Severity 1 support option

Everything a broker runs on, in one place

Out of the box. Configured, not coded.

Sell and place

Leads, prospects and pipeline. RFQs to several insurers, side-by-side quote comparison and placement slips.

Policy servicing

Issuance, endorsements with correct additional and return premium, instalments, renewals and cancellations.

Claims

Notification to settlement with documents, insurer follow-up, repair shop and bank transfer settlements.

Accounts and BIR

Official receipts, invoices, vouchers, bank reconciliation, petty cash, month-end close, trial balance and BIR 2307.

Commission and remittance

Commission by insurer and product, withholding tax, direct bill, insurer remittance with approval matrix.

Compliance and privacy

VAT, DST, LGT and FST per NIRC. Data Privacy Act consent, data-subject requests, anonymisation, audit trail.

Why brokers choose BrokerVerse

- ✓ **Philippine rules built in.** CTPL tariff, DST at P0.50 per P4.00, premium taxes from one tax engine, BIR-ready outputs.
- ✓ **One version of the numbers.** Every receipt, remittance and commission posts to the general ledger as it happens.
- ✓ **Approvals that notify.** Makers and checkers on payments, journals and remittance, with e-mail and in-app alerts.
- ✓ **Fast, low-risk start.** Standard upload templates, a tested go-live checklist and hypercare to the first month-end close.
- ✓ **Secure by design.** Encryption, sign-in lockout, two-factor sign-in, role permissions and daily backups.

SUBSCRIPTION

Pay monthly per user

Low entry cost, upgrades and support included, user slabs that grow with you.

PERPETUAL LICENCE

Own it outright

One-time licence and implementation, with annual maintenance for updates and support.
