fee) is invoiced on signing of the Order Form. The planned mobilisation date is [date] and the target go-live date is [date].

The prices in the Order Form are those of our proposal ref. [reference], valid until [date]. All amounts are in Philippine pesos and exclude 12% VAT.

Please contact me with any question.

Sincerely,

[Name]

5.2 Documents by commercial model

The four columns are the licence models combined with the two hosting choices. The packages of the price book map to them: Essentials is a subscription hosted by the Client; Standard is a subscription hosted by iorta TechNXT on AWS; Ownership is a perpetual licence hosted by iorta TechNXT on AWS; Ownership Plus is a perpetual licence hosted by a local partner in the Philippines with 24x7 Severity 1 support. A perpetual licence hosted by the Client has no pre-set package and is quoted with the same rates.

Notes:

1. The Data Processing Agreement is required in every model. Even when the Client hosts, iorta TechNXT processes personal data during data migration and support.
2. Under the hosting options, the Hosting Agreement states the provider and region: AWS Singapore (option A), Azure Southeast Asia (option B) or a local partner in the Philippines (option C). Options A and B are a transfer of personal data outside the Philippines, which the Client decides and documents; the Order Form records the data location.
3. 24x7 Severity 1 support is an option in any model, stated in the Order Form and priced in the Rate Annex. It is included in Ownership Plus.

5.3 Signing order

Step	Document	Signed by	When	Notes
1	Mutual NDA	iorta TechNXT and the prospect	Before a demonstration with the prospect's own data or a discovery workshop	Demonstrations with sample data need no NDA
2	Letter of Award or Proposal Acceptance	The Client	After selection	Optional mobilisation before signature, with a cost cap
3	Master Services Agreement	Both, with board resolutions or secretary's	Contract signing	Optional notarial acknowledgment

Step	Document	Signed by	When	Notes
		certificates		
4	Data Processing Agreement	Both, with the DPOs named	Same sitting as the MSA, and in any case before any personal data reaches iorta TechNXT	Annex 3 sub-processors match the hosting option
5	Order Form with the schedules and annexes for the model	Both	Same sitting as the MSA, or after it	Triggers the first 40% implementation invoice
6	Source Code Escrow Agreement	iorta TechNXT, the Client and the escrow agent	Before Go-Live; first deposit within 60 days of Go-Live	Perpetual only, if selected
7	Change Request forms	Approvers by band	During the term, per change	
8	Acceptance certificates (SOW Annex A for each phase; UAT; Go-live)	The Client; iorta TechNXT	At each phase	UAT sign-off triggers the second 40%; Go-Live the final 20% and the licence fee or Monthly Fee
9	Hypercare Exit and Handover to Support Certificate	The Client; iorta TechNXT	After the first month-end close	Start of support under the Support Agreement
10	Exit and Transition Plan annexes	The Client; iorta TechNXT DPO	At exit	Confirmation of data return; certificate of deletion

5.4 Order of precedence

The order of precedence is set in the MSA (Order of precedence clause). If documents conflict, the first in this list prevails:

1. The Data Processing Agreement, on matters of personal data.
2. The Order Form, only for that purchase and only where it expressly states that it overrides the MSA.
3. The Master Services Agreement.
4. The schedules named in the Order Form, with their annexes: the Perpetual Software Licence Agreement or the Software Subscription Agreement, the Change Request Procedure, the Annual Maintenance and Support Agreement and SLA, the Hosting and Infrastructure Services Agreement, the Service Catalogue and Rate Annex, the Customer Responsibilities and RACI Annex and the Exit and Transition Plan.
5. The Implementation SOW.
6. The Documentation.

Specific rules in the documents themselves:

Rule	Where it is stated
Rates in the Order Form prevail over the Service Catalogue and Rate Annex	MSA; Rate Annex
The clauses of the MSA, the Subscription Agreement, the Hosting Agreement and the DPA prevail over the Exit and Transition Plan	Exit and Transition Plan
The clauses of the MSA, the SOW and the Support Agreement prevail over the RACI Annex	RACI Annex
Between iorta TechNXT and the Client, the Licence Agreement prevails on the scope of the licence; the Escrow Agreement prevails on the	Source Code Escrow Agreement

Rule	Where it is stated
deposit, verification and release procedure	
Acceptance certificates and Change Request forms record facts and approvals and do not amend the MSA, the Order Form or the SOW; an approved Change Request changes the plan and fees of the Order Form from its approval date	MSA; Change Request Procedure; certificates
The MSA and the Order Forms replace earlier proposals and understandings, including the Letter of Award, on their subject	MSA, General (entire agreement)

Recommended for legal review: the MSA does not rank the schedules among themselves. The recommended rule is that the schedule that deals specifically with the subject prevails (the Hosting Agreement on hosting, the Support Agreement on support, the licence or subscription schedule on the right of use). Legal counsel to confirm and, if agreed, add it to the MSA.
