1. Document Control

Date	Version	Author & Business Unit Info	Reviewed By & Business Unit Info	Approved By & Business Unit Info	Change History
03 October 2026	1.0	iorta TechNXT			Initial issue

2. Acronyms

Acronym / Symbol	Definition / Meaning
OOTB	Out of the box
DPO	Data protection officer
NDA	Non-disclosure agreement
PIA	Privacy impact assessment
RAID	Risks, assumptions, issues and dependencies
RACI	Responsible, Accountable, Consulted, Informed
ROI	Return on investment
SLA	Service level agreement
UAT	User acceptance test
DR	Disaster recovery
SaaS	Software as a service

3. How to use this index

The BrokerVerse OOTB documentation pack holds every document iorta TechNXT uses to sell, contract, implement, run and support iNXT BrokerVerse OOTB for a Philippine non-life broker. This index lists each file with its purpose, its audience and the stage of the customer lifecycle in which it is used.

- **Client-facing** files may be given to the broker, normally from the stage shown.
- **INTERNAL** files are for iorta TechNXT staff only. They hold pricing logic, discount limits, competitor positioning or internal strategy and are never sent to a broker or attached to a proposal. Their file names end in _INTERNAL where the document is a sales tool.
- Audiences: Sales (account managers and presales), Delivery (implementation project managers and consultants), Development (product engineering), Support (L2 and L3 application support), Management (iorta TechNXT management, and the broker's management for client-facing files).
- Lifecycle stages: Pre-sales, Contracting, Implementation, Go-live, Support.

Documents are kept in docs/package: out/ holds the built Word, PDF and Excel files, out/contracts/ the contract pack, sales/ the sales kit (with copies of the sales documents built in out/), source/ the text sources and tools/ the builders.

4. Index by audience

Audience	Start with
Sales (25 files)	Product Functionality, Demo Script, FAQ and Objection Handling, Rate Card, Battlecard (INTERNAL), Negotiation Playbook (INTERNAL)
Delivery (30 files)	Implementation Approach and Plan, Discovery Workbook Guide, Fit-Gap Register, RAID Log, Data Migration and Cutover Plan, User Manual
Development (9 files)	Technical Reference, API and Dependency Catalogue, Data Dictionary, Release Notes Template
Support (20 files)	Production Support Approach and Standards, Schedules and Batch Jobs, Business Continuity and Disaster Recovery Plan, Communication Templates
Management (37 files)	OOTB Strategy and Playbook (INTERNAL), Commercial Proposal Note (INTERNAL), Release Notes and Roadmap, Architecture, Infrastructure, Security and Data Privacy

5. Index by lifecycle stage

Stage	Documents used

BrokerVerse_Reports_Book	docx, pdf, xlsx	Every report, dashboard and export with its columns and rules	Delivery, Support	Client-facing	Implementation, Support
BrokerVerse_Communication_Templates_and_Touchpoints	docx, pdf	Every e-mail, notification and printed document the system sends	Delivery, Support	Client-facing	Implementation, Support
BrokerVerse_Communication_Touchpoints	xlsx	Companion workbook of the communication templates	Delivery, Support	Client-facing	Implementation, Support
BrokerVerse_Schedules_and_Batch_Jobs	docx, pdf	Scheduled jobs, batch processes and the operational run book	Delivery, Support	Client-facing	Implementation, Go-live, Support
BrokerVerse_Test_Cases	xlsx	Release test cases, traceability and defects	Delivery, Development	Client-facing	Implementation, Go-live
BrokerVerse_Technical_Reference	docx, pdf	Code base, modules, security implementation and how to extend	Development, Support	Client-facing	Implementation, Support
BrokerVerse_API_and_Dependency_Catalogue	xlsx	Every API route with its permission and the screens that call it	Development, Support	Client-facing	Implementation, Support

6.4 Development and support

File	Formats	Purpose	Audience	Distribution	Used in
iNXT_BrokerVerse_Negotiation_Playbook_INTERNAL INTERNAL	docx, pdf	Discount limits, trade-offs and approval rules in negotiation	Sales, Management	INTERNAL	Contracting
BrokerVerse_Release_Notes_Template	docx, pdf	Release notes for each patch, minor or major release	Development, Support	Client-facing	Support
BrokerVerse_Production_Support_Approach_and_Standards	docx, pdf	Support model, severities, change and	Support, Management	Client-facing	Contracting, Go-live, Support

File	Formats	Purpose	Audience	Distribution	Used in
		release management, monitoring			
BrokerVerse_Business_Continuity_and_Disaster_Recovery_Plan	docx, pdf	Backups, recovery objectives, scenarios and DR tests	Support, Management	Client-facing	Contracting, Support

7. INTERNAL documents

These files never leave iorta TechNXT:

- sales/iNXT_BrokerVerse_Price_Book (xlsx): Price book with quick quote, packages and negotiation limits.
- out/iNXT_BrokerVerse_Competitive_Battlecard_INTERNAL (docx, pdf): Competitor positioning and proof points.
- out/iNXT_BrokerVerse_Negotiation_Playbook_INTERNAL (docx, pdf): Discount limits, trade-offs and approval rules in negotiation.
- out/iNXT_BrokerVerse_OOTB_Strategy_and_Playbook (docx, pdf): How iorta TechNXT sells, delivers, supports and evolves the OOTB product.
- out/BrokerVerse_Commercial_Proposal_Note (docx, pdf): Pricing rationale, market positioning and commercial assumptions.
- out/BrokerVerse_Commercials_and_Pricing (xlsx): Formula-driven pricing model behind the rate card.

8. Building the documents

Each Word and PDF document is built from its text source in source/ into the iorta TechNXT template:

```
cd docs/package/tools
python3 build_doc.py ../source/<name>.md ../out/<File_Name>.docx
python3 refresh.py ../out/<File_Name>.docx          (contents page and PDF)
```

The Product Functionality document also needs python3 brochure/widths.py on the .docx before refresh.py. The workbooks have their own builders (build_project_templates_xlsx.py for the Fit-Gap Register and the RAID Log, build_plan_xlsx.py, build_discovery_workbook.py, build_pricing.py, build_price_book.py, build_roi.py, build_questionnaire_xlsx.py). After rebuilding a sales document, copy the .docx and .pdf to sales/. Writing rules: tools/WRITING_RULES.md. This index is generated by build_pack_index.py.

9. Document Sign-Off
